3	Pre-bid Meeting Date and Venue Details	05.05.2026 03:00 PM. through virtual/physical mode at the Bank's Head office, Lucknow. Bidders willing to participate in the pre-bid meeting need to submit a maximum of 2 participant's names, contact numbers, designations and e-mail IDs on frm.mc.ho@upggb.bank.in on or before 04.05.2026 03:00 PM. The meeting link will be shared with the bidder's representative prior to the pre-bid meeting, and they will need to click the link to join the session.
4	Last Date of Submission/ Closing Date in Online & Offline Mode (Last Date of Submission of RFP Response)	19.05.2026 03.00 PM for both online bid and offline document submissions. For Offline submission of documents listed in Sl. No. 9 below, the sealed envelope shall be addressed to the Bank and to be delivered at the address below. The General Manager, Risk Management Department Fraud Risk Management Cell, Uttar Pradesh Gramin Bank, Head Office 2 nd Floor, NBCC Commercial Complex, Vardan Khand, Gomti Nagar Extension, Lucknow – 226010.
5	Eligibility cum Technical Bid Opening Date	19.05.2026 03:30 PM

6	Date, time and venue of presentation & demo by the bidders satisfying Eligibility Criteria prescribed in para 9.1 of Section II of this RFP	Shall be intimated separately by the Bank through email.
7	Opening of Commercial Bids	The commercial bids of only those bidders will be opened who satisfy the eligibility criteria and qualify in the technical evaluation. The date for commercial bid opening would be communicated via e-mail to the technically eligible Bidders.
8	Online Bid Submission Details	This RFP will follow e-Procurement (e-Tendering) process and the same will be conducted through Government e- Market Place (GeM) portal. The documents listed below in Sl.No 9 only to be submitted in offline physical mode.
9	Documents to be submitted physically by Bidders (Offline Mode)	Bid Security (EMD) for Rs 36,00,000/- (Rupees Thirty Six Lakhs only). To be submitted in either electronic mode or Bank Guarantee (issued by a nationalized/ scheduled commercial Bank located in India.
10	RFP Coordinators	Name: Mr Tarique Noaman Mobile No: 8960588072 Email id: frmc.ho@upgb.bank.in

The RFP document can also be downloaded from:

Bank's website: upgb.bank.in and Government e- Market Place (GeM) portal

In addition to above, a paper publication will be made for the information to the prospective bidders regarding this RFP. However, clarifications, modifications and date of extensions, if any, will be published in the Bank's website and GeM portal only.

Note: Uttar Pradesh Gramin Bank does not take responsibility of any bid/offer damaged/lost in transit/delivered at incorrect address prior to its receipt at the Bank's designated office.

Bank will follow two bid system. Part-I (Technical Bid) of the bid shall contain compliance details of the eligibility and terms & conditions set in the RFP document (including annexures) for which proposal/quotation is called for. Bids must be submitted in online mode only through Government e- Market Place (GeM) portal along with physical submission of certain documents at designated office

as mentioned in [Schedule \[A\]](#) (Important Dates and Information on RFP Submission). Further, Bidders must submit their commercial bid as per the format given in the RFP (as per [Part-II of Section-V](#)) along with the technical bid on the e-procurement (GeM) portal. Technical bids submitted by all the bidders will be evaluated and only technically qualified bidders will be called for opening of commercial bids.

1. Bidders should enroll/ register themselves on Government e- Market Place (GeM) portal before participating in bidding. All the documents in support of eligibility criteria etc. are also to be duly signed and stamped, scanned and uploaded along with the tender documents. Except as provided in this RFP, any document sent by any other mode will not be accepted.
2. Documents which are to be uploaded online are required to be duly signed by the Authorized Signatory under the seal of the bidder company / firm in every page. Any correction should be authenticated by the same signatory. If insufficient or false information is furnished and/or if there is any deviation or non-compliance of the stipulated terms and conditions, the bid will be liable for rejection.
3. The price quoted should be unconditional and should not contain any string attached thereto. Bid, which do not confirm to our eligibility criteria and terms & condition, will be liable for rejection.

The RFP document (along with addendums, if any) needs to be signed and stamped by the authorized signatory of Bidder and it must be submitted along with the Technical Bid as evidence of having read and understood the contents of RFP and its addendums (if any).

Time wherever mentioned in this RFP is as per Indian Standard Time. The above dates and timelines are tentative and subject to change without any prior notice or intimation. If a holiday is declared on the dates fixed for submission of bids, opening of bids (Technical or Commercial) or presentation, the same shall stand revised to the next working day at the specified time and place unless communicated otherwise.

This RFP is issued by:

The General Manager
Fraud Risk Management Cell,
Uttar Pradesh Gramin Bank, Head Office
2nd & 3rd Floor, NBCC commercial complex, Vardan Khand,
Gomti Nagar Extension, Lucknow

Confidentiality:

*This document is meant for the specific use by the Bidder/s to participate in the current tendering process. This document in its entirety is subject to Copyright Laws. Uttar Pradesh Gramin Bank expects the Bidders or any person acting on behalf of the Bidders to strictly adhere to the instructions given in the document and maintain confidentiality of information. **The Bidder/s do hereby undertake that they shall hold the information received by them under this RFP process or the contract “in trust” and they shall maintain utmost confidentiality of such information. The Bidders have to agree and undertake that (a) They shall maintain and use the information only for the purpose as permitted by the Bank (b) To strictly allow disclosure of such information to its employees, agents and representatives on “need to know” basis only and to ensure confidentiality of such information disclosed to them.** The Bidders will be held responsible for any misuse of information contained in this document or obtained from the Bank during course of RFP process, and liable to be prosecuted by the Bank in the event such breach of confidentiality obligation is brought to the notice of the Bank. By downloading the document, the interested parties are subject to confidentiality clauses.*

SCHEDULE [C] DISCLAIMER

The information in this Request for Proposal (“RFP”) document provided to bidders or applicants whether verbally or in documentary form by or on behalf of Uttar Pradesh Gramin Bank, is under the terms and conditions set out in this RFP document and shall also be subject to all other terms and

conditions to which such information is generally made available. This RFP document is not an agreement, offer or an invitation by Uttar Pradesh Gramin Bank to enter into an agreement/contract in relation to the service but is meant for providing information to the applicants who intend to submit the bids (hereinafter individually and collectively referred to as "Bidder" or "Bidders" respectively). This RFP is designed with the purpose to assist the applicants/ Bidders to formulate their proposal and does not claim to provide all the information that may be required by the applicants/ Bidders.

Each Bidder may conduct its own independent investigation and analysis and is free to check the accuracy, reliability, and completeness of the information in this RFP. Uttar Pradesh Gramin Bank and its directors, officers, employees, respondents, representatives, agents, and advisors make no representation or warranty and shall incur no liability under any law, statute, rules, or regulations as to the accuracy, reliability or completeness of this RFP. The information contained in the RFP document is selective and is subject to updation, expansion, revision, and amendment. It does not purport to contain all the information that a Bidder may require. Uttar Pradesh Gramin Bank does not undertake to provide any Bidder with access to any additional information or to update the information in the RFP document or to correct any inaccuracies therein, which may become apparent.

The Bidders, by accepting this document, agree that any information contained herein may be superseded by any subsequent written information on the same subject made available to the bidders or any of their respective officers/ employees or published in the Bank's website and/or GeM portal. It is also understood and agreed by the Bidder/s that decision of the Bank regarding selection of the Bidder will be final and binding on all concerned. No correspondence in this regard, verbal or written, will be entertained.

It shall be the duty and responsibility of the Bidders to ensure about their legal, statutory and regulatory eligibility and other competency, capability, expertise requisite for them to participate in this RFP process and to provide all the services and deliverables under the RFP to the Bank.

The applicant shall bear all its costs associated with or relating to the preparation and submission of its proposal including but not limited to preparation, copying, postage, delivery fees, expenses associated with any demonstrations or presentations which may be required by the Bank or any other costs incurred in connection with or relating to its proposal. The Bank shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by an applicant in preparation or submission of the proposal, regardless of the conduct or outcome of the selection process.

Uttar Pradesh Gramin Bank in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information in this RFP. Such change will be published on the Bank's Website and GeM Portal and it will become part and parcel of RFP.

Uttar Pradesh Gramin Bank reserves the right to reject any or all the bids/proposals received in response to this RFP document at any stage without assigning any reason whatsoever. The decision of Uttar Pradesh Gramin Bank shall be final, conclusive and binding on all the parties.

SCHEDULE [D]

SECTION – I

REQUEST FOR PROPOSAL (RFP)

Uttar Pradesh Gramin Bank is a Regional Rural Bank, with its Head office at Lucknow. The Bank has Pan-Uttar Pradesh network with 4329 branches, 65 Regional Offices, 12000 plus Business Correspondents and serves over 90 million customers. As of 31st Dec 2025, Bank's total business reached Rs.2.20 Lakh Cr.

The Bank intends to identify a vendor for **Supply, Installation Implementation, Management and Maintenance of Enterprise Fraud Risk Management Solution in the Bank.**

Bank will follow two-bid system. Part-I of the bid shall contain compliance details of the specifications for which RFP is called for. The Bidders should enroll/ register themselves on GeM portal before participating in bidding. **Except for the documents required to be submitted in physical form to the Bank, Bids have to be submitted online only through GeM portal.** The bidders also need to submit necessary documents physically through offline mode to the address mentioned in the RFP. The Commercial Bid (Part II) will be submitted separately along with the bid document.

Interested eligible bidders may submit their Bid for as specified in Part-I as per the following procedure:

1. Bidders should apply through GeM Portal only. All the documents in support of eligibility criteria etc. are also to be scanned and uploaded along with the tender documents. Bid Documents submitted/sent by any other mode will not be accepted.
2. **Part-I** contains compliance details of the specifications for which Bid is called for. No column shall be left blank or altered.
3. **Part-II** — Commercial along with price break up details to be submitted separately along with the bid documentation (Closed bidding process). After technical evaluation, intimation will be given to all technically qualified bidders about the date and time of opening of commercial bids.
4. Part-I ([as per Section-V - Technical & Functional Specifications](#)) & Part-II ([as per Section-V - Commercial bid](#)), to be uploaded online duly signed by the Authorized Signatory under the seal of the bidder company/ firm in every page. Any correction should be authenticated by the same signatory. If insufficient or false information is furnished and/or if there is any deviation or non-compliance of the stipulated terms and conditions, the quotations will be liable for rejection. The price quoted in the Commercial bid should be unconditional and should not contain any strings attached thereto. The bids which do not conform to our specifications will be liable for rejection and offers with a higher configuration will not attract any special consideration in deciding the vendor.
5. Bank has the right to accept or reject any quotation/cancel the e-tender at its sole discretion, at any point, without assigning any reason thereof. Also, Bank has the discretion for amendment / alteration / extension before the last date of receipt of bid.
6. Bank will also provide benefits to Micro and Small Enterprises (MSEs) as per the guidelines of public procurement policy issued by Government of India. The bidders to submit declaration for claiming MSE Benefits as per [Annexure-VII](#).

RESTRICTION OF BIDDERS FROM COUNTRIES SHARING LAND BORDERS WITH INDIA:

As per Ministry of Finance, Department of Expenditure, Public Procurement Division's office memorandum F.No.6/18/2019-PPD dated 23.07.2020, regarding insertion of Rule 144 (xi) in the General Financial Rules (GFR) 2017, any bidder from a country which shares a land border with India will be eligible to bid either as a single entity or as a member of a JV / Consortium with others, in any procurement whether of goods, services (including consultancy services and non-consultancy services) or works (including turnkey projects) only if the bidder is registered with the Competent Authority. The Competent Authority for registration will be the Registration Committee constituted by the Department for Promotion of Industry and Internal Trade (DPIIT). Political & Security clearance from the Ministries of External and Home Affairs respectively will be mandatory.

However, above condition shall not apply to bidders from those countries (even if sharing a land border with India) to which the Government of India has extended lines of credit or in which the Government of India is engaged in development projects. Updated lists of countries to which lines of credit have been extended or in which development projects are undertaken are given in the website of the Ministry of External Affairs (MEA).

"The successful bidder shall not be allowed to sub-contract works to any contractor from a country which shares a land border with India unless such contractor is registered with the Competent Authority"

Definitions pertaining to "Restriction of Bidders from Countries sharing Land Borders with India" Clause "Bidder" (including the term 'tenderer', 'consultant' 'vendor' or 'Service Provider' in certain contexts) means any person or firm or company, including any member of a consortium or joint venture (that is an association of several persons, or firms or companies), every artificial juridical person not falling in any of the descriptions of bidders stated herein before, including any agency, branch or office controlled by such person, participating in a procurement process.

"Bidder from a country which shares a land border with India" means:

- a) An entity incorporated, established or registered in such a country; or
- b) A subsidiary of an entity incorporated, established or registered in such a country; or
- c) An entity substantially controlled through entities incorporated, established or registered in such a country; or
- d) An entity whose beneficial owner is situated in such a country; or
- e) An Indian (or other) agent of such an entity; or
- f) A natural person who is a citizen of such a country; or
- g) A consortium or joint venture where any member of the consortium or joint venture falls under any of the above

"Beneficial owner" will be as under:

- a. Where the customer is a company, the beneficial owner is the natural person(s), who, whether

acting alone or together, or through one or more juridical persons, has/have a controlling ownership interest or who exercise control through other means.

Explanation – For the purpose of this sub-clause:

- "Controlling ownership interest" means ownership of/entitlement to more than 10 per cent of the shares or capital or profits of the company.
- "Control" shall include the right to appoint majority of the directors or to control the management or policy decisions including by virtue of their shareholding or management rights or shareholder's agreements or voting agreements.

- b. Where the customer is a partnership firm, the beneficial owner is the natural person(s), who, whether acting alone or together, or through one or more juridical person, has/have ownership of/entitlement to more than 10 per cent of capital or profits of the partnership or who exercises control through other means.

Explanation – For the purpose of this sub-clause, "control" shall include the right to control the management or policy decision.

- c. Where the customer is an unincorporated association or body of individuals, the beneficial owner is the natural person(s), who, whether acting alone or together, or through one or more juridical person, has/have ownership of/entitlement to more than 15 percent of the property or capital or profits of the unincorporated association or body of individuals.

Explanation — Term "body of individuals" includes societies. Where no natural person is identified under (a), (b), or (c) above, the beneficial owner is the relevant natural person who holds the position of senior managing official.

- d. Where the customer is a trust, the identification of beneficial owner(s) shall include identification of the author of the trust, the trustee, the beneficiaries with 10% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

"Agent" is a person employed to do any act for another, or to represent another in dealings with third persons.

7. Please note that

- (i) The cost of preparing the bids, including visit / visits to the Bank is not reimbursable.
- (ii) Each recipient should notify the Bank of any error, fault, omission, or discrepancy found in this RFP document but not later than last date of receiving clarifications.
- (iii) The Bank is not bound to accept any of the bids submitted and the bank has the right to reject any/all bid/s or cancel the tender at any point without assigning any reason thereof.
- (iv) All pages of the Bid document, Clarifications/Amendments, if any, should be signed by the Authorized Signatory under the seal of the bidder company/ firm and to be uploaded with technical bid. A certificate to the effect that the Authorized Signatory has authority to bind the company/ firm should also be attached along with the technical bid.
- (v) The Authority/Bank shall not be liable for any omission, mistake or error in respect of any of the above or on account of any matter or thing arising out of or concerning or relating to RFP, Bidding Documents or the Bidding Process, including any error or mistake therein or in any

information or data given by the Authority.

(vi) Nothing in this RFP shall obligate either Party to enter into any further Agreements.

After technical evaluation, intimation will be given to all technically qualified bidders about the date and time of opening of commercial bids.

Note: The tender cannot be split.

SECTION – II

INSTRUCTIONS TO BIDDERS

1. INTRODUCTION

The Bidder is expected to examine all instructions, forms, terms and specifications given in the Bidding Documents. If any element of doubt arises, the same should be clarified from the Bank in terms of this RFP. Failure to furnish all information required in the Bidding Documents may result in the rejection of its bid and will be at the Bidder's own risk. Bank shall not be responsible for the same.

2. PRE-BID MEETING

- a. A pre-bid meeting is scheduled to be held through physical/Video Conference. Bidder's designated / authorized representatives (maximum two persons) may attend the pre-bid meeting.
- b. The purpose of the meeting will be to clarify the doubts raised by the probable bidders.
- c. The Bidder is requested to submit any queries/clarifications to the Bank latest by 04.05.2026 03:00 PM. by writing to the following email id: frmc.ho@upgb.bank.in

In case the probable Bidder wants to participate in the Pre-Bid Meeting to be held on the date specified in this bid, they should register themselves with the Bank by writing to the email-id frmc.ho@upgb.bank.in, latest by 04.05.2026 03:00 PM.

The text of the questions raised (without identifying the source of enquiry) and the responses given, together with amendments to the bid document, if any, will be ported in Banks website: <https://www.upgb.bank.in> and GeM portal.

3. AMENDMENT OF BIDDING DOCUMENTS

- a. At any time prior to the deadline for submission of bids, the Bank, for any reason, whether at its own initiative or in response to clarification(s) requested by a prospective Bidder, may modify/ cancel/ extend/ amend the Bidding Document by modification(s) / amendment(s).
- b. All prospective bidders who register for pre-bid meeting or submit queries through specified email, will be communicated the details of amendments and clarifications. The amendments, if any, will be published on Bank's website and in the GeM Portal and will form part of the Bidding document. All email communication with the Bank with respect to this RFP document must be addressed to email-id frmc.ho@upgb.bank.in only.
- c. Any bid submitted by a bidder under this RFP process cannot be withdrawn / modified after the last date for submission of the bids unless specifically permitted in writing by the Bank.

4. TECHNICAL BID

The Bidder shall furnish as part of its technical bid, documents establishing the bidder's eligibility to bid and its qualifications to perform the Contract.

The documentary evidence of the Bidder's eligibility to bid and qualifications to perform the Contract if its bid is accepted, shall establish to the Bank's satisfaction that, the Bidder has the financial and technical capability necessary to perform the Contract and that, the Bidder meets the qualification requirements.

Any bid document not accompanied by the above shall be rejected.

5. COMMERCIAL BID

1. The Bank will open commercial bids only after a notice is given to the technically qualified bidders based on evaluation of Part-I of the Bid (Technical evaluation). The price submitted by Bidders in GeM system will be treated as the final offer of that bidder and bid will be evaluated accordingly.
2. The calling for Bids does not confer any right on a bidder for being awarded any purchase order.

6. CLARIFICATION OF BIDS

During evaluation of the bids, the Bank may, at its discretion, seek clarification from the Bidder/s. The request for clarification and the response shall be in writing/ by email, and no change in the substance of the bid shall be sought, offered, or permitted.

The Bidder shall make his/her own interpretation of any and all information provided in the Bidding Document. The Bank shall not be responsible for the accuracy or completeness of such information and/or interpretation. Although certain information is provided in the Bidding Document, however, bidder shall be responsible for obtaining and verifying all necessary data and information, as required by him. The Bank shall not be bound to accept the lowest tender and reserves the right to accept any or more tenders in part. Decision of the Bank in this regard shall be final.

7. BID SECURITY (EARNEST MONEY DEPOSIT)

The Bidder should submit at the time of online submission of Bid, as part of its bid, a bid security / EMD in the electronic form or a Bank Guarantee issued by a Schedule Commercial Bank (other than Uttar Pradesh Gramin Bank) located in India, in the form provided in the Bidding Documents (Annexure XIV) for a sum of INR 36,00,000/-.

Unsuccessful Bidders' Bid Security will be discharged or returned. The successful Bidder's Bid Security will be discharged upon the Bidder signing the Contract and furnishing the performance security.

The bid security may be forfeited if:

- a) Bidder withdraws its bid during the period of bid validity or does not accept the correction of errors in accordance with the terms of RFP;

Or

- b) In the case of a successful Bidder, if the Bidder fails or refuses to sign the Contract within the specified time from the date of issue of purchase order or fails or refuses to furnish performance security.

8. COST OF BID DOCUMENT

Cost of Bid Document amounting to Nil.

9. EVALUATION CRITERIA

Bid evaluation methodology that Uttar Pradesh Gramin Bank is adopting is given below:

As mentioned in the relevant chapters of the RFP. The evaluation will be done based on the Techno-Commercial evaluation where Technical weightage will be 70% and commercial weightage will be 30%.

9.1 ELIGIBILITY CRITERIA

Bank is looking for eligible bidders for selecting a vendor for **Supply, Installation, Implementation, Management and Maintenance of Enterprise Fraud Risk Management solution**, only those Bidders who fulfil the following criteria are eligible to respond to the RFP. 2	The Bidder is not from such a country which shares a land border with India, in terms of the said amendments to GFR, 2017. (or) The Bidder is from such a country and has been registered with the Competent Authority i.e. the Registration Committee constituted by the Department for Promotion of Industry and Internal Trade, as stated under Annexure to the said Office Memorandum / Order and we submit the proof of registration herewith.	Undertaking as per Annexure-VIII to be submitted.
3	a. The bidder should be either the Original Equipment Manufacturer (OEM) / Original Software Developer (OSD) or their authorized representative in India. In cases where the manufacturer has submitted the bid, the bids of its authorized dealer will not be considered and EMD will be returned. And in case of violations, both infringing bids will be rejected. b. If any product of Principal / Original Equipment Manufacturer (OEM) is being quoted in the tender, the OEM Company cannot bid for any other OEM's product.	In case of authorized representative / partner of the primary product, MAF from OEM as per Annexure-XIX in their letter Head needs to be provided. (Name, designation, contact no & official mail id of the signing authority must be clearly mentioned in the MAF.) In case bidder itself is OEM of the EFRM Solution, undertaking as per Annexure- XX on their company's letter head should be

	c. If an Indian Authorized Representative (IAR) submits bid on behalf of the Principal/OEM, the same IAR shall not submit a bid on behalf of any other Principal/OEM in the same tender for the same item/product. d. Joint Bids / Bids by Consortium are not acceptable. A bid submitted by a single System Integrator (SI) is acceptable. Bids submitted by a group (consortium) of multiple SIs will not be accepted. The Bidder (which is OEM/OSD) must have an average annual turnover of minimum Rs. 72 Crores during last 3 Financial Years. Other authorized representative must have an average annual turnover of minimum Rs 9 Crores during last 3 Financial years. If financial statements for 2025-26 is unaudited, the bidder can submit audited financial statements of 2022-23, 2023-24 & 2024-25 along with letter of undertaking that FY 2025-26 statement is not audited.	provided. Provide CA Certificate as per Annexure- XIII and Audited Financial statements (Balance sheet and Profit & Loss statement) for three (3) financial years. The CA certificate provided in this regard should be without any riders or qualification. If the bidder is already working in a Scheduled Public/Private sector Bank in India and is a wholly owned subsidiary of a global OEM/OSDs operating in India, the global turnover may be considered for the last 3 financial years viz. 2025, 2024 and 2023 subject to an unconditional undertaking from the Parent Company for completion of the proposed project, in case the bidder (wholly owned Indian subsidiary) defaults or fails to honour the RFP/Contract.
4	The net worth of the Bidder firm (manufacturer or principal of authorised representative) (i) should not be negative as on 31.03.2025 and also (ii) should not have eroded by more than 30% (thirty percent) in the last three years, ending on 31.03.2025.	Self-attested Copies of audited financial statements duly certified by auditor along with the auditor's report to be enclosed. If the bidder is already working in a Scheduled Public/Private sector Bank in India and is a wholly owned subsidiary of a global OEM/OSDs operating in India, the global net worth may be considered for the last 3 financial years viz. 2025, 2024 and 2023 subject to an unconditional undertaking from the Parent Company for completion of the proposed project, in case the bidder (wholly owned Indian subsidiary) defaults or fails to honour the RFP/Contract.
5	The Bidder and OEM should not have been debarred/ blacklisted for corrupt and fraudulent practices by the Govt. of India / State Governments / Regulatory	A Self-Declaration to be furnished by the Bidder on the Company's letter head for the same as per Annexure-II.

	Agencies / PSU/other institutions at the time of submission of bid.	
6	Bidder (manufacturer or principal of authorised representative) should not be insolvent, in receivership, Bankrupt, or being wound up.	Self-Declaration on Bidder's Letterhead signed by the authorized signatory.
7	Bidder/OEM/OSD should be in the Enterprise Fraud Risk Management software business, at least for a period of last Five years (last Three years for MSE/Startup bidders) as on the date of bid submission.	PO and Sign-Off/Go Live/satisfaction letter as proof of implementation should be provided in support.
8	The proposed solution of the Bidder should be integrated and running in real time at an Enterprise level in at least 2 Scheduled Public/Private Sector Banks in India. Out of the two Banks one should have a minimum of 3500 branches and the other should have a minimum of 2000 branches. The proposed solution should be present in the Banks for a minimum period of last Five years as on 31.03.2026. In the above 2 banks, the proposed solution should have been integrated for both financial & non-financial transactions in all channels mentioned as under and in real time. Exception is provided only in case of CBS (Branch Transactions) where Near Real Time/Batch implementation is also considered: (i) Mobile Banking (ii) Internet Banking (iii) UPI (iv) Debit Card (ATM Switch) (v) CBS (Branch Transactions) (vi) AEPS Note: The above clauses are for eligibility purpose only. Bank requires an implementation in real time preventive mode and integration at an enterprise level mandatorily for all the above mentioned channels as well as other channels mentioned elsewhere in the RFP.	Self-declaration / OEM / OSD letter with name of banks and supporting document issued by other banks / PO copy can be provided in support along with Annexure-XII .
9	OEM/OSD should have its development & support center in India with at least 200 technical resources (in India) on its roles to provide onsite and on-demand support as on the date of RFP. This should be a full-fledged existing establishment and not created for the submission of this Bid.	OEM should specifically certify in this regard mentioning the address of such Centres on company letter head duly signed by the authorised signatory.
10	The Bidder should have its development & support	Undertaking from the bidder on

	center in India with at least 100 technical resources (In India) on its roles across areas such as Technical Architecture, Engineering/ Development/ Testers, Design Engineers, Business Analyst (in Banking Domain etc.) — (including the resources in support and Maintenance Activities) as on 31.03.2025. If the Bidder is also the OEM/OSD of the proposed solution then both the Eligibility clauses specified at serial no 10 & 11 have to be complied by the bidder.	bidder's letter head mentioning the address of such Centres signed by the authorized signatory of the bidder.
11	The bidder should be a valid ISO 9000/9001 or ISO/IEC 27001 certification holder company for the IT related activities.	Copy of the ISO 9000/9001 or ISO/IEC 27001 certificate should be submitted along with the Technical bid.
12	Bidder should have all necessary licenses, permissions, no objections, approvals as required under the law for carrying out its business. It should have valid GST and other applicable taxes registration certificates/PAN etc.	Undertaking to be submitted.
13	Bidder should provide undertaking that any of its subsidiary or associate or holding company or companies having common director/s or companies in the same group of promoters/management or partnership firms/LLPs having common partners has not participated in the bid process.	Self-undertaking to be submitted on company letter head.
14	Labour Law Compliances	Certificate is to be provided by the chartered accountant /statutory auditor/ Self-undertaking as per Annexure-XVII .
15	Both Bidder & OEM to provide an undertaking on their letter head that all the technical & functional features highlighted as part of Scope of work are covered in totality in the proposed solution submitted by the bidder.	Letter of confirmation from Bidder as per Annexure-XV .

Note:

- Attested photocopies of all relevant documents / certificates should be submitted as proof in support of the claims made. The bidder should provide relevant additional information wherever required in the eligibility criteria. The Bank reserves the right to verify /evaluate the claims made by the Bidder independently. Any decision of the Bank in this regard shall be final, conclusive and binding upon the Bidder.
- Either the Bidder on behalf of the OEM/OSD or the OEM/OSD themselves can participate in the bid, but both cannot bid simultaneously for the same solution.
- The proposed solution quoted in this RFP should be a higher/latest version of the solution already implemented in other Banks.

- No change/ addition / deletion to be made by the Bidder to any of the clauses. In case any such modification is observed in words / sentence / clause in any of the Bank's standard clauses or documents or formats, and noticed by the Bank at any stage, the Bidder may be liable for disqualification / termination, and in such case, EMD / PBG could be forfeited, at the sole discretion of the Bank.
- Non-financial transactions include, but not limited to: Balance Enquiry, Pin/Password change, mini statement, add beneficiary/payee, failed /pass login etc.

Documentary evidence must be furnished against each of the above criteria along with an index. All documents must be signed by the authorized signatory (Copy of Board Resolution or Power of Attorney authorising the signatory to participate in the bid on behalf of the company to be provided) of the Bidder. Relevant portions, in the documents submitted in pursuance of eligibility criteria, should be highlighted.

9.2 GENERAL EVALUATION CRITERIA

All bids will be evaluated by an evaluation / tender committee designated for this purpose. The Bank will review each bid to ensure completeness, proper signing of documents, and overall compliance with the bid requirements. Minor informalities, non-conformities, or irregularities that do not significantly deviate from the bid's terms may be waived by the Bank.

Before detailed evaluation, the Bank will assess the substantial responsiveness of bid documents. A substantially responsive bid is one that adheres to all terms and conditions without material deviations. During the evaluation period, bidders may be asked for additional details or explanations, which they should provide within the specified timeframe.

Inviting bidders for technical presentations or seeking information during technical evaluation does not imply qualification in the open tender. Technical evaluation will carry a weightage of 70%, and commercial evaluation will carry a weightage of 30%. The combined weightage will determine the successful bidder.

The bidder must fully comply with the eligibility criteria outlined in SubSection 9.1 of SECTION II, all mandatory specifications detailed in the Functional and Technical Specifications as outlined in SubSection 20 of SECTION III and all other mandatory points, within this RFP. Compliance with each requirement must be clearly indicated and submitted. Failure to comply with any one or more Eligibility, Mandatory criteria will result in disqualification of the bidder.

9.3 EVALUATION PROCESS

The evaluation and selection of successful bidder will be a 4 stage process as follows:

1. Stage 1: Qualifying Criteria for Technical Bid: As stated in Section 9.4
2. Stage 2: Technical Evaluation (Section 9.5), presentation, experience, etc.
3. Stage 3: Commercial evaluation as stated in Section 9.6
4. Stage 4: Weighted Evaluation as stated in Section 9.7

9.3.1 GENERAL GUIDELINES: QUALIFYING CRITERIA - TECHNICAL BID

Those bidders who have qualified (as per 9.1- Eligibility Requirements and all the Mandatory Specifications stated in Functional Specification and Technical Specification complied) will be further evaluated.

- a. Any remarks columns will be used for information only and will not affect either the scoring or the scope of technical and functional specifications.
- b. All bidders must submit their technical bids considering their capabilities and capacities that need to be elaborated and must include, but not limited to, the Scope, Functional and Technical Specifications as well detailed solutions, wherever sought for, specifically. The **explanation provided in AnnexureXV will also be used to understand the responses better.**
- c. All bidders to make a presentation to Uttar Pradesh Gramin Bank representatives on their response to RFP. A soft copy of presentation to be made available to Bank prior to presentation meeting. The dates for such presentations will be declared after opening the technical bid. Maximum **3** representatives from each bidder would be allowed to give the presentation before the Bank.
- d. Those Qualified Respondents who meet a minimum 70% in the technical evaluation under stage 2 will be considered for evaluation under Stage 3- Commercial Evaluation.
- e. No separate information will be sent to the disqualified bidders. Any decision of the Bank in this regard shall be final, conclusive and binding on the bidder.
- f. The Bank at its discretion may reject the proposal of the Bidder or will not consider bidder below cut-off marks by relaxing as mentioned above, if in the Bank's opinion the bidder could not present or demonstrate the proposed solution as described in the proposal or in case the responses received from the customer contacts / site visited are negative or the proposed solution does not meet the Bank's functional and technical requirement the "Aggregate Technical Score" secured by the Bidders will not be used in the Weighted Evaluation.

9.3.2 GENERAL GUIDELINES: COMMERCIAL BID EVALUATION –

Commercial proposal should be uploaded online, which would give all price information. No information should be kept blank. Offer should be in strict conformity with the format and condition as given in Section-V Part-II Commercial Bid.

- I. The prices and other terms offered by the bidder must be firm for an acceptance period of 180 days from the last date for submission of tender document to the Bank.
- II. The prices quoted by the bidder should be inclusive of Duties/ Insurance / Freight/procurement / maintenance / development / coding / Licensing and all other charges relating to **Supply, Installation, Implementation, Management and Maintenance of Enterprise Fraud Risk Management solution** including all taxes, duties, levies, GST etc. The Vendor is expected to provide both the commercial and masked bids (without amounts being submitted in the technical response). There will be no price escalation during the contract period. Bid submitted with an adjustable price quotation will be treated as non-responsive and will be rejected.
- III. The prices offered shall be on a fixed price basis and should not be linked to variables like foreign exchange rate.
- IV. Any contradictory information, conditional pricing, exclusion of any item in TCO computation

or error in computation may lead to summary disqualification of the bid as per sole discretion of Bank.

- V. A detailed evaluation of the commercial bid would be done to ensure that the commercial bid calculations quoted are free from computational errors. Commercial bids having computational error(s) will be deemed as non-responsive.
- VI. The bidder should quote the TCO up to 2 decimal points only.

9.3.3 ARITHMETICAL ERRORS WILL BE RECTIFIED ON THE FOLLOWING BASIS:

- I. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected.
- II. Further If there is a discrepancy between words and figures, the amount in words will prevail.
- III. If the bidder does not accept the error-correction, the bid will be rejected.
- IV. If there is discrepancy in total corresponding to the addition or subtraction of sub-totals, the sub-totals shall prevail, and the total price shall be corrected.

9.3.4 CORRECTION OF ERROR IN COMMERCIAL BID:

Bank reserves the right to correct any arithmetical errors furnished in the Commercial Bid. If any such errors are noticed, it will be rectified on the following basis:

- a) Bank may waive off any minor infirmity or non-conformity or irregularity in a bid, which does not constitute a material deviation.
- b) If there is discrepancy between the unit price and total price (which is obtained by multiplying the unit price by the quantity), the unit price shall prevail and the total price shall be corrected accordingly.
- c) If there is discrepancy between percentage and amount, the amount calculated on percentage basis will prevail.
- d) If there is discrepancy in the total arrived at (addition, subtraction, multiplication, division and carryover of amount from one page to another), correct total will be arrived at the Bank and the same will prevail over the total furnished by the bidder.
- e) If there is a discrepancy between words and figures, the rate/ amount in words shall prevail, unless the amount expressed in words is related to an arithmetical error in which case, the amount in figures will prevail, subject to the above two provisions.

If the bidder does not accept the correction of errors, the bid will be rejected and EMD may be forfeited.

9.3.5 WEIGHTED EVALUATION

- I. In respect of all the qualified bidders, in whose case, the commercial bid has been opened; a combined techno-commercial evaluation will be done by the Bank. Based on the combined weighted score for technical bid evaluation and commercial bid evaluation, the bidders shall be ranked in terms of the total score obtained. The technical bid evaluation will be having 70% weightage while Commercial bid evaluation will have 30% weightage. The proposal obtaining the highest total combined score in evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 shall be recommended for award of contract.
- II. The bank will calculate the scores up to two decimal points only for each technical and commercial weighted evaluation. If the third decimal point is greater than 0.005, then the same shall be scaled up, else it shall be scaled down to arrive at two decimal points. Subsequently

the same will be used for calculation of the final combined Score of each of the eligible bidder.

III. Illustration:

The weightage assigned to Technical evaluation is 70% and for Commercial evaluation 30%. In such case, the combined score shall be obtained by weighing the technical and financial scores in the ratio of 70:30 and adding them up. The evaluation methodologies vis-à-vis the weightages are as under:

The Score will be calculated for all eligible and technically qualified Bidders based on the following formula:

$H = (T/T \text{ High} \times 70) + (C \text{ Low}/C \times 30)$ where:

H = Combined Score of the Bidder

T = Aggregate Technical score of the Bidder

T High = Highest Aggregate Technical Score amongst the bidders, C = Commercial Quote as provided by the Bidder, C Low = Lowest Commercial Quote of C amongst the Bidders. Based on combined weighted score for technical and financial, the bidder shall be ranked in terms of total score obtained. The proposal obtaining the highest combined score in evaluation will be ranked as H-1 followed by the proposals securing lesser score as H2, H3, etc. The bidder securing the highest combined score will be considered for awarding the contract in terms of this RFP.

Example

Bidder	Aggregate Technical Score (T)	Nominal Bid Price in INR (C)	Technical Weightage (T1)	Commercial Weightage (C1)	Combined Score (out of 100) H= T1 + C1
A	95	271	$95/95 \times 70 = 70.00$	$260/271 \times 30 = 28.78$	$70.00 + 28.78 = 98.78$ (H-1)
B	85	265	$85/95 \times 70 = 62.63$	$260/265 \times 30 = 29.43$	$62.63 + 29.43 = 92.06$ (H-2)
C	80	260	$80/95 \times 70 = 58.94$	$260/260 \times 30 = 30.00$	$58.94 + 30.00 = 88.94$ (H-3)

In the above example, Bidder A with highest score (H1) becomes the successful Bidder. In case of a tie between bidders i.e. if two or more bidders receive the same combined score, the bidder with the higher aggregate technical score shall be declared as (H1).

Kindly note that the Bank reserves the right to finalize the scores from the available bid documents and presentation made by the bidder and the Bank's decision on technical and commercial evaluation is FINAL.

9.4 Stage 1: TECHNICAL QUALIFICATION

Technical Bids to the RFP would be evaluated on the Functional & Technical criteria set in **Functional and Technical Specification** under scope of work and the points in 9.1 (eligibility criteria) for compliance and by assigning the relevant scoring on each of the technical parameters as below:

1. Bidder will have to fully comply with Section 9.1-Eligibility Criteria of this RFP and Non-compliance to any one or more criteria will disqualify the bidder.

2. All points under Functional & Technical specifications under Sub-Section 20 under Section -III, as mentioned in this RFP are mandatory. Bidder must comply with each of these mandatory line items. Non-compliance to any one or more rows item under those heads will disqualify the bidder.
3. Each line item under Functional & Technical specification will be given a score of 1, if it is already available in the product.
4. Each line item under Functional & Technical specification will be given a score of 0 if it is not already available in the product but is customizable before Go Live of the proposed solution.
5. However, if any point in the Functional or Technical Specification is neither available in the product nor is customizable, the bidder will be disqualified.
6. The total marks scored under Technical & Functional specification by each bidder will be rationalized to a score out of 350.
7. The minimum qualifying marks out of 350 for Functional & Technical Score would be 301.
8. On qualifying the criteria in Section 9.1 Eligibility Criteria and items under Functional and Technical Specification, further scoring will be done as per criteria mentioned in Stage 2: Technical Evaluation Section 9.5.

9.5 Stage 2: TECHNICAL EVALUATION

The total score for technical evaluation is 1000 which will be given 70% weightage in techno-commercial evaluation. Minimum cut off marks is 626 out of 1000 for overall aggregate Technical Score.

The Technical Evaluation will be based on a matrix consisting of the following criteria:

Table A

S.No.	Technical Evaluation	Evaluation Methodology	Marks
1	Technical & Functional Specifications (Max. Marks - 35 marks)	The Bidder is required to submit the compliance for Technical & Functional Specifications as per Section 9.4.	35
2	Proposed EFRM Solution should have been integrated with Core Banking System in real time (financial and non-financial transactions) in any Indian public sector or private sector banks: 2 Marks for each implementation, maximum of 5 implementations can be shown (Max. Marks 10 marks)	Purchase Order and Reference Letter (or) a certificate from the Bank stating that bidder has successfully implemented the EFRM solution on Real time with Core banking system along with the name of the banks/clients reference contact details to be submitted.	10

3	Reference Site definition: Proposed EFRM Solution to be implemented in Scheduled Public Sector or Private Sector Banks in India having: a) Minimum of 4000 branches b) And Customer Base of 4.00 Cr c) And in these banks the selected solution should be running live and integrated with the below mentioned channels/source systems mandatorily as on date of RFP release: i. Core Banking ii. Mobile Banking iii. Internet Banking iv. UPI v. Debit Card vi. AEPS ➤ 3 or more such reference sites:10 marks ➤ 2 reference sites: 5 marks ➤ 1 reference site: 3 marks (Max. Marks 10 marks)	Satisfactory performance certificate/ Reference Letter from client/Self declaration in the bidder's letter head mentioning the required details and copy of purchase order /contract agreement/ work order to his effect /go live certificate to be submitted.	10
4	In any one of the reference sites provided for the Technical scoring criteria No. 3 the deployed solution must be integrated with first 6 (mandatorily) out of below mentioned source systems/ channels in real time as on date of RFP release: i. Core Banking ii. Mobile Banking iii. Internet Banking iv. UPI(without threshold limits) v. Debit Card vi. AEPS vii. Prepaid Cards viii. Credit Card ix. IMPS, NEFT, RTGS x. SWIFT xi. Remittances xii. GBM xiii. Forex xiv. Nostro & Vostro xv. BBPS xvi. Payment Gateway xvii. Treasury - xviii. Trade Finance	Satisfactory performance certificate/ Reference Letter from client/Self declaration in the bidder's letter head mentioning the required details and copy of purchase order /contract agreement/ work order to his effect /go live certificate to be submitted.	10

	- Integration with a source system / channels on real time carries 1 mark each. - Integration with more than or equal to 10 channels on real time : 10 marks - If first 6 mandatory channels are not integrated on Real time, then no marks will be allotted. (Max. Marks -10 marks)										
5	Number of Scheduled Commercial Banks in India where the proposed solution is live with more than or equal to 1500 TPS (Transaction per second) ➤ 1 Bank with more than or equal to 1500 TPS: 5 marks ➤ 2 or more banks with more than or equal to 1500 TPS:10 marks (Max. Marks - 10 marks)	Certificate from the banks to be provided that proposed solution is live with more than or equal to 1500 TPS (Transaction per second). All eligible bidders will be required to arrange Physical/Virtual Site Visits and Reference checks for the Bank's Team in Scheduled Public/Private Sector Bank in India where the proposed solution is implemented at an Enterprise level. The format for reference check is as per Annexure-XXI	10								
6	Presentation & Demo by the Bidder of the working proposed solution: The technical presentation will be evaluated by the bank on various parameters such as - Proposed Solution - IT Architecture and approach - Project Methodology - Project Governance - Security Aspects - Other features as per RFP document (Max. Marks - 25 marks)	All eligible bidders will be required to make presentations based on the Scope of Work (SoW) defined in the RFP, Important areas which have to be covered is highlighted below. The bank will schedule the date and time of the presentations and communicate to the bidders. Failure of a bidder to provide presentation to the bank covering the functionalities expected in the SoW, may result in rejection of the bid. <table border="1"> <thead> <tr> <th>S N o</th><th>Area</th><th>Indicative References (not exhaustive)</th><th>Marks Allocated</th></tr> </thead> <tbody> <tr> <td>1</td><td>General Capabilities and Unique Selling Proposition of the solution.</td><td>Section-III Scope of Work & Functional and Technical Specifications: H3, H4, H5, H7, H8, H9, H10, H11, H12, H13, H14, H15, H16, H17, H18, H19, H20, H21, H22, H25, A3,</td><td>5</td></tr> </tbody> </table>	S N o	Area	Indicative References (not exhaustive)	Marks Allocated	1	General Capabilities and Unique Selling Proposition of the solution. 		Bank may demand evidence of specific prerequisites/functionalities within the scope of the RFP. Bank reserves the right to recalibrate the technical and functional scores on the basis of evidences demonstrated during the Presentation.				
	Total					100

Other Conditions - Technical Bid

- The highest technical bidder may not automatically qualify for becoming successful bidder and for award of contract by the bank.
- In case of a tie of Total Score between two or more bidders, the Bid with higher technical score would be chosen as the successful Bidder.
- The bank will calculate the scores up to two decimal points only. If the third decimal point is greater than 0.005, then the same shall be scaled up, else it shall be scaled down to arrive at two decimal points.
- Bidder has to submit an undertaking as per Annexure-XXV pertaining to Product Presentation, Demonstration and Implementation Readiness.
- The scores of the bidders based on technical evaluation will not be shared / communicated to the bidders. Bank reserves the right to recalibrate the technical & functional marks awarded on the basis of the solution capability measured by the evaluation team during the presentation and demo of the product as well as feedback of references and site visit. Bank also reserves the right for rejection of any Bid, if any major deviation pertaining to the claims made through the documents and the actual technical & functional capabilities of the solution is found.
- Final technical marks will be awarded ONLY after completion of presentation, demo, feedback of references and site visit. As the Bank reserve right to redo the scoring on parameters where bidder has marked full compliance / configurable based on presentation, demo, feedback of references.
- While updating the technical score in GeM, marks will be updated out of 100 only.
- Scoring parameters under technical presentation and product demonstration are spread across the technical and functional scope of deliverables, the technical architecture, scalability, adaptability, reliability, security, robustness, and adoption of analytical models, AI/ML, Gen AI to effectively detect and prevent frauds in real time. The horizontal scale across functionalities, capacity to adopt to latest payment channels as well as track and prevent latest methods of frauds, the self-training / learning capability and recommendation capabilities without bias, capability to

determine false positives / true negatives will be decisive in the evaluation process. The evaluation process will be an aggregation and analysis of the evidences produced in the bid documents, duly validated by the banks team in conjunction with the capabilities evaluated during the presentation and demo and supported by the feedback from the reference check done by the Bank.

9.6 Stage 3: COMMERCIAL EVALUATION

- Technically qualified bidders as per technical evaluation process will be invited to participate in commercial bid opening process. The bidder should quote as per Price Format in Indian Rupees as the all-inclusive price for the desired work / services.
- Bidder needs to quote for the complete set of solution including software, license, warranty support, ATS support, OTS etc. as per the requirements of the RFP.
- While submitting the financial bid, following must be kept in mind:
 - a. The price quoted should include all costs associated with the assignment (support, maintenance, xscops etc.) and taxes including GST. A separate tax breakup should be provided by the bidder.
 - b. The financial proposal should not include any conditions attached to it and any such conditional financial bid shall be summarily rejected.
 - c. The financial bid should be submitted in the Price Format given in — [Section V Part-II Commercial Bid format](#).

9.7 Stage 4: WEIGHTED EVALUATION

Please refer Section 9.3.5, Weighted Evaluation. In respect of all the qualified bidders, in whose case, the commercial bid has been opened; a combined techno-commercial evaluation will be done by the Bank. Based on the combined weighted score for technical bid evaluation and commercial bid evaluation, the bidders shall be ranked in terms of the total score obtained. The technical bid evaluation will be having 70% weightage while Commercial bid evaluation will have 30% weightage. The proposal obtaining the highest total combined score in evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 shall be recommended for award of contract.

10. PROPOSAL PROCESS MANAGEMENT

The Bank reserves the right to accept or reject any or all proposals received in response to the RFP without assigning any reasons thereof. Also, the bank reserves rights to revise the RFP, to request one or more re-submissions or clarifications from one or more Bidders, or to cancel the process in part or whole without assigning any reasons.

Additionally, Bank reserves the right to alter the requirements, in part or whole, during the RFP process, and without re-issuing the RFP. Each party shall be entirely responsible for its own costs and expenses that are incurred in the RFP process, including presentations, demos and any other meetings.

11. LIABILITIES OF THE BANK

This RFP is not an offer by Bank, but an invitation for bidder responses. No contractual obligation on behalf of Bank whatsoever shall arise from the RFP process unless and until a formal contract is signed and executed by duly authorized officials of Bank and the bidder.

12. BID AND PROPOSAL OWNERSHIP

The Bid submitted and all supporting documentation/ templates are the sole property of Uttar Pradesh Gramin Bank and should NOT be redistributed, either in full or in part thereof, without the prior written consent of Bank. Violation of this would be a breach of trust and may, inter-alia cause the Bidder to be irrevocably disqualified. The proposal and all supporting documentation submitted by the Bidder shall become the property of Uttar Pradesh Gramin Bank and will not be returned.

13. BID PRICING INFORMATION

By submitting a signed bid, the Bidder certifies that:

- a) The Bidder has arrived at the prices in its bid without agreement with any other bidder of this RFP for the purpose of restricting competition; and
- b) The prices in the bid have not been disclosed and will not be disclosed to any other bidder of this RFP; and
- c) No attempt, to induce any other bidder to submit or not to submit a bid for restricting competition, has occurred.

14. TIMELINE FOR SUBMISSION OF BIDS

- a. Bids must be received in the GeM portal ONLY. However, only docs specified shall be submitted in physical form as mentioned in this RFP document and by the date and time mentioned in the "Schedule of Events".
- b. In the event of the specified date for submission of Bids being declared a holiday for the Bank, the Bids will be received up to the appointed time on the next working day.
- c. In case the Bank extends the scheduled date of submission of the Bid document, the Bids shall be submitted by the time and date rescheduled. All rights and obligations of the Bank and Bidders will remain the same.
- d. Any Bid received after the deadline for submission of Bids prescribed will be rejected and returned unopened to the Bidder.

15. MODIFICATION AND WITHDRAWAL OF BIDS:

- a. The Bidder may modify or withdraw its Bid after the Bid submission, provided that written notice of the modification, including substitution or withdrawal of the Bids, is received by the Bank, before the deadline prescribed for submission of Bids.
- b. A withdrawal notice may also be sent by email, but followed by a signed confirmation copy, not later than the deadline for submission of Bids.
- c. No modification in the Bid shall be allowed, after the deadline for submission of Bids.
- d. No Bid shall be withdrawn in the interval between the deadline for submission of the Bid and the expiration of the period of Bid validity specified by the Bidder on the Bid Form. Withdrawal of a Bid during this interval may result in the forfeiture of EMD submitted by the Bidder.
- e. Withdrawn Bids, if any, will be returned unopened to the Bidders.

16. BID INTEGRITY

The wilful misrepresentation of any fact within the Bid will lead to the cancellation of the contract without prejudice to other actions that the Bank may take. All the submissions, including any accompanying documents, will become the property of Uttar Pradesh Gramin Bank. The Bidders shall be deemed to license, and grant all rights to Uttar Pradesh Gramin Bank, to reproduce the whole or any portion of their product for evaluation, and to disclose and/ or use the contents of submission as the basis for

RFP process.

17. BIDDING PROCESS/OPENING OF TECHNICAL BIDS:

- i. All the technical Bids received up to the specified time and date will be opened online for initial evaluation on the time and date mentioned in the schedule of events of this document.
- ii. In the first stage, only technical Bids will be opened and evaluated. Proposals of such Bidders satisfying eligibility criteria and agreeing to comply with all the terms and conditions specified in the RFP will be evaluated for technical criteria/specifications/eligibility. Only those Bids that comply with technical criteria shall become eligible for commercial Bid opening and further RFP evaluation process.
- iii. The Bank will examine the Bids to determine whether they are complete, the required formats have been furnished, the documents have been properly signed, EMD for the desired amount and validity period is available and the Bids are generally in order. The Bank may, at its discretion waive any minor non-conformity or irregularity in a Bid which does not constitute a material deviation.
- iv. Before the detailed evaluation, the Bank will determine the responsiveness of each Bid to the bidding Document. For purposes of these Clauses, a responsive Bid is one, which conforms to all the terms and conditions of the bidding Document in to, without any material deviation.
- v. The Bank's determination of a Bid's responsiveness will be based on the contents of the Bid itself, without recourse to extrinsic evidence.
- vi. Attendance of all the representatives of the Bidders who are present at the bid opening will be taken in a register against Name, Name of the Company, and with full signature.
- vii. If any of the Bidders or all the Bidders who submitted the tender are not present during the specified date and time of opening, it will be deemed that such Bidder is not interested in participating in the opening of the Bid/s, and the Bank at its discretion will proceed further with the opening of the Technical Bid.
- viii. After opening the technical Bids and preliminary evaluation, the eligible Bidders may be asked to make presentations on the Services proposed to be offered by them.
- ix. If a Bid is not responsive, it will be rejected by the Bank and will not subsequently be made responsive by the Bidder by correction of the non-conformity.
- x. Uttar Pradesh Gramin Bank reserves the right to accept or reject any or all the bids.

18. EVALUATION OF PRICE BIDS AND FINALIZATION:

- I. The successful Bidder (H1) will be selected based on the final scores after the Techno-Commercial Evaluation, as stated in Para 9.
- II. The successful Bidder is required to provide rate confirmation and rate breakup strictly on the lines of [Section-V Part-II](#) Commercial Bid within 2 working days of the conclusion of the Techno-Commercial Evaluation, failing which the Bank may take appropriate action.

Errors, if any, in the price breakup format will be rectified as under:

- I. If there is a discrepancy between the unit rate(s) and total price which is obtained by multiplying the unit rate with quantity, the unit rate shall prevail, and the total price shall be corrected unless it is a lower figure. If the Bidder does not accept the correction of errors, the Bid will be rejected.
- II. If there is a discrepancy in the unit rate quoted in figures and words, the unit rate in figures or words, as the case may be, which corresponds to the total Bid price for the Bid shall be taken

as correct.

III. If the vendor has not worked out the total Bid price or the total Bid price does not correspond to the unit rate quoted either in words or figures, the unit rate quoted in words shall be taken as correct.

IV. The Bidder should quote for all the items/Services desired in this RFP.

19. CONTACTING THE BANK:

- I. No Bidder shall contact the Bank on any matter relating to its Bid, from the time of opening of Price Bid to the time, the Contract is awarded.
- II. Any effort by a Bidder to influence the Bank in its decisions on Bid evaluation, Bid comparison, or contract award may result in the rejection of the Bidder's Bid.

20. AWARD CRITERIA:

- i. The bank will notify the successful Bidder in writing by letter or email that their Bid has been selected. The Selected Bidder must return the duplicate copy of the same to the Bank within 7 **days**, duly Accepted, Stamped, and Signed by the Authorized Signatory in token of acceptance.
- ii. The RFP including all addendums in total shall be incorporated into the contract by reference.
- iii. Uttar Pradesh Gramin Bank has the right to cancel any or all the bids and Uttar Pradesh Gramin Bank's decision would be final. The bid shall be typed or written in indelible ink and shall be signed by the bidder or a person duly authorized to bind the bidder to the contract. The authorization shall be supported by a written power of attorney accompanying the Bid. All pages of the bid except un-amended printed literature shall be initiated by the person(s) signing the Bid. The bid shall contain no interlineations, erasures, or overwriting except as necessary to correct errors made by the bidder, in which case such corrections shall be initiated by the person(s) signing the bid.
- iv. The successful Bidder will have to submit a Non-Disclosure Agreement (NDA) as per [Annexure-VI](#), wherever applicable, Performance Bank Guarantee for the amount and validity as desired and strictly on the lines of format given in [Annexure-IV](#) of this document together with acceptance of all terms and conditions of RFP.
- v. Copy of board resolution or power of attorney showing that the signatory has been duly authorized to sign the acceptance letter, contract, and NDA should be submitted.
- vi. The acceptance of the Purchase Order will constitute the formation of the Contract.
- vii. The successful Bidder shall be required to enter a contract/ SLA with the Bank, within 30 days of award of the tender or within such extended period as may be decided by the Bank.
- viii. Until the execution of a formal contract, the Bid document, together with the Bank's notification of the award and the vendor's acceptance thereof, would constitute a binding contract between the Bank and the successful Bidder.
 - i. The contract/ agreement will be based on Bidder's offer document with all its enclosures, modifications arising out of negotiation /clarifications, etc., and will include SLA, project plan — phases & milestones and schedule, copies of all necessary documents, licenses, certifications, etc.
 - ii. The Bank reserves the right to stipulate, at the time of finalization of the contract, any other document(s) to be enclosed as a part of the final contract.
 - iii. Failure of the successful Bidder to comply with the requirements/terms and conditions of this RFP shall constitute sufficient grounds for the annulment of the award and forfeiture of the EMD and PBG.

- iv. Upon notification of the award to the H1 Bidder, the Bank will promptly notify the award of the contract to the successful Bidder on the Bank's website. The EMD of each unsuccessful Bidder will be discharged and returned.

21. POWERS TO VARY OR OMIT WORK:

- I. No alterations, amendments, omissions, additions, suspensions, or variations of the work (hereinafter referred to as variation) under the contract shall be made by the successful Bidder except as directed in writing by the Bank. The Bank shall have full powers, subject to the provision hereinafter contained, from time to time during the execution of the contract, by notice in writing to instruct the successful Bidder to make any variation without prejudice to the contract. The finally selected Bidder shall carry out such variation and be bound by the same conditions as far as applicable as though the said variations occurred in the contract documents. If any, suggested variations would, in the opinion of the finally selected Bidder, if carried out, prevent him from fulfilling any of his obligations under the contract, he shall notify the Bank thereof in writing with reasons for holding such opinion and Bank shall instruct the successful Bidder to make such other modified variation without prejudice to the contract. The finally selected Bidder shall carry out such variation and be bound by the same conditions as far as applicable, as though the said variations occurred in the contract documents. If the Bank confirms its instructions, the successful Bidder's obligations shall be modified to such an extent as may be mutually agreed if such variation is substantial and involves considerable extra cost. Any agreed difference in cost occasioned by such variation shall be added to or deducted from the actual cost arising as per the rate(s) finalized, as the case may be.
- II. In any case in which the successful Bidder has received instructions from the Bank as to the requirements for carrying out the altered or additional substituted work which either then or later on, will in the opinion of the finally selected Bidders, involve a claim for additional payments, such additional payments shall be mutually agreed in line with the terms and conditions of the order.
- III. If any change in the work is likely to result in a cost reduction, the parties shall agree in writing to the extent of change in contract price (rate), before the finally selected Bidder(s) proceeds with the change. In all the above cases, in the event of a disagreement as to the reasonableness of the said sum, the decision of the Bank shall prevail.

22. NO WAIVER OF BANK RIGHTS OR SUCCESSFUL BIDDER'S LIABILITY:

Neither any sign-off, nor any payment by the Bank for acceptance of the whole or any part of the work, nor any extension of time, nor any possession taken by the Bank shall affect or prejudice the rights of Bank against the finally selected Bidder(s), or relieve the finally selected Bidder(s) of his obligations for the due performance of the contract, or be interpreted as approval of the work done, or create liability in the Bank to pay for alterations/ amendments/ variations or discharge the liability of the successful Bidder(s) for the payment of damages whether due, ascertained, or certified or not or any sum against the payment of which he is bound to indemnify the Bank nor shall any such certificate nor the acceptance by him of any such amount paid on account or otherwise affect or prejudice the rights of the successful Bidder against Bank.

23. CONTRACT AMENDMENTS:

No variation in or modification of the terms of the Contract shall be made, except by written amendment, signed by the parties.

24. BANK'S RIGHT TO ACCEPT ANY BID AND TO REJECT ANY OR ALL BIDS:

- i. This RFP is not an offer to contract but rather is to be used to establish a common framework within which an agreement can be reached. Bidder shall warrant and put forth in writing that the deliverables and services proposed shall be performed, at the minimum, in accordance with all requirements specified herein in such a manner to achieve the overall intent and purpose described in this RFP.
- ii. The Bank reserves the right to accept or reject any Bid in part or in full or to cancel the bidding process and reject all Bids at any time before contract award, without incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for the Bank's action.

25. SERVICES:

- i. Bidder should ensure that the quality of methodologies for delivering the services, adhere to quality standards/timelines stipulated therefor.
- ii. Bidder shall provide and implement patches/ upgrades/ updates for software as and when released or as per requirements of the Bank, with no extra cost to the Bank. Bidder should bring to the notice of the Bank all releases/ version changes.
- iii. The bidder shall obtain written permission from the Bank before applying any of the patches/ upgrades/ updates. Bidder must support older versions of the hardware/ software/ operating system/middleware etc. in case the Bank chooses not to upgrade to the latest version. During the entire period, the Bidder must undertake comprehensive support of the product or specified hardware/software and all new versions, releases, and updates for all standard products or specified hardware/software that needs to be installed at no additional cost.
- iv. Bidder shall provide maintenance support for software over the entire period of the contract.
- v. The selected Bidder shall support the product or specified software during the period of the Contract as specified in the Scope of Work in this RFP.
- vi. During the support period, the Bidder shall maintain the product or specified software to comply with the parameters defined in this RFP. The Bidder shall be responsible for all costs relating to labour, spares, maintenance (preventive and corrective), compliance with security requirements, and transport charges from and to the Site(s) in connection with the repair/ replacement of product and ensure continuity of service.
- vii. During the support period, the vendor shall ensure that services of professionally qualified personnel are available for providing continuity in services at sites as per the Bank's requirements. Continuity of Services shall include, among other things, day-to-day maintenance of the premises or software, compliance to security requirements, etc. when required or in the event of system crash/malfunctioning, arranging and configuring facility as per the requirements of the Bank, fine-tuning, system monitoring, log maintenance, etc. The Bidder shall provide services of expert technical support at Bank's DC and DR sites, whenever it is essential.
- viii. In the event of product or specified hardware/software breakdown or failures at any stage, protection available, which would include the following, shall be specified.
 - a. Diagnostics for identification of product or specified hardware/software failures

- b. Protection of data/configuration
- c. Recovery/restart facility
- d. Backdrop of product or specified hardware/software/configuration
- ix. Prompt support shall be made available as desired in this RFP during the support period at the locations as and when required by the Bank.
- x. The Bidder shall be agreeable to on-call/on-site support during peak weeks (the last and first week of each month) and at the time of switching over from DC to DR and vice-versa. No extra charge shall be paid by the Bank for such needs, if any, during the support period.
- xi. The Bidder support staff should be well-trained to effectively handle queries raised by the customers/employees of the Bank.
- xii. An updated escalation matrix shall be made available to the Bank once in each quarter and each time the matrix gets changed.
- xiii. The data created during the Contract period will be the exclusive property of Uttar Pradesh Gramin Bank and the bidder shall not utilize/share with any third party/sell the same to any third party. The bidder shall comply with the Bank's security policy for Uttar Pradesh Gramin Bank.

26. COMPLIANCE WITH IT & IS SECURITY POLICY:

While Bidder's personnel are performing implementation or maintenance services at Uttar Pradesh Gramin Bank's, the Vendor shall have to comply with the Bank's IT & IS Security policy. Some of the key areas are as under:

- I. Responsibilities for data and application privacy and confidentiality
- II. Physical and logical separation of customer data from other vendors/applications
- III. In general, confidentiality, integrity, and availability must be ensured.
- IV. The Vendor shall comply with all applicable guidelines issued by RBI, NABARD and other regulatory authorities regarding IS and Cyber Security.
- V. The Bank will have the right to conduct audits of the Vendor/service provider, either directly or through its internal/external auditors or authorized third-party agencies during the contract period. The Vendor shall provide full access to relevant systems, records, documents, logs, infrastructure and personnel related to the services rendered to the Bank.
- VI. The Vendor shall also permit inspection and supervision by RBI, NABARD or any other statutory authority, including access to records and systems, and shall extend full cooperation during such audits or inspections.
- VII. The Vendor shall ensure that **periodic Information Security and Cyber Security audits** are conducted (preferably by **CERT-In empanelled auditors**) and shall ensure timely compliance with the audit observations.
- VIII. Compliance with the provisions of the Digital Personal Data Protection Act, 2023 (DPDP Act) and other relevant act/guideline of Government of State and Government of India.
- IX. Implementation and compliance of CSITE/CERT-In advisory issued from time to time.
- X. The selected bidder shall ensure that the proposed solution undergoes Vulnerability Assessment and Penetration Testing (VAPT) through a CERT-In empanelled auditor. The assessment shall also include Static Application Security Testing (SAST), Dynamic Application Security Testing (DAST), and secure code review in accordance with OWASP guidelines and secure development practices.
- XI. All identified vulnerabilities shall be remediated in line with industry best practices, and no Critical or High-risk vulnerabilities shall remain unresolved at the time of Go-Live. Detailed assessment reports, along with remediation evidence and closure validation, shall be submitted to the Bank for review and approval.

- XII. Any deviation from the defined security requirements shall require prior written approval from the Bank, supported by documented risk acceptance, in line with the Bank's internal risk management framework and applicable regulatory guidelines.
- XIII. Post Go-Live, the solution shall undergo periodic VAPT and security assessments as per the Bank's Information Security Policy, regulatory requirements, and audit observations, including but not limited to guidelines issued by the Reserve Bank of India (RBI), CERT-In advisories, and other applicable authorities.
- XIV. Timelines for Remediation:
- Critical vulnerabilities: within 7 calendar days
 - High vulnerabilities: within 15 calendar days
 - Medium vulnerabilities: within 30 calendar days
 - Low vulnerabilities: within 60 calendar days
- XV. Penalty for Non-Compliance: In case of failure to remediate vulnerabilities within defined timelines, the Bank shall levy a penalty of:
- ₹10,000 per Critical vulnerability per week of delay
 - ₹5,000 per High vulnerability per week of delay
 - The total penalty shall be subject to a cap of 10% of the total contract value, unless otherwise specified.
- XVI. Go-Live Dependency: Go-Live shall not be permitted if any Critical or High vulnerabilities remain open. Any exception shall require formal risk acceptance by the Bank's competent authority.
- XVII. Re-testing & Validation: The bidder shall conduct re-testing at no additional cost until closure of identified vulnerabilities is validated by the Bank or its appointed auditor.
- XVIII. **The Vendor shall execute and comply with the following agreements / regulatory requirements with the Bank prior to commencement of services:**
- **Escrow Agreement**
 - **Non-Disclosure Agreement (NDA)**

The details of the Bank's IT & IS Security Policy, covering the key areas, as specified in section 25 (xiii) of Section II of this RFP, will be shared with the selected Bidder.

27. RIGHT TO VERIFICATION:

The Bank reserves the right to verify any or all of the statements made by the Bidder in the tender document and to inspect the Bidder's facility, if necessary, to establish to its satisfaction the Bidder's capacity/capabilities to perform the job.

28. PURCHASE PRICE:

- I. The total cost of Services would be the Total Cost of Ownership (TCO) and has to be quoted in commercial Bid.
- II. Bidders should ensure that exchange rate fluctuations and changes in import duty/other taxes should not affect the rupee value of commercial bids over the validity period defined in this RFP.
- III. The applicable TDS will be deducted at the time of payment of invoices.
- IV. Terms of payment are given elsewhere in this RFP.

- V. Prices payable to the Vendor as stated in the Contract shall be firm and not subject to adjustment during the performance of the Contract, irrespective of reasons whatsoever, including exchange rate fluctuations, any upward revision in duties, charges, etc.

29. RIGHT TO AUDIT:

The Bank reserves the right to audit, inspect, or review the Vendor's systems, documents, and processes relating to the services provided under this contract, with or without prior notice, either by itself or through authorized representatives.

30. NON-SHARING OF RESOURCES:

All dedicated resources including premises, personnel, and technology for Uttar Pradesh Gramin Bank, when are free and are not in use, will be left to remain idle and the bidder shall not use these for any other process due to security reasons.

31. VALIDITY OF AGREEMENT:

The Agreement/ SLA will be valid for the period of the contract. The Bank reserves the right to terminate the Agreement as per the terms of the RFP.

During the shifting of the services to the new bidder, the selected bidder shall provide necessary help for the smooth switch over, and necessary information support to Uttar Pradesh Gramin Bank's staff and/or Uttar Pradesh Gramin Bank-appointed third party, for running the eFRM operations without any additional cost, thus ensuring continuity of service to Uttar Pradesh Gramin Bank customers. During the transition the price paid to vendor will be same as initially contracted even if the term runs beyond contract period.

32. DELAY IN THE VENDOR'S PERFORMANCE:

- I. Services shall be made available by the Vendor within the timelines prescribed in this document.
- II. If at any time during the performance of the Contract, the Vendor should encounter conditions impeding timely delivery and performance of Services, the Vendor shall promptly notify the Bank in writing of the fact of the delay, its likely duration, and cause(s). As soon as practicable after receipt of the Vendor's notice, the Bank shall evaluate the situation and may, at its discretion, extend the Vendor's time for performance, in which case, the extension shall be ratified by the parties by amendment of the Contract.
- III. Any delay in performing the obligation/ defect in performance by the Vendor may result in the imposition of penalty, liquidated damages, invocation of Performance Bank Guarantee, and/or termination of the contract (as laid down elsewhere in this RFP document)

33. VENDOR'S OBLIGATIONS:

- I. The Vendor is responsible for and obliged to conduct all contracted activities in accordance with the contract using state-of-the-art methods and economic principles and exercising all means available to achieve the performance specified in the Contract.
- II. The Vendor is obliged to work closely with the Bank's staff, act within its own authority abide by directives issued by the Bank from time to time, and complete implementation activities.
- III. The Vendor will abide by the job safety measures prevalent in India and will free the Bank from all demands or responsibilities arising from accidents or loss of life, the cause of which is the Vendor's negligence. The Vendor will pay all indemnities arising from such incidents

and will not hold the Bank responsible or obligated.

- IV. The Vendor is responsible for managing the activities of its personnel or sub-contracted personnel (where permitted) and will hold itself responsible for any misdemeanours.
- V. The Vendor shall treat as confidential all data and information about Uttar Pradesh Gramin Bank, obtained in the process of executing its responsibilities, in strict confidence and will not reveal such information to any other party without prior written approval of the Bank as explained under 'Non-Disclosure Agreement' in [Annexure-VI](#) of this document.
- VI. Bidders need to exchange mail (through the Bank's Domain), and store data/files on a laptop/desktop. There should be a provision for regular backups of the laptop/desktop/servers. Back-up should be stored/archived as per regulatory guidelines and access management to the same must be restricted. Bank / Regulatory authorities may call for such communication/data for compliance purposes.

34. TECHNICAL DOCUMENTATION:

- I. The vendor shall provide documents related to review records/ Test Bug Reports/ Root Cause Analysis Reports, a list of all Product components, Data Dictionary, a list of all dependent/external modules, and a list of all documents relating to traceability of service level failure, within mutually agreed TAT as and when required by the Bank.
- II. The Vendor shall also provide the MIS reports as per requirements of the Bank. Any level/ version changes and/or clarification corrections or modifications in the above-mentioned documentation should be supplied by the Vendor to the Bank, free of cost promptly.

35. FRAUD & CORRUPT PRACTICES:

- I. The Bidder and their respective officers, employees, agents, and advisers shall observe the highest standard of ethics during the bidding Process. Notwithstanding anything to the contrary contained herein, the Bank shall reject an application without being liable in any manner whatsoever to the Bidder if it determines that the Bidder has, directly or indirectly or through an agent, engaged in corrupt/fraudulent/coercive/undesirable or restrictive practices in the bidding Process.
- II. Without prejudice to the rights of the Bank, if a Bidder is found by the Bank to have directly or indirectly or through an agent, engaged or indulged in any corrupt/fraudulent/coercive/undesirable or restrictive practices during the bidding process, such Bidder shall not be eligible to participate in any EOI/RFP issued by the Bank during a period of 2 (two) years from the date such Bidder is found by the Bank to have directly or indirectly or through an agent, engaged or indulged in any corrupt/ fraudulent/ coercive/ undesirable or restrictive practices, as the case may be.
- III. For this Clause, the following terms shall have the meaning hereinafter, respectively assigned to them:
 - (a) "corrupt practice" means
 - (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the actions of any person connected with the bidding Process (for the avoidance of doubt, offering of employment to or employing or engaging in any manner whatsoever, directly or indirectly, any official of the Bank who is or has been associated in any manner, directly or indirectly with the bidding process or the Letter of Authority or has dealt with matters concerning the Concession Agreement or arising there from, before or after the

execution thereof, at any time before the expiry of one year from the date such official resigns or retires from or otherwise ceases to be in the service of the Bank, shall be deemed to constitute influencing the actions of a person connected with the bidding Process); or (ii) engaging in any manner whatsoever, whether during the bidding process or after the issue of the Letter of Authority or after the execution of the Agreement, as the case may be, any person in respect of any matter relating to the Project or the Letter of Authority or the Agreement, who at any time has been or is a legal, financial or technical adviser of the Bank concerning any matter concerning the Project;

- (b) **“Fraudulent practice”** means a misrepresentation or omission of facts suppression of facts or disclosure of incomplete facts, to influence the bidding Process;
- (c) **“Coercive practice”** means impairing or harming or threatening to impair or harm, directly or indirectly, any person or property to influence any person’s participation or action in the bidding Process;
- (d) **“Undesirable practice”** means (i) establishing contact with any person connected with or employed or engaged by the Bank with the objective of canvassing, lobbying, or in any manner influencing or attempting to influence the bidding process; or (ii) having a Conflict of Interest; and
- (e) **“Restrictive practice”** means forming a cartel or arriving at any understanding or arrangement among Bidders with the objective of restricting or manipulating a full and fair competition in the bidding Process.

36. TAXES AND DUTIES:

- I. The Vendor shall be liable to pay all corporate taxes and income tax that shall be levied according to the laws and regulations applicable from time to time in India and the price Bid by the Vendor shall include all such taxes in the contract price.
- II. The rate (s) quoted should be inclusive of all Central / State Government taxes/duties, GST, and levies as per the Government notification in this regard, from time to time and shall be borne by the Bank.
- III. Rate(s) payable to the Vendor as stated in the Contract shall be firm and not subject to adjustment during the performance of the Contract, irrespective of reasons whatsoever, including exchange rate fluctuations, or any upward revision in Custom duty. The Bidder will pass on to the Bank, all fiscal benefits arising out of reductions, if any, in Government levies viz. custom duty or the benefit of discounts if any announced in respect of the cost of the items for which orders have been placed during that period.
- IV. All expenses, stamp duty, and other charges/ expenses in connection with the execution of the agreement as a result of this RFP process shall be borne by the Vendor.

37. TAX DEDUCTION AT SOURCE:

- I. Wherever the laws and regulations require the deduction of such taxes at the source of payment, the Bank shall affect such deductions from the payment due to the Vendor. The remittance of amounts so deducted and issuance of certificate for such deductions shall be made by the Bank as per the laws and regulations for the time being in force. Nothing in the

Contract shall relieve the Vendor from his responsibility to pay any tax that may be levied in India on income and profits made by the Vendor in respect of this contract.

- II. The Vendor's staff, personnel, and labour will be liable to pay personal income taxes in India in respect of such of their salaries and wages as are chargeable under the laws and regulations for the time being in force, and the Vendor shall perform such duties regarding such deductions thereof as may be imposed on him by such laws and regulations.

38. TENDER FEE:

Not applicable in case of GeM.

39. LEGAL RELATIONSHIP

Until the execution of a formal contract, the Bid document, together with the Bank's notification of the award and the bidder's acceptance thereof, would constitute a binding contract between the Bank and the successful Bidder.

SECTION – III

Broad Scope of Work – Enterprise Fraud Risk Management Solution

1. About the Project

The purpose of this Request for Proposal (RFP) is to procure an Enterprise Wide Fraud Risk Management (EFRM) Solution that has to be installed, implemented, managed and maintained for Uttar Pradesh Gramin Bank. The quality of EFRMS is of prime importance for the Risk Mitigation of the Bank.

2. Project Objective

Uttar Pradesh Gramin Bank is offering various delivery channels to our customers and therefore it's imperative that Bank has an EFRM solution which will be able to:

- Support the prevention, detection, analytics and management of frauds across user profiles, accounts, products, processes and channels in Real time.
- The solution to monitor, analyse user activity, behaviour and trends at the application level in order to watch what transpires inside and across customer accounts, using any/all banking channels available to the user.
- It should also analyse behaviour among related users, accounts, customer profiles or other entities, looking for organized criminal activity, fraud rings, corruption or misuse.
- The solution should have a combination of highly complex algorithms, sophisticated system architecture & design for the optimum flow of data, AI/Machine Learning models for predictive analysis coupled with the best computer engineering design for response time of real time transaction monitoring in milliseconds.
- Detect, investigate, and prevent fraud across all delivery channels (online, mobile, ATM, UPI etc.).
- Reduce fraud losses to the Bank by improving the accuracy and efficiency of fraud detection by reducing false positives and false negatives.
- Enhance regulatory compliance by ensuring adherence to relevant data security and privacy regulations.
- Improve operational efficiency by streamlining fraud risk management processes.

3. Scope of work General Requirements

1. The successful bidder will provide Enterprise wide solution for identifying suspicious transactional behavior in respect of rules, preventive, detective types of controls, mechanism to alert the customers in case of failed authentication and capture response of the customers and manage EFRM alerts accordingly, time frame for the same, etc. across all the above mentioned source systems and any new initiative launched by the bank during contract period.
2. Selected bidder will provide Term Enterprise License and ATS for implementation period+5 years for the proposed EFRM solution. Thereafter the term license and ATS may be extended at mutually agreed rates and tenure at the discretion of the Bank.
3. Scope includes implementation of proposed EFRM solution at Primary Data Center (Including Test/ Development/ Training environments) and Disaster Recovery (DR) Site. The proposed EFRM solution should be integrated with all existing delivery channels & other delivery channels to be deployed in the future by the Bank during the contract period. In case, the DC and/or DR relocate to another place, the bidder will provide the solution to the new location without any extra cost.
4. The proposed EFRM solution should be integrated with Bank's following applications both in Real Time & Near Real Time/Batch mode in Preventive (deny) & Detective (alert) mode for Financial Transactions (Both Inward & Outward), Non-financial transactions, Reports and authentication purpose with proposed solution:

- A. Branch Transactions *
- B. UPI (Both Inward & Outward)
- C. Mobile Banking
- D. Internet Banking (
- E. Debit Card (ATM Switch)
- F. AEPS
- G. IMPS (Inward & Outward)
- H. NEFT & RTGS (Inward & Outward)
- I. BBPS (Inward & Outward)

For Customer Outreach, the proposed EFRMS should be integrated with the Bank's:

- i. Call Centre & IVRS
- ii. SMS Gateway for 2FA and trigger SMS for various risk based authentication & scenarios and TOTP
- iii. EMAIL Gateway for 2FA and trigger emails for risk based scenarios.
- iv. Step up Authentication Application
- v. Behavioural Biometric Solution

The proposed EFRM Solution should take/give feeds from/to the Bank's:

- a. KYC/AML Application
- b. EWS Application
- c. DoT's FRI and MNRL data
- d. OSM Application (Offsite Monitoring Application)
- e. External feeds (for example Neustar, Maxmind, Lexis Nexis, Group-IB, RSA etc.)
- f. Any other banks solutions like HRMS etc

* Branch Transactions (including monitoring of Internal Accounts, Staff Accounts, Asset, Liability, New Accounts, Money mules, CTS, NACH, PFMS, Open API etc.)

** Behavioural Biometric software development key (SDK) to be provided by the vendor.

- 5. All the delivery Channels have to be integrated strictly in Real Time/ Preventive (deny) mode. However, the proposed solution should Prevent (deny) and Monitor (alert) frauds in both real-time and near real-time (response time of less than 3 second) mode at an Enterprise Level. Few Rules may be configured in Near Real Time (NRT) mode and also in Batch mode as per the Bank's requirement. Real Time and Near Real Time (NRT) are defined as response time of less than 100 milliseconds and 3 seconds respectively. The proposed solution should handle a Transaction Per Second (TPS) of 5000 transactions at the peak.
- 6. The solution should respond to the source channels on the basis of implemented checks/scenarios within 100 milliseconds of receiving the transaction details from source channels.
- 7. A single transaction is defined as a request to the proposed solution from the Bank's System/Switch and communication of the final decision back to the Bank's System/Switch; all intermediary hops are considered as part of the same transaction including reversals.
- 8. Proposed solution should integrate with Cybersafe, cybercrime.gov.in, Cyber Crime I4C portal under MHA, Digital Intelligence Platform developed by the Department of Telecommunication and other Government repositories (Data and/or API level). The solution should have capabilities of marking debit freeze/lien automation and push back of action status to the respective department.
- 9. Selected bidder should provide justified timelines for implementation and integration of the

Solution with all other channels.

10. Overall scope should ensure full coverage of 24X7X365 monitoring and fraud prevention for integrated channels and products.
11. The successful bidder will be responsible to provide necessary Application Software, required to implement the solution at Bank's site.
12. The solution should cater to increase in Year on Year customer base and transaction flow with sufficient adaptability and robustness. The hardware sizing that will be quoted as part of this RFP should be sufficient enough to meet the requirement of the bank during the 1+ 5 year contract period.
13. The bidder has to come up with a solution mechanism to provide a fool-proof enterprise-wide fraud prevention platform for the Bank while complying with Bank's guidelines.
14. The solution should have DC & DR environments. DR shall be functional in the case of disruptions, planned downtimes, DR Drills and whenever required by Bank.
15. The Bidder should implement the proposed solution at Bank's advised premises in High Availability mode, along with DR and a minimum uptime time of 99.90% per quarter.
16. The bidder shall demonstrate successful DR drill before go live of the solution at DC & DR.
17. The bidder is also required to conduct at least one DR drill of the proposed Platform in a quarter or as per the bank's requirement.
18. The Data replication should happen from Primary site to DR site in real time to keep them in sync with a Recovery Time Objective (RTO) of 120 Minutes and Recovery Point Objective (RPO) of 10 minutes.
19. The proposed solution must support load balancing across multiple servers/ Nodes / clusters for transparent failover, complete disaster recovery and optimal service delivery, Single application failure etc.
20. The selected vendor shall provide the solution and commissioning, configuration, implementation, integration with different channels, maintenance and management including upgrades, updates and reconfiguration, fine-tuning, preventive maintenance, onsite support, remote support, support required during Downtime, DR Drills etc. wherever required.
21. The selected bidder should conduct a gap analysis and submit a detailed study of the Bank's infrastructure and requirements relating to the EFRM solution.
22. Certificate of implementation of the solution as per RFP and scope of work is to be given by OEM of the solution before go-live.
23. Both the Selected bidder and OEM should sign the Source code Escrow arrangement with the Bank in case the Bidder is a SI. In case the Bidder is also the OEM of the proposed solution, then the OEM will sign the source code escrow arrangement with the Bank.

Solution Capabilities:

- I. The proposed solution should integrate with Bank's 'Finacle' Core banking System. Also, new versions of the CBS (Core Banking System) should be supported.
- II. The proposed solution should provide robust fraud prevention, detection and risk scoring capabilities using following approach:
 - a. Prevention, detection, analytics and management of frauds across user profiles, accounts, products, processes and channels
 - b. Advanced rule/scenario based fraud prevention & detection
 - c. Dynamic Behaviour Profiling and anomaly detection- Dynamic profiling based on various customer attributes like: financial/ non-financial transaction patterns, demographic data, broad customer categories, average/count/max/min etc. is required from the proposed solution. The solution should support the prevention, detection, analytics and management of frauds across user profiles, accounts, products, processes and channels in Real time. The solution should support dynamic profiling, where customer behaviour profiles are continuously updated in real time based on transactions done by the customer. The system must track parameters such as transaction type, amount, frequency, time, location, IP address, and device information.

- This system should identify anomalies by analysing the behaviour patterns, thereby enhancing fraud detection accuracy and reducing false positives
- d. AI/Machine Learning based Predictive Scoring models should be used. The solution must be capable of using AI/ML techniques like neural network analysis, clustering, anomaly detection may be used for prevention of frauds. The model should, ideally, be self-calibrating so that manual intervention is minimized and emerging fraud patterns and trends may be detected proactively by the system
 - e. Case Manager with 100 to 150 simultaneous users, where a comprehensive 360° view of the customer across various channels, accounts, profiles, products etc is available. 360° view involves analysing the transaction patterns of the customer across multiple channels, and includes not only financial transaction but also non-financial activity, transactions in digital lending platforms as also behavioural patterns across debit and credit transactions so that any unusual activity may be flagged at an early stage.
 - f. The proposed solution should provide web based scenario maintenance tool for bank's business user to configure scenario parameters and deploy the same as and when required.
- III. The proposed solution should support configurable scenarios for multiple products and channels and there should not be any limitation on no. of rules/policies/scenarios that can be configured in the solution.
 - IV. Solution should provide complete evidence for why a transaction was declined/hold by the fraud management system.
 - V. Solution should have a capability to whitelist a Customer/Card/Account for a user defined period for not triggering the alerts, but evidence data should be available within the solution.
 - VI. The various source channels may share Account number/Card Number/ Masked Aadhar number/Mobile number/CIF etc. in the financial/non-financial messages. However, the proposed EFRM Solution must carry out the fraud prevention across all transaction channels strictly based on a common unique identifier. For example: Customer Identification Number (CIF no) etc.
 - VII. EFRM may call the APIs and the other files formats which are generated from the CBS. The customizations required for the consumption of the APIs and the files, needs to be undertaken by the EFRM bidder. CBS can also call the APIs of EFRM, but with respect to the workflow of CBS, the APIs in EFRM may require customizations to suit the workflows and data structure of CBS. Such customizations to the EFRM APIs to be done by the bidder.
 - VIII. The solution should support the prevention, detection, analytics and management of frauds across user profiles, accounts, products, processes and channels in Real time and at an Enterprise Level.
 - IX. Proposed solution should monitor, alert, decline, hold and challenge transactions in Real-time.
 - X. The proposed solution should allow to configure various business policies like approve/decline/challenge/hold/block/freeze on transactions/accounts/channels based on the fraud risk score.
 - XI. Composition of risk score should be transparent to Bank (i.e. the exact reason for a high core will be available to Bank staff to enable accurate decision-making).
 - XII. Proposed system should support setting limits on the number of Internet Banking/Mobile banking beneficiaries that may be added in a day per account and provide alerts based on a threshold number of beneficiaries.
 - XIII. Proposed solution should be able to blacklist various entities such as customer IDs, accounts, Registered mobile number, IPs etc.
 - XIV. Solution should support all types of browser and operating systems environment on all devices e. g. Personal Computers/ Laptops/Smart phones/ TABS/ other devices.
 - XV. Proposed solution should be able to integrate with Bank's existing and future

authentication process (SMS/OTP/MFA/Step Up Authentication)/application for stronger authentication. The solution should be capable of complying with the RBI Authentication Direction 2025.

- XVI. Bank will implement risk-based authentication solution for internet banking, mobile banking, e-commerce payments and other delivery channels of the Bank.
- XVII. The proposed solution should have the facility wherein alerts can be parameterized and monitored in terms of various applicable parameters. Such parameters, as applicable could be: transaction velocity (e.g., fund transfers, cash withdrawals, payments through electronic modes, adding new beneficiaries, etc.) in a short period, more so in the accounts of customers who've never used mobile app/ internet banking/ card ever (depending upon the type of payment channel), high risk merchant category codes (MCC) parameters, counterfeit card parameters (String of Invalid CVV/ PINs indicates an account generation attack), new account parameters (excessive activity on a new account), time zones, geo-locations, IP address origin (in respect of unusual patterns, prohibited zones/ rogue IPs), behavioral biometrics, transaction origination from point of compromise, transactions to mobile wallets/ mobile numbers/ VPAs on whom vishing fraud or other types of fraud is/are registered/ recorded, declined transactions, transactions with no approval code, etc.
- XVIII. The proposed solution should also be able to identify and prevent fraudulent transactions which are linked to non-monetary transaction such as ATM pin change, address/mobile no. change request, balance enquiry, beneficiary details addition/modification etc.
- XIX. The proposed solution should support real-time data ingestion from multiple channels and applications to maintain data freshness.
- XX. Assign a dynamic risk score to each transaction based on real-time analytics and historical patterns.
- XXI. Enable risk-based prioritization to address the most critical cases first.
- XXII. The proposed solution should support cross-channel fraud monitoring and prevention in Real Time at an Enterprise level as opposed to silo based approach.
- XXIII. Machine learning models should be incorporated to fine-tune risk scores continuously. AI/ML capabilities of the solution should be clearly demonstrated by the selected bidder.
- XXIV. Solution should be able to add/remove customer/account into various watch lists based on case feedback.
- XXV. The proposed solution should allow end user to configure custom dashboard and reports based on transaction parameters, profiles, cases, customer/account attributes.
- XXVI. Proposed Solution should have ability to manually assign alerts to users.
- XXVII. System should support provision to block a channel facility (for e.g. Mobile Banking/Internet Banking/UPI/ECOM/POS etc.) with respect to any entity.
- XXVIII. The solution must be able to use the inputs from the online fraud monitoring services (anti-Phishing, anti- Pharming, anti- Trojans, anti-Rogue etc.) such as suspected IPs, suspected locations, compromised accounts, Mule account details used by various Trojan families, dummy data fed to fraud sites etc. and other inputs provided by the bank and third parties.
- XXIX. The proposed solution should automatically trigger alerts through Mail/SMS to concerned stake holders if there is no Heartbeat or Response from the EFRMS.
- XXX. Proposed solution should have the capability to perform specific transaction monitoring and fraud detection/non-compliance scenarios for new accounts (say accounts of vintage less than 6 months).
- XXXI. The solution should have proven integration capabilities with the CBS and bidder should ensure that the EFRM solution does not have a performance impact on the CBS or any other channel.

Customer Profiling:

Customer profiling refers to creation of profiles for each customer where at least one transaction

pertaining to the customer has been routed through EFRMS, the customer profiling should be dynamic in nature covering Transaction, Behavioral and Demographic details of the customers. Customer profile should be updated dynamically based on the transactions performed by customer on real time basis which should include but not limited to the following indicative parameters

- a) **Transactional Data:** Purchase history, payment methods, transaction frequency, amounts, locations, and time of day etc.
 - b) **Demographic Data:** Age, gender, location, occupation, income etc.
 - c) **Behavioural Data:** Website browsing patterns, application usage, login history etc.
 - d) **Device Data:** IP addresses, device IDs, operating systems, browser information, History of devices used by the customer, Favourite UPI handles etc.
- Solution should have the capability to use various parameters such as transaction velocity, geo-locations, latitude and longitude, IP address origin for triggering the alert after configuration. Solution should monitor and detect login, pre-login and post login frauds. It should support advanced IP Geo location capability to detect IP country, IP City, Proxy IP and zone hopping.
 - Solution should have capability to build and re-factor dynamic e-banking user behavior profiles including but not limited to preferred country, preferred city, preferred IP, preferred ISP, preferred device, preferred payee etc.
 - Solution should monitor Average Daily/Weekly/Monthly Funds Transfer amount / frequency by payee / biller and also preferred transaction hours.
 - Solution should have the capabilities to correlate transaction with customer profile (such as location, registration of mobile devices, illiterate check, usage of Digital channels etc.) to identify potential fraud.
 - Solution should support out of the box behavior profiles including but not limited to Card holder profiles, Preferred ATM machines, Preferred Merchants, Preferred Merchant Category Codes, preferred Country /City, Preferred Time Period, Preferred Transaction hour for ATM, POS, E-Commerce, Preferred Currency for purchase-Average Daily/ Weekly/ Monthly/ Quarterly/ Season based transaction amount by channel (for domestic and international transactions), Average daily/Weekly/Monthly/Quarterly/Season based transaction frequency by channel (for domestic and international transactions).
 - Solution should support to set threshold limit with specified time periods for all cards that have not been used for international transactions in the past.
 - Solution should support concept of dynamic and static daily limit for transactions to contain the risk in the event of card misuse.
 - System should look for anomalous activity in customer accounts. It should detect behavior associated with a fraudulent transaction. Updated customer contact information is critical for quickly verifying the legitimacy of transactions or stopping fraud.
 - In addition to the above the Solution should also have the capabilities to accommodate third party data if any which will be provided by the Bank.
 - The customer profiling should be available at both Micro level and Macro level wherein Micro level meaning the individual customer profile and the Macro level being the entire subset to which the customer belongs and whether customer profile commensurate with other peers present in the same demographics.
 - Creation of rules based on few attributes or rules based only on Transactional data /Demographical Data/behavioral data in silo basis is not considered as customer profiling.
 - Customer profiling should be a default part of the Risk and decisioning system of the solution and there by any decision take by the rule engine should factor the customer profiling without any dependency on the rules.
 - In case of customers where profile is created and there are no transactions for a

minimum period of 1 year then such profiles to be maintained separately.

- The solution should have an effective design for limiting the use of Hardware that is required for creation and maintenance of customer profiles.

Cross channel capabilities:

- Cross channel capabilities of the solution refer to capacity of the solution to trigger the alerts or deny a transaction based on the transactions originating from multiple channels in real time for the same customer.
- Cross channel capabilities merely do not refer to alerting or declining of transactions originated from same switch like ATM/POS/ECOM or IB/MB.
- Cross Channel deployment refers to Fraud Prevention across various digital banking channels in real time. For example, at least across the following combination of channels in real time (but not limited to):
 - Mobile Banking/UPI/Debit Card
 - Mobile Banking/Internet Banking/Debit Card /UPI
 - UPI/IMPS/Debit Card
- The solution should identify the required primary keys across the various channels and in case of any missing primary keys the same has to be updated on the fly through data enrichment.
- Cross channel rules should be highly flexible in nature by allowing the Bank to use any of the digital channels in a combination and also these rules should function in real time basis.
- Cross channel rules should be integrated with the profile data of customers.

AI/ML Capabilities:

- The solution should have built in AI/ML capabilities as part of the solution, the systems ML should have the capacity to learn based on transaction behavior of the customer at individual level and also at the macro level. ML models should be incorporated in the solution to fine-tune risk scores continuously.
- ML score should be generated via a model executed in real time and not basis rules assigned scores.
- Solution should have the capabilities to ingest the ML model with the feedback provided by the analyst who are handling the alerts generated.
- The ML used in the solution should be explainable and also the type of ML used should be based on the requirement of the Bank.
- The solution should have capabilities to support the Unsupervised ML and this should be used as analytical tool for identification of outliers, profiling and segmentation.
- The ML should be centered around the customer profiles being created and the changes in the customer profiling should be factored accordingly.
- Predictive models tailored for at least three channels should be provided.
- Customer signoff on model accuracy and effectiveness, supported by performance validation reports may be provided
- Experience in building, fine-tuning, and deploying channel-specific fraud detection models may be highlighted.
- The solution should offer an adaptive fraud detection engine that self-learns and dynamically adjusts fraud rules, minimizing manual intervention.
- AI-powered models should continuously monitor customer behavior and transaction patterns to detect emerging fraud techniques in real time.
- The solution should provide AI/ML-driven primary scanning of alerts and enable auto-closure of low-risk alerts based on configurable AI/ML risk scores, thereby reducing manual effort and improving investigation efficiency.

Online Banking fraud prevention (Internet & Mobile Banking):

A. Solution should have the ability to monitor all pre-login, login and post login transactions to detect any suspicious patterns.

B. Solution should provide pre-packaged scenarios to monitor pre-login, login and post login fraudulent patterns.

C. Solution should be able to detect & prevent following fraud schemes including but not limited to:

a. Identity theft and account take over as result of phishing attack, malware attack and social engineering attacks.

b. MITM (Man in the Middle) & MITB (Man in Browser) attacks

c. Transaction Velocity Check

d. Suspicious Beneficiary registrations and unusual funds transfer

e. Sudden Transaction Amount Surge compared to established customer/account profile.

f. Sudden Transaction Volume Surge compared to established customer/account profile.

g. Personal Details Change (Mobile Change, PIN change etc.)

h. Transaction from non-predominant IP, ISP, IP Country, IP City, device, odd hours compared to established profile.

i. Entity whitelist and blacklist for IP, ISP, IP Country, IP City, device id, e- banking user id, mule account.

j. Any change in Latitude and longitude-area specific doing the transactions

k. Zone Hopping

D. Solution should support various business policies to approve/decline/challenge both login and post login transactions based on the fraud risk score.

E. Solution must provide wide range of stronger authentication capabilities to be used based on the risk score of the transaction for consumer and corporate banking customers.

F. Solution should provide well defined API for integration with host internet banking and mobile banking system for real-time decision making supporting wide range of interface protocols and message formats.

G. The solution should support High Availability in both Active/Passive and Active/Active modes.

H. The solution should support both vertical and horizontal scalability.

Debit card fraud prevention (ATM, POS, E-Commerce channels):

a) Solution should be able to monitor and prevent frauds for both card present and card not present transactions for Credit card/ATM/Debit Cards across ATM, POS, E-Commerce & MOTO channels in real-time.

b) Solution should be able to integrate with Debit Switch/credit card switch for monitoring various non-financial Debit card transactions.

- c) Solution should be able to monitor and prevent frauds for both card present and card not present transactions for Credit card/ATM/Debit Cards across ATM, POS, E-Commerce & MOTO channels in real-time.
- d) Solution should be able to integrate with Debit Switch/credit card switch for monitoring various non-financial Debit card transactions.
- e) Solution must be live/implemented in last 3 years in at least one SCB having a minimum business turnover of 10 Lakh Cr for real-time debit card/ and credit card transaction monitoring.
- f) Solution must be live/implemented in last 3 years in at least one SCB having a minimum business turnover of 10 Lakh Cr for real-time debit card/ and credit card transaction monitoring.
- f) Solution should provide hybrid fraud detection and scoring engine consisting of rules/scenarios, behavior profiling and machine learning predictive risk scoring to better detect fraudulent card transactions and reduce false positives.
- h) Solution should support out of the box behavior profiles including but not limited to:
- Card holder profiles
 - Time zone
 - Odd Hours
 - Preferred ATM machines used
 - Preferred city
 - Preferred country
 - Preferred Transaction hour for ATM, POS, E-commerce
 - Average Daily/Weekly/Monthly/Quarterly/Season based transaction amount by channel
- i) Solution should provide configurable scenarios and custom predictive scoring models to detect and prevent traditional and emerging fraud attacks like velocity checks, data breach and mass card compromise, zone hopping, customer state change and unusual transactions, sudden surge deviating from usual card holder, cross channel frauds, overseas card compromise and watch lists monitoring.

Some of the indicative scenarios are given below:

- **Core Banking System Scenarios:**
 - Alerts related to
 - Internal Accounts
 - Deposit accounts, Loan accounts
 - Staff Accounts
 - New Accounts, Money mules
 - CTS, NACH, PFMS
 - Account Disbursement services
 - Or any other scenarios as per bank's requirement
- **Internet Banking/mobile Banking Scenarios:**
 - Alerts related to defined events like

- Profile/behavior-based scenario
- Transaction History based scenarios.
- Risk Score based scenario.
- 1st time Login
- successful / unsuccessful login attempts
- beneficiary addition
- Time specific
- Country code specific
- IP related alerts
- Geo Location based monitoring including latitude & longitude.
- Fund Transfers by different modes (RTGS/NEFT/IMPS etc.)
- Or any other scenarios as per bank's requirement
- **Debit Card:**
 - Profile/behavior-based scenario
 - Transaction History based scenarios.
 - Risk Score based scenario.
 - POS/E-commerce transactions
 - ATM withdrawal
 - Card usage for up to X% of limit
 - Increase in usage
 - Country code specific
 - Time specific
 - Or any other scenarios as per bank's requirement
- **UPI and CBDC, QR based Scenarios:**
 - Profile/behavior-based scenario
 - Transaction History based scenario like VPA, amount, time etc.
 - Risk Score based scenario.
 - Transaction Volume based scenario.
 - Unusual login activities-based scenario.
 - Transaction Frequency based scenario
 - Geolocation based scenario.
 - Transactions to blacklisted UPI IDs
 - MCC code-based monitoring – Fake Merchant
 - Frequent Linked bank account change
 - SIM swap or Device Cloning Frauds
 - Or any other scenarios as per bank's requirement
- **AEPS Transaction monitoring:**
 - Profile/behavior-based scenario.
 - Transaction History based scenario.
 - Risk Score based scenario.
 - Transaction Volume based scenario.
 - Unusual login activities-based scenario.
 - Transaction Frequency based scenario

- Repeated transactions failure due to fingerprint mismatch etc.
 - Transactions from suspicious BC agents
 - AEPS transactions from different locations
 - Transactions to Backlisted entities
 - Or any other scenarios as per bank's requirement
- **IMPS**
 - Profile/behavior-based scenario.
 - Transaction History based scenario.
 - Risk Score based scenario.
 - Transaction Volume based scenario.
 - Unusual login activities-based scenario.
 - Transaction Frequency based scenario
 - First time IMPS transaction with an unusually large amount.
 - A single mobile device being used to initiate IMPS transactions for multiple accounts

Network Analytics:

The solution should utilize network analytics for fraud prevention. It should employ advanced machine learning and AI techniques to analyze transactional data and establish relationships and patterns within data to detect suspicious activities and mule accounts. Network analysis should also be based on customer demographic attributes.

- **Social Network Analysis:** Identify connections between entities (like accounts or transactions) to uncover hidden relationships that may indicate fraudulent behaviour.
- **Real-Time Monitoring:** Advanced analytics tools should be used to process large volumes of data in real-time, enabling detection and prevention of frauds in real time.
- **Pattern Recognition:** Machine learning algorithms should be used which analyze historical data to identify patterns and anomalies that could signify fraud.
- **Entity Link Analysis:** Tracing connections between entities to detect complex fraud schemes, such as money laundering.

Case Management & MIS:

- The proposed solution should provide advanced case management system that can be integrated across source systems for case investigation. Case management solution should give access to the analysts of all the integrated channels in a comprehensive manner.
- Solution should be able to support 100-150 simultaneous login.
- Proposed case management system should support configurable work flow based on the case type and built-in auto case routing mechanism.
- The proposed solution should provide complete evidence for why a transaction was declined/hold by the fraud management system.
- Proposed case management solution should support case escalation feature based on business policies configured.
- The proposed solution should allow end user to configure custom dashboard and reports based on transaction parameters, profiles, cases, customer/account attributes.
- The proposed solution should support watch list management for various black lists and white lists.

- Whitelisting based on Customer/Account/Scheme-code/Type of Transaction/ Channel or any other attribute or a combination of attributes should be readily available in the proposed Solution.
- The bidder should provide periodic (Daily, Weekly, monthly etc.) customized reports and dashboards to the Bank as per Bank's requirement.
- The proposed solution should provide pre-packaged MIS dashboard and reports for tracking fraud cases, investigators' performance and ensure Reports / rule simulations, concurrent usage by various users of entities should not have any impact on performance.
- Set up configurable alert thresholds and escalation workflows based on risk severity.
- Support auto-escalation if alerts are not addressed within the defined timeframe.
- Integrate visual analytics for quick insights into fraud trends and performance metrics.
- The solution should offer interactive dashboards tailored to the needs of the Bank.
- Proposed Solution should have ability to view all alerts corresponding to a particular customer/account under a single parent case.

Audit Logs /Monitoring:

- The proposed solution should comply with the guidelines issued by Bank, RBI, NABARD, SEBI and other regulatory/Government bodies from time to time.
- The selected bidder should ensure that all regulatory and statutory requirements are incorporated from time to time, as and when required by Regulator/ Bank without any additional cost to Bank.
- The proposed solution should comply with various existing and capable of complying with future RBI and NABARD guidelines related to Electronic payments & Fraud Risk Management.
- Selected bidder should ensure complete safety and security of custodial information of the customers, transactions and the overall Bank as mandated in RBI Cyber Security framework and RBI Mobile Payment Security Controls and any other future statutory requirements.
- The key length, algorithms, cipher suites, digital certificates and all other components utilized in the processing of data and overall functioning of the Solution should be of the latest version, strong, internationally accepted and meet the published standards as per RBI Mobile Payment Security Controls.
- The bidder should certify that the proposed solution is free from OWASP (Open Web Application security Project) vulnerabilities.
- The proposed solution should comply with bank's Information Security Policy, KYC/AML policy and regulatory guidelines (as specified by RBI, NPCI etc.). Information Security Policy, KYC/AML policy will be provided to selected bidder.
- Proposed application should be integrated with various monitoring systems such as PAM, SIEM, DAM, AD, Bank's Antivirus and other SOC utilities as mandated in RBI Cyber Security framework and future statutory requirements.
- All audit and security related applications of Bank like SOC utilities (such as AD, AV, SIEM, DAM etc.) to be integrated for the proposed EFRM system.
- The proposed solution should support built-in maker-checker functionality to ensure dual commit to critical system changes.
- The proposed solution should provide complete audit trail.
- Selected bidder should ensure that Features like Data Processing, Scenario Management, Alert management, Case Management, MIS, Dashboards, User Management including attendance of Users in the Application etc., Data Management including maintenance of Historical data, periodical purging / functionality of auto purging and daily archival of

transaction data without performance loss with proper checks and controls should be readily available in the proposed Solution.

- EFRM setup/infrastructure may be subjected to audit from Bank and/or third party and/or regulatory body. It shall be responsibility of the Bidder to cooperate and provide necessary information and support to the auditors with respect to the EFRM project. The Bidder must ensure that the audit observations are closed on top priority and to the satisfaction of the Bank, regulator and its appointed auditors. Extreme care should be taken by the Bidder to ensure that the observations do not get repeated in subsequent audits. Such noncompliance by Bidder shall attract penalty.

Onsite Technical Support:

Successful Bidder will ensure that the implementation & Integration of the solution is strictly carried out by the OEM/OSD resources only in the presence of Bidders technical resources, who will document the steps and configurations carried out by the OEM/OSD. Requisite skilled and qualified OEM/OSD resources should be deployed onsite during the implementation and integration period. Bidder has to provide Onsite Technical Support resources as per the requirement of the Bank, who are totally aware of the implementation and integration carried out by OEM/OSD in our Bank.

- Monitoring of Application
- Monitoring of EFRM Database
- Addressing the vulnerabilities highlighted during audits
- User management – application level
- Scenarios creation/modification/deletion
- Technical support during DR-Drills whenever required.
- DR Drill

Over and above the listed functions, OTS resources will be expected to provide necessary technical support pertaining to EFRM solution, as and when required by the bank.

4. Other Requirements

1. The EFRM solution should have the capabilities to increase the functionalities under different channels. Bank may request the bidder to include the new functionality in solution depending upon the requirement of the Bank.
2. Support for the Solution: Bidder will have to guarantee availability of support including future upgrades for all components of the solution, without any exception, for a minimum period of 5 years from the date of go live of Phase II. In case of takeover/ amalgamation /merger of bidder with any other entity, the Service level agreements (SLAs) and other commitments entered into will be continued at the same terms and conditions of the SLA. Immediately after the launch of new versions of solution, bidder will install the same at Bank's site without interrupting the running solution and without any cost to the Bank.
3. The Uttar Pradesh Gramin Bank term licenses will be extended to the Amalgamated Entity if the transaction monitoring has to be done in the future through the Uttar Pradesh Gramin Bank Switches, without any additional cost. Increase in actual Volume, if any would be paid as per Section III, Subsection 8.2.
4. Architecture: Bidder should provide details of architecture of the proposed solution containing complete details of specifications of components of proposed solution. The solution should have technically scalable architecture to scale to add new channels or users (Ability to scale seamlessly, without changing core architecture).

5. Data security and confidentiality: Bidder to ensure no unwarranted, illegal, and fraudulent misuse of data shared by the Bank and Bidder to categorically indemnify the Bank against any losses that the Bank may suffer on account of any such fraudulent and illegal act by the Company or its employees (including ex-employees).
6. Software supplied should be in compliance with all applicable regulatory requirements.
7. The sizing and components required for installation of module to be specified.
8. All Software to be supplied under the scope of the project must be of latest versions, unless otherwise required by Bank. Software tools must be compliant with generally accepted industry standards.
9. All the proposed components of the solution must have a minimum support of 5 (five) years from the date of Go Live of Phase II for which supporting document to be provided. Any deviation has to be addressed by the bidder without any loss to the Bank.
10. Deliverables to include Installation with support services and integration with existing environment at the Bank by the resources from the OEM and maintenance during the contract period.
11. There should be no single point of failure in the proposed solution and the solution should have a fault-tolerant design.
12. The system to be fully compliant with ISO 27001:2013 controls, PDP/GDPR, PA-DSS guidelines.
13. Bidder to ensure high availability, security, reliability, data integrity, business continuity.
14. The selected bidder has to provide the following documents, both in hard and soft copy to Bank during development, Implementation and maintenance of project:
 - Detailed SRS (System Requirement Specifications) Document
 - High Level Architecture Document
 - Techno - Functional Risks and Mitigation Document Functionality Traceability matrix which would provide details on the interdependence of the technical components for the realization of functionality. This matrix should provide a projection of the efforts required for completion of a technical module.
 - High Level Design Document
 - Proof of Concept for the solution
 - Low Level Design Document
 - Test Plans
 - Comprehensive Test Cases Document (Unit, Integration and UAT Test Cases tested)
 - Simulator for UAT should be made available.
 - Deployment Plan Document
 - Content Management Guide
 - Change Management Methodology Document Security Guide
 - User Management Guide
 - Release Notes

Security:

1. Bidder to ensure security is included in the design such as encrypt all communications (using https or transport layer security), authenticate all access requests, don't hard code certificates, passwords or any form of secrets within the code.
2. The platform to have strong (no proprietary) authorization controls. Platform to have controls for prevention against unauthorized data access and distribution. User and Admin access control management to be provided as part of Platform. Access control to be based on least access privilege principle. Bank or team assigned by bank will be

reviewing all access controls mechanism defined.

3. The file store locations need to be secured. Standard cryptographic controls to be supported. All Encryption keys to be stored in secured location with limited access.
4. The Strong encryption to be applied for data while in transit or rest.
5. The bidder to provide full support in implementation and maintenance for the open-source technologies with Enterprise support.
6. The bidder shall ensure that the entire data relating to EFRMS handled by the proposed solution are stored in a system only in India.
7. The bidder shall ensure compliance to Digital Personal Data Protection Act.

Encryption:

1. Hashing algorithms: SHA-224 SHA-256 SHA-384 or SHA-512
2. HMAC algorithms: any approved hash algorithm with key length no less than 112 bits
3. Digital signature: DSA or RSA with key length no less than 2048 bits.
4. Symmetric encryption algorithms: 3DES AES
5. Public key encryption algorithms: RSA with key length no less than 2048 bits
6. Strong encryption (AES-256) should be in place.

5. Training

1. Training to bank employees: Successful Bidder will impart requisite operational training of the offered solution to Bank officials. The successful Bidder will involve Bank's nominated officials during installation and implementation of the solution. The selected Bidder will provide comprehensive training to Bank 's nominated team on all aspects of solution including but not limited to administration of the application, system fundamentals, Operating Systems, application software, policy management, policy deployment, policy customization, databases, fault diagnosis and first line support etc. The training must enable Bank's staff to maintain the Solution with minimal support from the bidder. The training must be provided on site. Training manuals/CDs must be provided along with the software documentation.
2. Five working days training to the Bank's Core Team is to be imparted before UAT.
3. The bidder shall be responsible for delivering the required training to the Bank's employees at Uttar Pradesh Gramin Bank, Head Office, Lucknow.
4. Bidder must mandatorily provide OEM training to the Bank's Core team (Technical & Administrative). In case the Bidder is not an OEM then the training to the Bank's core team has to be provided by the OEM resources only and the Bidder has to facilitate for the same. It is also the responsibility of the bidder to provide training manuals/SOP to each participant. All training material should be in English and should include Specific architecture and layout done for Bank. Training will be arranged in batches of participants.
5. The Bidder must provide comprehensive training (technical and functional separately) to the Bank Staffs, once in a year (5 working days) during the contract period. The training shall be provided as and when required by the Bank.

6. Upgrades and Updates

1. The bidder shall be required to provide all future updates and upgrades for the proposed

Solution/Application free of cost during contract period. If, however, the upgrades and/or updates are not available or the solution (software) is declared End of Life/End of Support, Bidder has to upgrade the solution to an equivalent or higher solution without any additional cost to the Bank.

2. The bidder should inform to the Bank if any new version, service pack, upgrade of the proposed solution is released, within seven (7) days of such release and deploy the upgraded solution and endpoints within 15 days of such release without any cost to the Bank covering all patches, man-day efforts at the respective locations (DC & DR) of the Bank during the period of the contract.
3. During the period of the contract, all upgrades, updates or requirements in software, implementation of upgrades, patches, version changes etc., due to whatsoever reason including but not limited to EOL(End-of-Life) or EOS(End-of-Support), shall be done by the bidder within stipulated time but not later than one month without any additional cost to the Bank. EOS/EOL solution will not be accepted and if any solution is declared EOS/EOL during the period of contract, the bidder shall upgrade with equivalent or higher specifications as stated above, at no additional cost to the Bank.

7. Functional & Technical Specifications

Area: General Capabilities

SI No.	Particulars	Yes(Y)	No (N)	Customizable (C)
A.1	Proposed Solution should have ability to failover without/with least manual intervention.			
A.2	Proposed Solution should replicate the data between DC & DR in real time basis or as required by the bank.			
A.3	Proposed Solution should store historical incidents/alerts onsite to correlate future transactions.			
A.4	Proposed Solution should integrate with all existing delivery channels of the Bank as specified in "Scope of Work", point no. 4 above.			
A.5	The proposed solution should take/give feeds from/to various applications of the Bank as specified in "Scope of Work", point no 4 above.			
A.6	For Customer Outreach, the proposed EFRMS Solution should integrate with Bank's various authentication/ gateway solutions as specified in "Scope of Work", point no 4 above.			
A.7	Proposed Solution (System/Application) Should maintain Audit Logs of all user activities including User ID, Date/Time, IP Address etc.			
A.8	Should conform to all regulatory, statutory, legal acts and rules including IT Act, 2000 (Amended 2008).			

A.9	Proposed Solution should have an integrated case management system where the alerts get triggered based on the real-time transaction monitoring performed. Case has to be created within 3 seconds from the time the transaction has been responded by the solution. Cases to be triggered automatically but functionality for manual creation of cases should also be there.			
A.10	Proposed Solution should enable real-time case creation for any fraud/non-compliance patterns identified by the real-time transaction monitoring engine.			
A.11	Proposed Solution should have the ability to manage multiple queues/projects for managing case of certain types e.g staff fraud, 3rd party fraud, staff compliance, KYC compliance, Branch non-compliance etc.			
A.12	Real-time cases should get triggered in the right type of project/queue as per the categorization.			
A.13	Proposed Solution should have access controls available to establish groups of authorized Bank users with different privilege levels.			
A.14	Proposed Solution should have the ability to manage multiple groups of users and assign specific group to specific project/queue including administrator users and parameter users			
A.15	Proposed Solution should have provision for configuration of workflow for alerts/cases as per bank's operational process requirements			
A.16	Proposed Solution should have ability to route and assign cases to the right set of investigators based on pre-defined case routing Logic.			
A.17	Proposed Solution should have ability to define roles and user groups and assign privileges.			
A.18	Proposed Solution should provide complete evidence and list of transactions that cause a scenario match and alert.			
A.19	Proposed Solution should have ability to define and categorize the different types of frauds/non-compliance.			
A.20	Proposed Solution should have Auto and manual linking of alerts to parent entity case.			
A.21	Proposed Solution should configure for Alerts to be sent to appropriate users via SMS or email.			
A.22	Proposed Solution should have ability to manually assign alerts to users.			
A.23	Proposed Solution should have Built in escalation matrix to assign alerts automatically to stake holders for review and assessment.			
A.24	Proposed Solution should have facility for auto-update (list of reasons) of user comments while closing alerts.			

A.25	Proposed Solution should have ability to attach a doc, image, data from other systems to an alert/case in case manager.			
A.26	Proposed Solution should have ability to export the case reports.			
A.27	Proposed Solution should have ability to flag an alert based on the pre-defined criteria (e.g. false positives, suspicion, type of fraud).			
A.28	Proposed Solution should have ability to mark an entity (customer, account, device, IP etc.) to a watch list.			
A.29	Proposed Solution should have ability to send feed back to the fraud prevention engine to reduce false positives and increase fraud prevention rate.			
A.30	Proposed Solution should be capable of generating Real time alerts using artificial intelligence/ machine learning.			
A.31	Proposed Solution should Support complete audit trail for each user action throughout the case life cycle.			
A.32	Proposed Solution should have ability to dynamically calculate risk score associated with the alert based on the triggered patterns, push up criteria & push down criteria (criteria that increases or decreases the risk score)			
A.33	Proposed Solution should have ability to view all alerts corresponding to a particular customer/account under a single parent case.			
A.34	Proposed Solution should have ability to resolve alert into one of the final states e.g. confirmed fraud, false positive etc.			
A.35	Proposed Solution should have ability to categorize the confirmed fraudulent case into one of the categories as per RBI fraud reporting categorization			
A.36	Proposed solution should allow users to manually move or select transactions using a drag-and-drop interface for marking / tagging a suspicious transaction in case manager.			
A.37	Proposed solution should generate alerts based on customer risk category and threshold limit.			
A.38	It should provide facility for prioritization of alerts based on scenarios requirement.			
A.39	Proposed Solution should work on dynamic learning and static rule-based transactions (risk based engine). The system should work on the dynamic profiling of the customer in real time for monitoring current and future transactions of the customers.			
A.40	Solution should support use of standard logical operators (eg: AND, OR, NOT etc) in all Real time Authorization of Rule conditions.			
A.41	Solution should support use standard arithmetic operators (e.g.: >, <=, = etc) in all Real time Authorization Rule conditions.			

A.42	Rules engine should be able to create / modify exclusion criteria, within a rule, to route activity to an exclusion queue.			
A.43	Rules engine should enable the users to interact with recent data to identify the transaction patterns during the day.			
A.44	System should support provision to block a channel facility (for eg Mobile Banking/Internet Banking/UPI/ECOM/POS etc) with respect to any entity.			
A.45	System should support to single click blocking of all the transaction channels.			
A.46	The proposed solution should have the capability to generate Risk score based on both transaction (channel wise) and at customer profile level.			
A.47	The solution should have the ability for each transaction to be evaluated by every rule.			
A.48	The solution should be able to identify the rules triggered by a transaction.			
A.49	The solution should be able to assign weightages /priority to the rules.			
A.50	Support uploads of XML and other files/messages such as XBRL/txt/ASCII/CSV/xls/other standard and proprietary formats including formats from Clearing and Settlement and Dispute Management System.			
A.51	The proposed solution should have the capability to create the rules based on user defined and derived variables using the transaction data.			
A.52	Solution should be able to handle the ISO 8583/ISO 20022/Existing XML Messages.			
A.53	Solution should be able to handle the Reversal messages in both ISO and XML format sent by the respective switches.			
A.54	Rules engine should enable the users to simulate the various levels of thresholds for the variables identified to indicate the number of alerts that will get generated.			
A.55	The solution should have the ability to compress the data.			
A.56	The proposed solution should have the capabilities to integrate Open & Enterprise APIs with Banks middleware solution.			
A.57	The solution must be able to use the inputs from the online fraud monitoring services (anti-Phishing, anti-Pharming, anti- Trojans, anti-Rogue etc) such as suspected IPs, suspected locations, compromised accounts, Mule account details used by various Trojan families, dummy data fed to fraud sites etc and other inputs provided by the bank and third parties.			
A.58	Solution should be bundled with a General rule library which should include rules that are suitable to counter present and evolving fraud trend scenarios ,the rule library should be customisable as per the requirement			

	of Bank.			
A.59	Solution should have ability to define clusters using several different techniques and relations.			
A.60	The user access management at application level should be able to restrict the rights to delete/modify/recreate workflow steps of certain users.			
A.61	The proposed solution should automatically trigger alerts through Mail/SMS to concerned stake holders if there is no Heartbeat or Response from the EFRMS.			
A.62	Solution should support ability to execute rules in test mode against production data and analyse the impact of such a rule based on the output of the alert.			
A.63	The Solution should support detailed Threshold Analysis, in order to fine tune alerts and reduce false positives.			
A.64	The solution should provide analytical capabilities for: Correlations & Regression, Network plot Decision and Tree Scenario analysis.			
A.65	The proposed solution should provide complete evidence for why a transaction was declined/hold by the fraud management system.			
A.66	The proposed solution should support built-in maker-checker functionality to ensure dual commit to critical system changes.			
A.67	The solution should support risk score model (or equivalent) where many minor cues can add up to a risk score which in turn can trigger an action.			
A.68	The solution should support & leverage the knowledge of already identified historical frauds when authoring new rules.			
A.69	The proposed solution should have the ability for additional review(s) of case disposition based on several factors (role, tier, delegated authority, etc.)			
A.70	The solution should allow data to be accessed from any industry standard data source using native connectors and load the same in Memory.			
A.71	Solution should have the ability to consume data in the source format without any dependency from the individual switches.			
A.72	The various source channels may share Account number/Card Number/ Masked Aadhar number/Mobile number/CIF etc in the financial/non-financial messages. The proposed EFRM Solution must carry out the monitoring across all transaction channels strictly based on Customer Identification Number (CIF no) only.			
A.73	The proposed solution should not have any limitation as to no. of rules/scenarios/policies that can be configured for fraud prevention and detection.			

Area: Real time fraud prevention, detection, scoring engine and case manager

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
B.1	Proposed solution should support both real time and near real time transaction processing i.e. after the response has been provided.			
B.2	The integration should not affect the performance of the source systems. Integration required to the Uttar Pradesh Gramin Bank environment has to be done at no extra cost and will be the sole responsibility of the bidder including minor enhancements.			
B.3	Proposed solution should support cross-channel frauds & non-compliance prevention and detection in real-time.			
B.4	Proposed solution should consist of a hybrid fraud prevention model consisting of pre-packaged scenarios, behaviour profiling and predictive scoring models with proven low false positives and high fraud prevention rate as well as user defined scenarios.			
B.5	Proposed solution should support an advanced rule/scenario engine to prevent known fraudulent patterns.			
B.6	Proposed solution should allow end user to easily configure scenarios parameters using a web-based interface and be able to deploy in the production environment.			
B.7	Proposed solution should allow to include wide range of parameters including but not limited to transaction parameters, customer profiles and account attributes, IP and device parameters to be used in scenario building.			
B.8	Proposed solution should be able to dynamically increase or decrease the risk score of a fraudulent pattern based on good and bad customer/account behaviour even after a case is generated to reduce false positives and increase fraud prevention rate.			
B.9	Proposed solution should support machine learning based behaviour profiling and anomaly detection engine that continuously monitors customer/account behaviour and builds positives profiles in real-time.			
B.10	Proposed solution should provide the list of behaviour profiles supported in the system and necessary documentation for the same.			
B.11	Proposed solution should support product/channel specific fraud scoring models.			
B.12	Proposed solution should be able to recognize/identify the transaction characteristics by channels/transaction type/ account number/ CIF/mobile no/ customer profile and enforce the respective policy of the bank on a real			

	time basis and apply specific risk and fraud rules.			
B.13	Proposed solution should be able to correlate transactions across all the integrated channels (For ex. UPI, Debit Card, Credit Card, Omni Channel, AEPS etc.) in a real time basis and prevent cross channel frauds as opposed to silo based approach. Scenarios will be defined as per the Bank's requirement across all integrated channels			
B.14	Proposed solution should be able to auto mark customers/accounts into various groups and watch lists based on case feedback.			
B.15	Proposed solution should be able to detect common point of compromise and mark those entities into blacklist/watch lists.			
B.16	Proposed solution should have an option of adding customers in Blacklist and Whitelist manually/upload. These lists should be applicable across all channels.			
B.17	Proposed solution should support various business policies to approve/decline/challenge/hold/delay transactions based on the hybrid fraud risk score.			
B.18	Proposed solution should automatically adjust the risk score of scenarios based on false positives occurrence (marked).			
B.19	Proposed solution should facilitate categorization of cases based on the risk score of detected fraud pattern.			
B.20	Proposed solution should have ability to send notifications via SMS/Email or out bound call through call centre representatives & IVRS as and when a case is created.			
B.21	Proposed solution should have inbuilt auditing and logging functionality. All events should be logged and be available to support investigation related to fraud incidents and other uses through user friendly GUI in the solution itself.			
B.22	Proposed solution should be able to monitor and detect both financial and non-financial transactions including various branch user exceptions.			
B.23	Proposed solution should be able to provide both real-time transaction monitoring and transaction blocking/hold feature for suspicious transactions.			
B.24	Proposed solution should support import of data from various software/database in different formats like Excel , Text, Delimited Text, XML, CSV, PDF etc. and convert/store them in readable or executable format for further processing.			
B.25	Proposed solution should Support wide range of interface protocols (tcp/ip, web service, http/https etc.) and message formats (JSON, ISO 8583, XML, MQ, ISO20022, fixed width format, SOAP, REST etc.)			

B.26	The proposed solution efficiently handle high transaction volumes with real-time processing, making it suitable for large-scale banking environments to be proven upto minimum 3000 tps and to be scalable upto 10000 tps.			
B.27	Proposed Solution should implement enhanced authentication through various modes i.e. SMS-OTP, Email, PKI Authentication, TOTP, Challenge- Question based on Transaction Scoring generated by the Solution as per Bank's requirement.			
B.28	Proposed Solution should provide Real-Time Dash Board & Alerts for multiple Role Based Users and based on different domains/Channels.			
B.29	The proposed solution should provide advanced case management system that should cover cases generated from all source channels.			
B.30	The case management system should be able to segregate the cases of customer across the channels.			
B.31	Proposed case management system should support configurable work flow based on the case type, and built-in auto case routing mechanism.			
B.32	Proposed case management system should have the ability to create, edit and view a case based on user permissions.			
B.33	Proposed case management system should have the ability to set default fields and values on screens based on case type.			
B.34	Proposed case management system should be configurable with automated IVRS and based on the response from IVRS the case management system should have the capability to publish the alerts with suitable tag for further action and communicate with CBS middleware for blocking the account in case of a fraudulent transaction.			
B.35	The proposed solution should be able to integrate alerts of all channels with IVRS for automatic calling.			
B.36	Proposed case management solution should support case escalation feature based on business policies configured.			
B.37	Proposed case management solution should be configurable with system based telephone diallers/auto diallers.			
B.38	Proposed case management solution should be able to simultaneously cater to at least 100 to 150 simultaneous login without any performance bottle necks.			

B.39	Proposed case management solution should have the ability to be able to instantly update existing cases with fresh transaction detail.			
B.40	Proposed case management solution should have ability to link cases under investigation, elevate an alert into a case, add several alerts to one case.			
B.41	Proposed case management should have easy search option for searching the cases with any of unique identifiers like Account number, Customer ID ,Mobile ,PAN etc .			
B.42	The proposed case management solution should create an audit record containing the identification of the user, a timestamp, and date when actions are performed to a case that may be provided to management, an examiner, or regulating agency.			
B.43	The Case management solution UI should Mask the Debit/Credit Card details as per PCI-DSS standards.			
B.44	The case Management solution provided should have the capacity to handle alerts of at least 6 months. Post which the bidder should provide a suitable archival strategy.			
B.45	The bidder has to provide the hardware/system software sizing for data archival solution in order to store the complete data being generated during the contract period, Sizing for both DC & DR to be provided by the bidder as specified in the RFP. Bidder has to ensure that a minimum of 9 months' data should be available in the Case managementsolution.			
B.46	There should be no lag in loading of User Interface (UI) of Case Manager Application with relevant transaction data. The required information should be available to the Fraud Analyst in the UI within 3s of the actual transaction and should not be affected by the number of alerts present in the system.			
B.47	In case of reopening of past transactions or cases where Bank requires the alert data which has already been archived, the bidder has to provide a suitable data retrieval strategy.			
B.48	Rule engine should have the ability to delete or remove workflows if they become redundant.			
B.49	Solution should support dashboard for rule administration to identify the rules that need optimization.			
B.50	Solution should have ability to alert when the false positive rate or the detection rate breaches a particular threshold.			
B.51	Case management solution should display all the related details like customer information, profiles, rules violated, past investigated transactions to be available to the analyst when he/she attends a case associated with an alert.			

B.52	Reminder generation facility must be available when the case is about to breach the time frame allowed or expiry date time is getting closer.			
B.53	All the cases assigned to the analyst must be viewable in a single window in tabular form. The user should be allowed to hide/unhide attributes/columns of the cases selectively.			

Area : Core Banking Solution

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
C.1	Vendor should be capable of integrating the proposed solution with Bank's CBS and other related systems.			
C.2	Proposed solution should be able to correlate core banking transactions with other direct channel transaction for cross- channel fraud and compliance management in real-time.			
C.3	Proposed solution should be able to monitor user/branch/region level exceptions real-time and provide real-time alerts when the defined thresholds are breached.			
C.4	Proposed solution should provide pre-packaged scenarios to detect various external and internal frauds and non- compliance issues including suspicious inquiries, account take over, nepotism, surveillance avoidance, exceptions, misuse of authority, sudden surge in transactions, unusual behaviour, compliance and improved fraud analyst understanding.			
C.5	Proposed solution should have the flexibility to define/configure new fraud scenarios using a web based tool without the need for any code changes. This tool should enable building of new real-time fraud scenarios based on the core banking transactions and master data attributes.			
C.6	Scanning through transactions based on multiple attributes and provide breaches to the threshold of the transactions as alerts/denials/challenges in real time and also as lists/reports.			
C.7	The bidder should ensure that the proposed solution does not impact the performance of any of the bank's systems and databases including the Core Banking System (CBS).			
C.8	Solution should consist of a hybrid fraud detection model consisting of configurable scenarios, behaviour profiling of customers for example based on profession such as student, Housewife, salaried, businessman, professionals, trust, society etc. or any other criteria with proven low false positives and high fraud detection rate.			

C.9	Proposed solution should monitor specific general ledger account and identify suspicious debit/ credits in general ledger accounts based on the real time transaction monitoring.			
C.10	Proposed solution should be able to detect suspicious frauds & non- compliance patterns at both individual user/employee level and overall branch level.			
C.11	Proposed solution should have the capability to identify suspicious transactions attempted on dormant, near-dormant and deceased accounts based on the real-time transaction monitoring.			
C.12	Proposed solution should have the capability to perform specific transaction monitoring and fraud detection/non-compliance scenarios for new accounts (say accounts of vintage less than 6 months).			
C.13	The proposed solution should monitor Internal Accounts, Deposit accounts, Loan accounts, Staff Accounts, New Accounts , Money mules, CTS, NACH, PFMS, Account Disbursement services etc.			
C.14	The proposed solution should have the capability to handle the Bulk approval Payment events.			
C.15	Proposed solution should have the capability to identify suspicious employee activities (balance enquiries, exceptions, EOD, TODs, charge waivers etc.) based on the real-time transaction monitoring.			
C.16	EFRMS should have the ability to detect fraudulent account opening and closure events (e.g. Rapid account opening with high value transactions and immediate closing) done using employee details.			
C.17	EFRMS should have the ability to detect potential fraudulent accounts opened in the name of employees and indicating suspicious transactions.			
C.18	The proposed solution should monitor Employee or related accounts with high credit limits receiving high number of transactions.			
C.19	The proposed solution should monitor Accounts with high balances that are closed by an employee.			
C.20	The proposed solution should handle the Batch transactions from CBS & Exim channels where there may be a (i)single debit and a single credit, (ii)single debit and multiple credits, (iii)multiple debits and a single credit or (iv)multiple debits and multiple credits in a single batch.			

Area: Non-financial Transactions from all Channels

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
D.1	Solution should monitor Non-financial transactions that include frequent PIN/ Password change in Cards/Internet Banking/Mobile Banking etc.			

D.2	Solution should monitor any additions, modifications, deletions to vital fields in Account, Customer Master files maintained in CBS system.			
D.3	Solution should monitor for events like frequent password resetting of the teller in Core Banking System.			
D.4	Solution should monitor for Customer Risk Profile changes from Higher to Lower classification.			
D.5	Solution should monitor Frequent locker operations (entries made in CBS).			
D.6	Solution should monitor for sanction of multiple or high number of small loans on a particular given day disproportionate to average sanction made by the said branch.			
D.7	Solution should be able to segregate customers who are having Common mobile number, Email ID, PAN, landline number, communication address, Aadhaar card number in multiple customer IDs.			
D.8	Solution should monitor for Issue of large number of cheque books in an account within a short time frame.			

Area: Mobile Banking/Internet Banking

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
E.1	Proposed solution should have the capability to detect anomalous customer behaviour or transactions originating from Omni channel.			
E.2	Proposed solution should use the risk-based scoring model that is used to establish normal customer behaviour and determine anomalous behaviour. The model should learn over time by itself.			
E.3	Proposed solution should analyse Multiple data to contribute to the model assessment score and risk score this should include: - Transactional Information, i.e. Device info, session data, Account ID etc. - Data Enrichment information, i.e. IP geo location, ISP, connection type, IMEI Number, other unique device information etc. - Profiling Data, i.e. Account ID, IP address, Device fingerprint, Payee ID, Account activity after login etc.			
E.4	Composition of risk score should be transparent to Bank (i.e. the exact reason for a high score will be available to Bank staff to enable accurate decision-making).			
E.5	Proposed solution should have the ability to monitor all pre-login, login and post login transactions to detect any suspicious patterns.			
E.6	Proposed solution should provide pre-packaged scenarios to monitor pre-login, login and post login fraudulent patterns.			

E.7	Proposed solution should be able to detect & prevent following fraud schemes including but not limited to: - Identity theft and account take over as result of phishing attack, malware attack and social engineering attacks, Man-in-the-browser, Man-in-the-middle attacks, Transaction Velocity Check, Suspicious Beneficiary registrations and unusual funds transfer, Sudden Transaction Amount Surge compared to established customer/account profile, Sudden Transaction Volume Surge compared to established customer/account profile, Personal Details Change (Mobile Change, PIN change etc.), Transaction from non-predominant IP, ISP, IP Country, IP City, device, odd hours compared to established profile, Entity white list and black list for IP, ISP, IP Country, IP City, device id, e-banking user id, mule account etc.			
E.8	Proposed Solution should support advanced IP geo-intelligence capabilities to deduce IP Country, IP City, Proxy IP, ISP etc. from the transaction IP address. These facts should be available in the GUI for framing policies.			
E.9	Proposed Solution should have capability to build and re- factor dynamic e-banking user behaviour profiles including but not limited to: -Preferred Country - Preferred City - Preferred IP -Preferred ISP -Preferred Device -Preferred Payee -Average Daily/Weekly/Monthly Funds Transfer amount by payee/biller -Average Daily/Weekly/Monthly Funds Transfer volume by payee/biller -Preferred Transaction hour.			
E.10	Proposed Solution should provide well defined API for integration with host internet banking and mobile banking system for real-time decision making supporting wide range of interface protocols and message formats.			
E.11	Proposed Solution should have the capability to take external lists data as input to detect any known fraudsters/compromised devices/IPs etc. The external list data could be the data shared by regulators, IBA, NPCI, CERT-IN etc.			
E.12	Proposed Solution should be able to consume externally sourced entity for example Neustar, Maxmind, Lexis Nexis, Group-IB, RSA information (e.g. IP addresses, destination accounts etc.) etc. to identify known fraudulent activity. The system should also have the facility to export the entity data corresponding to confirmed fraud cases within the bank so that the data can be shared with external agencies like the Regulators, IBA etc.			

E.13	Proposed system should support setting limits on the number of Internet Banking beneficiaries that may be added in a day per account and provide alerts based on a threshold number of beneficiaries.			
E.14	Proposed system should put in place mechanism for velocity check on the number of transactions effected per day/ per beneficiary and any suspicious operations should be subjected to alert within the bank and to the customer.			
E.15	Proposed system should ensure additional factor of authentication/ step up authentication for payment/login/non-financial events based on the policies.			
E.16	Proposed solution should be able to monitor the Fund transfers within own accounts, transfer to other accounts within the Bank.			
E.17	Proposed solution should be able to monitor the Standing Instruction set and Recurring transactions happening in Mobile and Internet Banking (Omni Channel).			
E.18	Proposed solution should be able to monitor the Fund transfers to other Bank accounts through Various modes like NEFT, RTGS, IMPS etc.			
E.19	Proposed solution should be able to monitor the Shopping/Bill Payment/Lifestyle events initiated from Omni Channel.			
E.20	Proposed solution should be able to configure policies based on non-financial events like Add Payee, Frequent Logins etc.			
E.21	Proposed solution offered should utilize device identification or machine fingerprinting.			
E.22	Solution should be able to ingest the risk score received from Channels like Adaptive authentication , Behavioural Biometric solution and update the profile of the customer based on the same.			
E.23	EFRMS should have the ability to generate alerts in dormant accounts where there are unusual large transactions made through mobile application.			
E.24	Proposed solution should have the capability to support all types of browser and operating systems environment on all devices e. g Personal Computers/ Laptops/Smart phones/ TABS/ other devices.			

Area: AI/ML

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
--------	-------------	--------	-------	------------------

F.1	The AI and ML capabilities of the solution including the kind of model (Supervised or Unsupervised) should be clearly documented and demonstrated by the selected bidder.			
F.2	The proposed solution should have the capability to integrate with AI/ML solutions that may be provided by the Bank in addition to the inbuilt AI/ML capabilities.			
F.3	Demonstration of ML models' ability to adapt and learn from new fraud patterns and data in real-time to continuously improve accuracy.			
F.4	Demonstration of vendor's solution for real-time fraud scoring that assigns a risk score to each transaction based on historical data and AI models.			
F.5	Details on the vendor's XAI (Explainable AI) capabilities to ensure transparency in model decision-making for regulatory compliance and improved fraud analyst understanding.			
F.6	Vendor should be able to demonstrate tools and techniques for data preparation, feature engineering, and handling imbalanced datasets common in fraud data.			
F.7	Solution should use financial & non-financial transactions for behaviour profiling (scoring model).			
F.8	Solution should have ability to include different sets of limits and thresholds for different event types.			
F.9	Solution should provide bank with the capability to create, modify & delete models without any vendor dependency through GUI.			
F.10	There should be no restriction on the number of Models which can be deployed by the Bank.			
F.11	Solution should provide the capability to define, create, modify the parameters used for risk score and the parameters that can be used for cross channel analysis.			
F.12	The solution should be able to compare between 2 or more existing models with the new model to understand the efficacy of the models.			
F.13	The solution to have a Self-Learning Risk Engine.			
F.14	The solution should be integrated with Analytical Models for fraud risk for last 3 years or versions. Model performance report for last 3 years or versions to be submitted.			
F.15	Machine Learning proposed should be available at both macro level as well as hyper personalized level. ML models should continuously evolve			

Area: Customer Profiling & MIS

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
G.1	Solution should have the capabilities to create comprehensive individual customer profiles based on various parameters like Demographics of customer , Digital Channels availed, Annual Income declared etc.			
G.2	Solution should update profiles in real time with every new transaction or event on the entity.			
G.3	The solution should have the capability to enrich data received from various data sources so that they can be used to profile the customer.			
G.4	Solution should be able to create scores that are portfolio specific and/ or relationship specific based on the profiles created.			
G.5	The solution should have the capability to identifying linkages between different entities based on the transactional relationships based on the customer profiles and dynamically adjust score in cases which are suspicious.			
G.6	Solution should be able to run link analysis between multiple CIFs, accounts, customers, transactions for commonality in the various possible parameters like common mobile number, common beneficiary, common address, common modus operandi etc.,			
G.7	The proposed solution should provide information to demonstrate account linkages, transaction movement across various entities. Solution should be capable to capture relationships based on transactions, accounts, customer profile, customer demographics etc., it should have capability to provide transaction pattern analysis.			
G.8	The proposed solution should support building of scenarios across various banking channels like IMPS, UPI, Omni, RTGS, Debit Card, Credit Card, AEPS etc and there should be no restrictions in the no/type of channels used for framing policies. The proposed EFRM Solution must carry out the monitoring across all transaction channels strictly based on Customer Identification Number (CIF no) only.			
G.9	Proposed solution should provide built in pre-packaged report and dashboards to monitor no of open, in progress and closed cases, false positive trend, fraud detection rate and savings, investigators' performance.			
G.10	Proposed Solution should allow business users to create their own dashboard and reports using a drag and drop graphical interface.			
G.11	Proposed Solution should allow end users to create custom reports using wide range of attributes			

	including transaction attributes, case attributes, customer and account attributes.			
G.12	Proposed Solution should support wide range of dashboard widgets to create different types of dashboards including pie chart, bar chart, bubble chart, heat maps, angular chart etc.			
G.13	Proposed Solution should allow to export dashboard and reports to various formats including pdf, xls, html, Power BI etc.			
G.14	Proposed Solution should allow to configure these reports and dashboards to be sent to list of users via email.			
G.15	Proposed solution should allow complete slicing and dicing of reports and dashboards across various dimensions like product, channel, geography etc.			
G.16	The solution should support defining the rules at multiple levels like transaction, CIF, account, customer/group of customers and also any additional information from unstructured stored in a separate database within EFRMS or from external systems.			
G.17	Solution should visually prepare data for analysis, including joining tables, defining custom calculated columns and creating custom expressions for data tables available.			
G.18	The proposed solution should provide pre-packaged MIS dashboard and reports for tracking fraud cases, investigators' performance and system performance. and system performance and ensure Reports / rule simulations, concurrent usage by various users of entities should not have any impact on performance.			
G.19	The Solution should be able to generate periodic (Daily, Weekly, monthly etc.) customized reports to the Bank as per Bank's requirement.			
G.20	Solution should be able to Capture and report impact, loss averted, benefits realized.			
G.21	Solution should be able to provide summary Report which provides insight into the work that is being done by fraud investigators and the effectiveness of the fraud analysts at resolving alerts to be made available to admin users.			
G.22	Solution should provide a summary report which summarizes the newly scheduled alert information to be made available to admin users.			

Area: Channel Specific & Mule detection

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
--------	-------------	--------	-------	------------------

H.1	Proposed Solution should support out of the box behaviour profiles including but not limited to Card holder profiles, Preferred ATM machines, Preferred Merchants, Preferred Merchant Category Codes, preferred Country /City ,Preferred Time Period, Preferred Transaction hour for ATM, POS, E-Commerce, Preferred Currency for purchase-Average Daily/ Weekly/ Monthly/ Quarterly / Season based transaction amount by channel (for domestic and international transactions), Average daily/Weekly/Monthly/Quarterly/Season based transaction frequency by channel (for domestic and international transactions).			
H.2	Proposed Solution should support concept of dynamic and static daily limit for transactions to contain the risk in the event of card misuse.			
H.3	The proposed solution should be able to directly integrate with switch to monitor Debit card transactions across ATM, POS and E-Commerce channels on real time. The proposed solution should support payment card fraud prevention against skimming, counterfeit cards, lost and stolen cards, Mass card compromise, sudden surge and anomalous behaviour, zone hopping in real time Dynamic enablement/ Disablement.			
H.4	The proposed solution should be able to combat both card present and card not present frauds in real-time.			
H.5	The solution should have capability to develop scenario and models related card transactions as per the need.			
H.6	Proposed Solution should support to set threshold limit with specified time periods for all cards that have not been used for international transactions in the past.			
H.7	Proposed Solution should support to set threshold limit with specified time periods for all cards which may be used by few customers internationally, on request.			
H.8	Proposed Solution should support concept of dynamic and static daily limit for transactions to contain the risk in the event of card misuse.			
H.9	Proposed system should look for anomalous Card activity, It should detect behaviour associated with a fraudulent transaction.			
H.10	Solution should handle ISO 8583 based Advice message ((0120/220/420 message from Switch (ATM & AEPS)).			
H.11	Solution should handle ISO 8583 based Financial (0200)/400 / Authorization (0100) message from Switch (ATM & AEPS).			

H.12	Solution Should be able to detect the Nonfinancial transactions made through ATM which includes Balance enquiry ,Mini statement ,PIN change etc.			
H.13	Solution should be able to detect the POS Pre-auth, POS refund transactions.			
H.14	The solution should cover other behavioural aspects than per user, e.g. per account behaviour, per beneficiary/receiver behaviour, per IP-address behaviour, per device-id behaviour for UPI.			
H.15	The solution should detect online banking sessions conducted from out-of-footprint geographies.			
H.16	The solution should identify transactions that are originated from high-risk internet service providers Domains, and flag sessions conducted from multiple locations in a short period of time.			
H.17	The Solution should alert on high velocity of pay-outs to multiple accounts through digital channels in short period of time in same day.			
H.18	The proposed solution should have the capability to detect login, pre-login and post login frauds for UPI. It should support advanced IP Geo location tagging capability to detect IP country, IP City, Proxy IP and zone hopping.			
H.19	Solution should monitor Average Daily/Weekly/Monthly Funds Transfer amount / frequency by payee / biller and also preferred transaction hours for all channels.			
H.20	Bidder should be able to integrate with any of risk-based authentication solution (Step UP) for internet banking, mobile banking, e-commerce payments, UPI that will be provided by the Bank.			
H.21	Solution should support various UPI transactions (P2P,P2M,M2P etc).			
H.22	Solution should be able to handle the financial and non-financial XML messages received in case of UPI & IMPS.			
H.23	Solution should be able to ingest the risk score received from Channels like Adaptive authentication , Behavioural Biometric solution and update the profile of the customer based on the same.			
H.24	Solution should be able to detect the new UPI registrations and provide the feedback to the system based on the customer profile.			
H.25	Solution should be able to accommodate rules based on the Location Information derived from AePS transactions.			
H.26	Solution should be able to determine money mule accounts based on various parameters like Geolocation, Turnover in the account, transaction velocity, odd hour, balance enquiry etc.			

H.27	Solution should dynamically enhance the monitoring for suspected money mule accounts based on the Red flags in the accounts (Login to Mobile banking/Internet banking app frequently ,constant change in area of customer ,sudden surge in ecom/ATM, IMPS, UPI transactions) etc.			
H.28	Solution should increase the risk score of the potential money mules and separate queue for these to be created in case management application.			
H.29	Solution should have enhanced due diligence for customer profiles based on the age of account and the number of transactions performed across the digital channels.			
H.30	Solution should dynamically adjust the risk score based on the age ,type of accounts ,Demographics and the amount of credits being received to the account.			
H.31	Solution should detect money mule accounts based on deviations from normal behaviour by using the statistical and machine learning techniques.			

Area: Technical Specifications

SI No.	Particulars	Yes(Y)	No(N)	Customizable (C)
I.1	Solution should be able to integrate to load data into an Operational Data Store and Data Lake as per the requirement of the Bank.			
I.2	Application should handle automatic switchover in cluster environment.			
I.3	Proposed Solution should have ability to failover without manual intervention.			
I.4	Proposed Solution Should be able to support different protocols (TCP/IP, IPX etc.). It should support IPV6.			
I.5	Proposed Solution should implement application patches and updates as specified in "Upgrades & Updates", sub-section 6 above.			
I.6	Proposed Solution should support all the requirements mentioned in "Scope of Work" & "Other Requirements" specified in sub-section 3 & 4 above.			
I.7	System should track the client's IP, Network interface address and device.			
I.8	The solution should have the capability to support archiving the data on HDD/ Peripherals and retrieve from the above for the purpose of processing.			
I.9	Support for integration with packages like chart generators, Statistical/ Financial DLLs, MS Office Components, Power BI etc.			
I.10	Database link, Data, Dictionary and support should be provided to Bank's Data Warehousing & MIS project to enable them to generate the reports in Bank's			

	formats without any additional cost.			
I.11	Selected bidder should ensure that the solution is hardened as per the Secure Configuration provided by the Bank.			
I.12	Proposed solution should be able to cater to cloud data storage.			
I.13	Proposed solution should be compatible with Bank's IPv4, IPv6 and TLS versions.			
I.14	The system should enable profiling of users and definition of control levels and passwords.			
I.15	All Error messages must be logged. It should be possible to look up online (by error message number or by alphabetical list) all error messages reported by the system, to determine their meaning and the appropriate corrective course of action. Error messages or events of a certain severity level should be immediately notified to the System Administrator's Group and actual user.			
I.16	System should provide auditable management of User-ids, access rights and passwords, login, activities etc.			
I.17	Maintenance of a secure, auditable log of access to the system, identifying user- Id, date, time, functions accessed, operations performed etc.			
I.18	Ensure data confidentiality and integrity at rest as well as in transit.			
I.19	Solution should support encryption as per industry standard encryption algorithms			
I.20	A Separate Login/Role / user type is required for Auditors who can view all the parameters / test cases / pending reports/ and perform complete Audit / reporting through the user. Though the audit user would have view permission only.			
I.21	Daily activities log must be merged into the history log files.			
I.22	Enterprise Data Dictionary documents of the solution should be available.			
I.23	Service Lifecycle Management documents should be available.			
I.24	Date, time and User stamped process list for different processes.			
I.25	Provision for daily activity report/s to highlight all the processes invoked.			
I.26	Provision for recording of all unsuccessful login attempts.			
I.27	The solution should be Platform Agnostic and not be constrained to a single Hardware Platform/Operating System/Database etc.			
I.28	The bidder to design the solution, security, and data flow architecture in-line with the Bank's environment			

I.29	The bidder to develop, configure, customize, and implement the solution according to the project scope, technical specifications and functional specifications within the timelines			
I.30	The bidder to ensure solution scalability and performance in line with Bank's business projections and expected performance levels (SLAs)			
I.31	Testing of the proposed solution to also include Unit Testing, System Integration Testing, Performance Testing and Load Testing.			
I.32	Successful Bidder to fully support the UAT, security review, audits, or any other testing requirements of the Bank during the entire contract period			
I.33	Bidder to fix any vulnerabilities/bugs/issues in the platform at no additional cost			
I.34	Must the have capability to support Security mechanism such as TLS v1.3 and above, AD- Integration, Certificates and Key			
I.35	Secure exchange of payment messages not limited to secure message queues, secure file transfer, secure API.			
I.36	Data Replication should be hash encrypted at storage over the network at least SHA1+Salt			
I.37	The Solution should ensure Data Integrity using internationally accepted hashing algorithms such as MD5/ SHA-2 or higher etc. and support standard algorithms like AES.			
I.38	The Solution should support Anonymization (Removing PII), Pseudonymization (Replacing PII with artificial Identifiers) also Data minimization technique to be followed.			

Note:

1. All of the above points are mandatory. Bidder must comply with each of these mandatory line items. Non-compliance to any one or more rows item under those heads will disqualify the bidder.
2. Each line item under Functional & Technical specification will be given a score of 1, if it is already available in the product.
3. Each line item under Functional & Technical specification will be given a score of 0 if it is not already available in the product but is customizable before Go Live of the proposed solution.
4. However, if any point in the Functional or Technical Specification is neither available in the product nor is customizable, the bidder will be disqualified.
5. The total marks allotted to the bidder for the 284 Technical & Functional points will be rationalized to a total of 35 and will be taken to Technical Evaluation Table A in Section 9.5.

8. Hardware Sizing and Performance Requirement:

1. The IT Infrastructure required for hosting the proposed EFRM solution will be provided by the Bank. The Proposed EFRM Solution shall be hosted on Bank's on-premises infrastructure.
2. The Bidder must provide requirement of optimal size of the Hardware, Operating System, Database, keeping in view of the estimated peak volume of transactions to extrapolate the same for the full TCO period (i.e., 5 years). The hardware sizing document should explicitly

outline all required components, including hardware and software. It must also clearly specify the responsibility for providing each component, whether it falls on the Bank or the Bidder.

3. The response time at server end should be always less than 100 milli second and uptime above 99.90% per quarter. The hardware proposed for the Platform should not exceed 70% of CPU(s), Memory(s), Hard Disk(s) utilization levels at any given point in time during the TCO Period.
4. The system should be capable of keeping online data of at least 2 years from the date of storage of data or until the expiry or termination of contract, whichever is later. Thereafter, the system should support purging & archival of data. Bidder must provide proper documentation detailing the steps of Data archival & retrieval strategies and the process involved.
5. The Bidder should implement the proposed EFRM application at Bank's advised premises in High Availability mode, along with DR and a minimum uptime time of 99.90% per quarter.
6. The Bidder shall do proactive monitoring and capacity planning at regular intervals and advise the Bank on Hardware / Software upgrades.
7. In the event the sizing proposed by the Bidder does not meet the performance / service levels of the Bank during the contract period, the Bidder will carry out the necessary installations/implementation/upgrades/replacements of the proposed EFRM application in the new hardware, provided by the Bank, at no extra cost to the Bank.
8. The Bidder to design & size the hardware required at Primary Data Center (Including Test/ Development/ Training environments) and Disaster Recovery (DR) Site. The Bidder to provide the complete architecture, hardware requirement for end-to-end functioning of the Platform as part of Technical bid submitted to the Bank.
9. The Bidder should provide recommendations of the hardware, software and network including architecture of the Platform offered by means of diagrammatic/ pictorial representations and the project plan for going live. Bidder should also provide security set-up proposed in the Platform and various layers of risk identification and mitigation measures.
10. Bidder to carry out Health Check-up on the application / infrastructure on regular basis (i.e., at least 6 months once) for suggesting any improvements in hardware / software configurations.
11. The Data replication should happen from Primary site to DR site in real time to keep them in sync with a Recovery Time Objective (RTO) of 120 Minutes and Recovery Point Objective (RPO) of 10 minutes.
12. The bidder is also required to conduct at least one DR drill of the proposed Platform in a quarter or as per the bank's requirement.
13. The bidder should propose the comprehensive Platform having services for front end (Customer side) as well back end (Bank Side) to meet the requirements in the RFP. Services for Back end include the option of Sending the SMS, EMAIL, IVR etc. to the customers and the Front end includes applications Like Case Management, Rule writing / modification / deletion etc.

Performance testing and Validation methods

The proposed solution should be readily measurable with the following performance Benchmarks and Performance testing methods

Performance Benchmarks:

1. Transaction Processing Speed: Measured in transactions per second (TPS).
2. Rule Evaluation Time: Average time taken to evaluate a rule.
3. Alert Generation Latency: Time taken from detection to alert generation.
4. System Response Time: Overall system response time under different load conditions.

5. Data Processing Efficiency: Speed of data ingestion, transformation, and loading.
6. Scalability: Ability to handle increased transaction volumes and data growth.

Performance Testing Methods:

1. Load & Stress Testing: Simulating increased user loads to identify the system's performance under stress.
2. Endurance Testing: Simulating sustained user load over an extended period to assess system stability.
3. Volume Testing: Tests the system's ability to handle large volumes of data.

Validation Methods:

1. Benchmark Comparison: Comparing test results against predefined performance benchmarks
2. User Acceptance Testing (UAT): Feedback provided from end-users will be utilized for performance testing.

9. CUTOVER & TRANSITION PHASE

Uttar Pradesh Gramin Bank requires the selected bidder to adhere to a specific cutover and transition plan. The Vendor should be prepared to deploy the Enterprise fraud risk Management solution and the Plan for Transition to be provided immediately once the Purchase order is issued and contract is executed.

The following Channels/Applications/Switches will be integrated in Phase 1 & Phase 2:

Phase -1

1. UPI (Both Inward & Outward)
2. Mobile Banking along with integration with Step up Authentication
3. Internet Banking along with integration with Step up Authentication
4. Debit Card (ATM Switch)
5. IMPS (Inward & Outward)
6. AEPS
7. NEFT & RTGS (Inward & Outward)
8. Call Centre & IVRS (All Channels)
9. SMS and Email Gateway

Phase -2

1. CBS (Branch Transactions) *
2. BBPS (Inward & Outward)
3. Behavioural Biometric Application Integration

****Branch Transactions (including monitoring of Internal Accounts, Deposit accounts, Loan accounts, Staff Accounts, New Accounts, Money mules, CTS, NACH, PFMS, Open API etc.)***

Various external Feeds to be consumed/provided as & when required

Phase -3

1. Integration of remaining transaction channels as and when required by the Bank during the contract period.

Complete Schedule / Plan

Selected bidder shall provide comprehensive Enterprise Fraud Risk Management Solution in Production environment within 6 months from the date of agreement. Entire Data Migration services must completed within 6 months

S.No	Deliverables	Expected Timelines	Payment	Penalty	Maximum Penalty
1	Signing of the Contract	Within 15 days from the date of issue of the Purchase Order.	NA	NA	NA
2	Delivery of Enterprise Licenses and Implementation & integration of EFRM application at DC & DR	Within 15 days from the date of signing of the Contract.	10% of License Fee pertaining to Year 1		
3	Successful UAT of all transaction channels / applications of Phase 1	Within 10 weeks from the date of signing of the contract.	20% of the License Fee pertaining to Year 1 and 50 % of Implementation cost of Phase 1 after UAT sign off given by Bank.	1% of Implementation cost of Phase 1 per week of delay or part thereof.	Maximum of 10% of TCO.
4	Successful Go Live of transaction channels/ applications of Phase 1 in the production environment.	Within 12 weeks from the date of signing of the Contract.	20% of the License Fee pertaining to Year 1 and 50 % of Implementation cost of Phase 1 after go live sign off given by the Bank.	1% of implementation cost of Phase 1 per week of delay or part thereof.	Maximum of 10% of TCO.
5	Successful UAT of all transaction channels/ applications mentioned in Phase 2.	Within 18 weeks from the date of Signing of the Contract.	20% of the License Fee pertaining to Year 1 and 40 % of Implementation cost of Phase 2 after UAT sign off given by Bank.	1% of implementation cost of Phase 2 per week of delay or part thereof.	Maximum of 10% of TCO.
6	Successful Go Live of all transaction channels /applications mentioned in Phase 2 in the production environment.	Within 20 weeks from the date of signing of the Contract.	10% of the License Fee pertaining to Year 1 and 40 % of Implementation cost of Phase 2 after go live sign off given by the Bank.	1% of implementation cost of Phase 2 per week of delay or part thereof.	Maximum of 10% of TCO
7	Six months after start of Year 1 (Year 1 will start after Go Live of Phase 2)		Remaining 20% of the License Fee pertaining to Year 1 & 20% implementation fees of Phase 2	NA	NA

8	OTS	From the date of Successful Go-Live of Phase 2	Quarterly Advance in	As per SLA	As per SLA
9	Annual license fee from Year 2 to Year 5		Half Yearly in advance except for the last half year payment which will be paid in arrears	As per SLA	As per SLA

Note:

The timelines defined for delivery, implementation, integration, UAT and Go-Live shall be applicable only after the Bank has ensured readiness of all required infrastructure, including but not limited to hardware, network, access, data availability, and environment setup at DC/DR and other locations ('Site Readiness').

In the event of any delay attributable to the Bank, including Site Not Ready (SNR), non-availability of required hardware, delays in providing access, dependencies on third-party systems, or any other prerequisite not being fulfilled by the Bank, the corresponding project timelines shall stand extended on a day-to-day basis for the period of such delay.

The revised timelines shall be mutually agreed upon and documented.

10. TIMELINES FOR PROJECT IMPLEMENTATION

The initial contract period shall be for implementation period + 5 (five) years, with the possibility of an extension for an additional 2 (two) years at the sole discretion of the Bank, on mutually agreed terms and conditions, including pricing. 1st Year of the Contract is kept for the implementation phase (Phase I + Phase II). Year 1 will start post Go Live of Phase II. If the Bank does not terminate the contract at the end of the initial implementation period + five-year period, the contract shall automatically extend for an additional two years, subject to mutually agreed terms and conditions, including pricing.

The selected bidder shall perform the services and comply in all respects with the dates and hereby agree that failure on part of the bidder to meet the dates without prejudice to any other rights that Uttar Pradesh Gramin Bank may have, may lead to termination of contract at the discretion of Uttar Pradesh Gramin Bank after cure period of 90 days.

In case the Bidder is unable to complete the Transitions within the scheduled timelines, the Bank reserves the right to cancel the Purchase Order and terminate the contract forthwith, without incurring any financial liability after cure period of 90 days. In case the delay has been communicated in advance by the Bidder and agreed upon by the Bank, then above provision will not apply. The same will also not apply in case the delay is from Bank's side or Bank's technology Service Providers.

11. SERVICE LEVEL AGREEMENT (SLA) & Penalties

After Go-Live of the solution, penalty will be deducted for partial or complete downtime of the solution provided as below.

Vendor will have to guarantee a minimum uptime of 99.90%, calculated on a quarterly basis. Application availability will be 99.90% on 24x7x365. The penalty will be calculated as per the details given below.

Uptime percentage - 100% less Downtime Percentage

Downtime percentage - Unavailable Time divided by Total Available Time, calculated on a quarterly basis.

Total Available Time — 24hrs per day for seven days a week excluding planned downtime

Unavailable Time - Time involved while the solution is inoperative or operates inconsistently or erratically.

Uptime Percentage (A)	Penalty Details
A ≥ 99.90%	No Penalty
99.89% ⇒ A > 99.5%	1% of cost of license fee pertaining to corresponding year
99.5% ⇒ A > 98.5%	2% of cost of license fee pertaining to corresponding year
A ≤ 98.5%	Penalty at an incremental rate of 1% (in addition to a base of 2%) of cost of license fee pertaining to corresponding year for every 0.1% lower than the stipulated uptime

In addition, the system has to respond back to source channel within maximum of 100 milliseconds on receipt of transaction from source channel at all times.

Response Time (A)	Penalty Details
A ≤ 100 Milliseconds	No Penalty
A > 100 Milliseconds	If the number of transactions where the response time is greater than 100 milliseconds, is greater than or equal to 50000 per day: 0.05% of cost of license fee pertaining to corresponding year. If the number of transactions where the response time is greater than 100 milliseconds, is greater than 100000 per day: 0.10 % of cost of license fee pertaining to corresponding year.

Hardware sizing has to be provided by bidder based on the TPS proposed by bank and Hardware will be provided accordingly and solution should respond back to source channel within maximum of 100 milliseconds, no penalty will be levied if the solution is unable to respond due to hardware failure or network time out from source channels.

The uptime percentage would be calculated on quarterly basis and the calculated penalty amount would be adjusted from every subsequent Half yearly license payment.

Penalty due to downtime, during contract period will be deducted from any subsequent payment to be made to the Successful bidder.

Penalty for delay in issue Resolution

Resolution of the problem is expected within 24 hours of escalation by the Bank as per the support matrix provided by the Bidder. Delay in providing resolution will attract penalty at 1% of the license fee pertaining to corresponding year cost per week of delay or part thereof subject to a maximum of 10% of the license fee pertaining to corresponding year for the total penalty levied in a single year.

Penalty Due to non-availability of resources during Maintenance Period

In case, if any of the required onsite technical support engineer(s) (L1) is/are not available in any of the shifts on any particular day then a penalty of Rs 5000/- per day will be charged to Bidder and same will be deducted from OTS charges payable to Bidder.

Penalty Due to non-availability of resources during Implementation Period

In the absence of the OEM engineer, suitable replacement from the OEM is to be provided on immediate basis. In case of absolute absence (when no replacement is provided), penalty would be deducted @0.5% of the Implementation cost, for each day, up to a maximum of 10% of TCO.

Penalty due to erroneous behavior of the Solution

If the solution or any of its components behaves erroneously which results in monetary or business loss to the Bank, then the entire amount of such loss shall be recovered from the bidder on actual basis.

Penalty due to Audit and Compliance Gaps

Service	Gaps/Issue Categorization	Resolution Timelines	Penalty
Audit Gaps/ Issues Resolution	Critical	Within 7 days	10,000 per day post resolution timelines till issues/gaps closure date.
	High	Within 10 days	5,000 per day post resolution timelines till issues/gaps closure date.
	Medium	Within 20 days	2,000 per day post the resolution timelines till the issues/gaps closure date.
	Low	Within 1 month	1,000 per day post the resolution timelines till the issues/gaps closure date.

Bidder must be submitting the compliance document confirming that the identified gaps have been closed.

Note:

If **uptime** less than 98.00% due to performance issues continues for more than two months due to any reason at application/solution side, Bank may choose any or all the options like Review the contract, Cancel the Purchase Order, Terminate the Contract, Forfeit the Performance Bank Guarantee and Blacklist the bidder.

SLA will be monitored on Monthly basis. Penalty due to downtime/service unavailability/disruption and any clauses mentioned above during contract period will be deducted from any subsequent payment to be made to the bidder.

Penalty as mentioned above can be levied simultaneously. Maximum deducted penalty of one type

will not affect any other type of penalty i.e. all types of penalties can be levied up to their maximum limit simultaneously. However, the total penalty amount, under all heads, cannot exceed 10% of TCO as per RFP.

Bank reserves the right to Cancel the Purchase Order, Terminate the Contract, Forfeit the Performance Bank Guarantee and Blacklist the bidder, in case the bidder exceeds the threshold limit of Delay for any of the items above and/or penalty amount exceed as mentioned above. Bank, at its sole discretion, may exercise any or all the options against the bidder, in such circumstances.

However, any penalty imposed by the Govt. or any other statutory body due to act/failure of conduct/leakage of data by selected bidder or its agents shall be entirely borne by the bidder. Once the maximum limit of the penalty is reached, the Bank may consider termination of the contract, after invoking Performance Bank Guarantee submitted by the bidder.

Bank may recover such amount of penalty from any payment being released to the successful bidder, irrespective of the fact whether such payment is related to this contract or otherwise.

All Services Level Agreement (SLAs) shall undergo a comprehensive review every six months. This review will be based on prevailing industry best practices and conducted in consultation with the successful bidder. Notwithstanding, the bank retains the ultimate authority to make final determinations regarding any modifications or updates to the SLAs. The decisions made by the bank in this regard shall be conclusive and binding.

12. Conditions of the Contract

12.1 Period of Validity of Bids

Bids should remain valid for the period of 180 days after the last date for submission of bid prescribed by the Bank. A bid valid for a shorter period shall be rejected by the Bank as non-responsive. Bank may seek extension of bid validity period, if required. In case the last date of submission of bids is extended, the Bidder shall ensure that validity of bid is reckoned from modified date for submission. Further extension of the validity of the bid will be decided by the Bank in case of need. The price quoted in Final Commercial Offer will be valid for at least 180 days from the date of offer.

12.2 Authorization to Bid

Responses submitted by a Bidder to this RFP (including response to functional and technical requirements) represent a firm offer to contract on the terms and conditions described in the tender document. The proposal must be signed by an official authorized to commit the bidder to the terms and conditions of the proposal. Bidder must clearly identify the full title and authorization of the designated official and provide a statement of bid commitment with the accompanying signature of the official and submit the copy of power of attorney/ authority letter authorizing the signatory to sign the bid.

12.3 Payment Terms

The selected Bidder must accept the payment terms proposed by the Bank. The commercial bid submitted by the bidder must be in conformity with the payment terms proposed by the Bank. Any deviation from the proposed payment terms would not be accepted. The Bank shall have the right to withhold any payment due to the selected bidder, in case of delays or defaults from bidder end. Such withholding of payment shall not amount to a default on the part of the Bank. If any of the

services as mentioned in the price bid is not taken up by the Bank during the assignment, the Bank will not pay the cost quoted by the bidder in the price bid against such services.

- 12.3.1 There shall be no escalation in the prices once the prices are fixed and agreed by the Bank and the bidder during the contract and subsequent extended period.
- 12.3.2 Also, the payments for each month will be made only after the acceptance/verification of the invoice for that month. Digitally signed monthly invoice should be uploaded in the portal within 30 days from the end of each month. This shall also include all Supporting documents based on which the invoice has been prepared.
- 12.3.3 The fees payable by the Bank to Service Provider shall be inclusive of all costs but including GST. The Bank shall pay the amount due under this RFP and subsequent agreement after deducting any tax deductible at source ("TDS"), as applicable. Bank will not pay any advance amount, and the payment will be released by the Bank at Lucknow or any center through Service Provider's account maintained with Uttar Pradesh Gramin Bank after deducting TDS, Penalty/LD if any. Selected Bidder must provide necessary Bank Details like Account No., Branch Name etc.
- 12.3.4 The Bank shall pay each undisputed invoice raised in accordance with this RFP and subsequent agreement, within thirty (30) Working Days after its receipt unless otherwise mutually agreed in writing, provided that such invoice is dated after such Fees have become due and payable under this RFP and subsequent agreement. Demand for payment must be raised only if it is accompanied with the sign off from Bank for the stage of payment claimed.
- 12.3.5 Any objection / dispute to the amounts invoiced in the bill shall be raised by the Bank within reasonable time from the date of receipt of the invoice. Upon settlement of disputes with respect to any disputed invoice(s), the Bank will make payment within thirty (30) Working Days of the settlement of such disputes.
- 12.3.6 The selected Bidder shall solely be responsible:
- 12.3.6.1 To pay all taxes whatsoever in connection with delivery of the services at the site including incidental services and commissioning.
- 12.3.6.2 Wherever law and regulation require deduction of taxes, it will be deducted at source of payment. Bank shall affect such deductions from the payment due to the Bidder.
- 12.3.6.3 The Remittance of amount so deducted and issue of certificate for such deductions shall be made by Bank as per the laws and regulations in force.
- 12.3.6.4 Nothing in the contract shall relieve the Bidder from his responsibility to pay any tax that may be levied in India/abroad on income and profits made by the Bidder in respect of this contract.
- 12.3.6.5 Payment of all taxes i.e. GST (CGST/SGST/IGST) will be made at actual, on production of suitable evidence of payment by the Bidder.
- 12.3.6.6 The Bidder shall be liable to pay all applicable corporate taxes and income tax that shall be levied according to the laws and regulations applicable from time to time in India.

13. Escrow

The Bank and the successful bidder with OEM shall agree to appoint an escrow agent to provide escrow mechanism for the deposit of the source code for the EFRM solution supplied by the successful bidder to the Bank to protect its interests in an eventual situation. The Bank and the successful bidder and OEM shall enter into escrow agreement with the designated escrow agent, which will set out, inter-alia, the events of the release of the source code and the obligations of the escrow agent. As a part of the escrow arrangement, the successful bidder and OEM is expected to provide a detailed code documentation of the customization. The Escrow arrangement suggested by the successful bidder shall not be binding on the Bank. The Bank reserves the right to explore alternate escrow mechanisms based on the Bank's existing practices. The Bank and the successful bidder may enter such escrow arrangement that is mutually agreed upon by the two parties. The source code of customizations done by the successful bidder on the latest version of the application software under the proposed solution running in the bank is to be kept in escrow at least once in a quarter. The escrow will be released to and become the property of the Bank if the agreement is terminated for either default or insolvency or should the bidder/ OEM cease or give notice of intention to cease to provide maintenance or technical support service for the software as required by the agreement. All payment and costs with respect to lodging of software with escrow services in India would be borne by the successful bidder. The cost of escrow and other related costs will be borne by bidder.

14. Authorization Letter from OEM (MAF)

The bidder has to obtain and submit Authorization letter from all Original Equipment Manufacturers (OEMs) as per [Annexure-XIX](#) for component where bidder is an OEM and they quote their own product, then MAF (Manufacturer's Authorization Form) need not be submitted. However, self-declaration for such components regarding own components may be submitted.

15. Human Resource Requirements

15.1 Implementation & Integration:

1. Implementation & Integration of the proposed EFRM solution during Phase 1 & Phase 2, have to be strictly carried out by the OEM resources only. Requisite skilled and qualified OEM resources should be deployed onsite during the implementation and integration period.
2. Any additional channel implementation/integration during the Contract period has to be carried out onsite by the requisite skilled and qualified OEM resources.

15.2 Maintenance during the Contract period:

1. Bidder shall provide onsite comprehensive 24*7*365 maintenance and support with back to back OEM support for the proposed EFRM solution from the date of go live (Phase 2) of the EFRM solution.
2. The successful Bidder must provide uninterrupted availability of the system and ensure that the problem is resolved within the time schedule as prescribed in the Service Level Agreement. For any major break down such as crash, the successful bidder must arrange for immediate onsite support for recovery and resumption of operations. The re-installation of the application software and any other software solution components provided by the bidder, if required, is the sole responsibility of the successful Bidder, which should be treated as service provided under maintenance support.

3. Maintenance will also include installation of application updates and upgrades, providing corresponding updated manuals, and follow-up user training. During the contract period, all updates and upgrades should be free and must be implemented without any additional cost to the Bank.
4. The Bidder will deploy L1 resources on 24*7*365-day basis at the Bank premises from the date of Go Live of Phase 2 of the EFRM solution.
5. The bidder will also deploy L2 and L3 resources onsite during the Business hours and Business days of the Bank from the date of Go Live of Phase 2 of the EFRM solution.
6. L1, L2, & L3 resources should be on the payroll of the OEM/Bidder.
7. L1, L2, & L3 resources if provided by the bidder, should be trained and certified by the OEM for handling & managing the proposed EFRM application for Genera & Complex scenarios.
8. Necessary certificate from the OEM should be provided to the Bank before the onsite resources are deployed at the bank premises.
9. The Bank reserves the right to increase or decrease the number of seats for L1, L2 & L3 helpdesk depending on its requirements. The Bank also reserves the right to change the location of helpdesk resources at its discretion.
10. The Bidder shall provide additional count of skilled and qualified L1, L2 & L3 resources, in the future if the Bank so decides, at the same terms and rate during the contract period.
11. The bidder should inform 1 month in advance and obtain concurrence from bank if they want to replace the dedicated resources with the equivalent or better one.
12. Bidder must maintain and test BCP Plan periodically for providing resources to Bank & services in any disruptive scenario.
13. Bidder/OEM shall provide the Information & Cyber security training and Data Privacy training to its resources before deputing them in the Bank.

15.3 Educational Qualification for Onsite FM Support Engineer:

L1 Engineer- BE/B.Tech/MCA/BCA/B.SC-IT with minimum 2 years of experience in the field of IT support.

L2 Engineer- BE/B.Tech/MCA/BCA with minimum 4 years of experience in the field of Database and EFRMS portfolio. Should have knowledge of troubleshooting, creating/modifying rules, execution, application rule fine tuning, excellent Communication Skills etc.

L3 Engineer- BE/B.Tech/MCA with minimum 6 years of experience in the field of IT Security. Engineer should be having minimum 2 year of experience in handling the fraud and risk portfolio (proposed EFRMS solution). Should have knowledge of Implementation, Integration, configuration, troubleshooting, creating rules, execution, report templates, excellent Communication Skills etc.

15.4 Scope of Work for Level One (L1) Support

L1 would typically address queries and all end user issues pertaining to: Business application related issues/queries, Enterprise applications (In-Scope), Generic IT Queries, Queries related to business process, reports generation, presentation layer applications, etc.

Other environmental software related to the EFRM Solution.

The Bank expects the Bidder to provide for L1 support for all activities and services that are part of scope. The key activities that the bidder is expected to perform as part of Level 1

Helpdesk Support are:

- 15.4.1 User Management.
- 15.4.2 Creation or modification of user profiles.
- 15.4.3 Assessment in case of specific rights assignment.
- 15.4.4 Provision for assigning user rights only for certain fixed period.
- 15.4.5 Periodic user right monitoring (at known frequency) must be specified and implemented.
- 15.4.6 Categorization of requests into functional clarification, bug or change request.
- 15.4.7 Functional clarification / work around to be provided by Level 1 support itself.
- 15.4.8 Bug change requests to be logged and reported for further processing.
- 15.4.9 Resources should perform daily monitoring and submit status reports and other reports as per bank's requirements.
- 15.4.10 Provide telephonic and / or electronic mechanisms for problem reporting requests as well as for service and status updates.
- 15.4.11 Monitoring overall health of the solution and analyse all events and logs.

15.5 Scope of Work for Level Two (L2) Support

The Bank expects the Bidder to provide L2 support for all activities and services that are part of the scope.

The L2 support provided by the Bidder should be comprehensive and cover entire management and support of the EFRM solution provided by the Bidder. The resource should also coordinate for all third- party solutions provided by the Bank to ensure smooth functioning of the EFRM solution. The services specified herein are not exhaustive and only indicative:

- 15.5.1 Provide continuous onsite support for the EFRM solution provided by the bidder.
- 15.5.2 Creation/ Modification of rules/policies through the proposed solution based on the requirement of Bank.
- 15.5.3 Knowledge of how to configure the customize dashboard and reports.
- 15.5.4 Troubleshoot real time, NRT, batch processing activities at various levels in the EFRM Solution.
- 15.5.5 Troubleshoot any query processing activity at various levels in the EFRM Solution.
- 15.5.6 Resolve the call within stipulated timeframe as defined in Service Level Agreement.
- 15.5.7 Coordinate with the L3 teams for resolution and provide necessary information as may be required by the team to resolve the issues.
- 15.5.8 Escalate the unresolved calls as per escalation matrix.
- 15.5.9 Automatically log in calls during escalation.
- 15.5.10 Provide the timeframe for providing a solution of resolution of the escalated calls.
- 15.5.11 Prepare a root cause analysis document with the resolutions provided for major issues such as:
 - Production issues
 - Problems which have resulted in complete service disruptions or downtime
 - Delayed response times
 - Data / table corruptions
 - System Performance issues (high utilization levels)
- 15.5.12 The Onsite resources will be responsible for ensuring the DC-DR sync, regular maintenance of application Logs and also Continuous monitoring of

solution.

- 15.5.13 The onsite resources should have the capability to support archiving the data on HDD/ Peripherals, performing integrity checks and retrieve from the above for the purpose of processing.
- 15.5.14 The onsite resources will be responsible for performing data backups, performing integrity checks and ensuring the integrity of the backup. The bank will provide the required backup solution and tapes to facilitate this process.
- 15.5.15 Liaise with the L1 support personnel for the call information and resolution.
- 15.5.16 All other activities as would be required by the Bidder to manage and maintain the solutions.
- 15.5.17 Perform the application audit on a quarterly basis or as per the guidelines of the bank.
- 15.5.18 Rectify any corruption in the software.
- 15.5.19 Ensure patch releases are ported to the production environment with no business disruption or business losses.
- 15.5.20 Support quarterly BCP/DR drills.
- 15.5.21 The resources shall be responsible to create/configure and customize the solution as per Bank's requirement.
- 15.5.22 Provide application support from the Bank's data centre as mentioned above for the Data centre and disaster recovery site.
- 15.5.23 Routing the transactions through the backup system in case the primary system fails.
- 15.5.24 Support for integrating any applications that need to be interfaced with the EFRM solution in the future.
- 15.5.25 Level 2 service desk agents would need to be deployed by the bidder at DC/DR/Office premises from where the Level 2 support is planned to be provided. The bidder is expected to act upon the tickets routed from Level 1. The bidder has to ensure that proficient and professional personnel are put to handle the L2 support and resolutions are provided on a proactive basis.

The L2 helpdesk resources proposed should have adequate and relevant experience in the areas mentioned like database and EFRMS application. The Bank has a right to review and reject resources whose competency levels are below expectations. Support and maintain all interfaces to the EFRMS and other solutions part of this scope document modifications to existing scripts, reports presentation to Bank management on the critical issues reported, resolved, solution provided and the suggested recommendations or leading practices as and when asked by the Bank or on a monthly basis whichever is earlier. Perform performance tuning of the applications mentioned in the Scope of Work of this document including Solution tuning.

15.6 Scope of Work for Level Three (L3) Support

Critical code level changes or application software related issues. This support is required for all components that are expected to be provided by the Bidder as part of this RFP.

The Bidder has to provide the resolution / service as per the defined service levels in this RFP. The Bidder has to make sure that the methodology proposed for addressing and resolving problems is aligned to the required and defined service levels.

The Bidder should staff the service desk with persons who are conversant with the solutions deployed and are capable of resolving routine problems and queries through the service desk application or over the phone. The staffing needs of the service desk will be decided by bank based on calls/ticket volumes and patterns.

Brief description of the envisaged activities to be performed by Bidder at L3 is enumerated as under. The services specified herein are not exhaustive and are only indicative:

- 15.6.1 Creation/Modification of rules/policies through the proposed solution based on the requirement of the Bank.
- 15.6.2 Resolve the call within the stipulated timeframe as defined under the service level agreements.
- 15.6.3 Communicate the status of the call to the Bank and accordingly update the status, resolution or workaround and date of resolution.
- 15.6.4 Prepare a root cause analysis document for issues referred to L3 support and provide to the Bank along with the resolution.
- 15.6.5 Liaise with the L2 support personnel for the call information and resolution.
- 15.6.6 Provide version upgrades for EFRMS application.
- 15.6.7 The resources shall be responsible to close the audit gaps, if found in the third party audit report shared by the Bank during the entire contract period.
- 15.6.8 The L3 resource shall be responsible for proactively closing the vulnerabilities and Internal Information System's Audit observations related to the EFRMS system to make the system resilient to cyber threats in the mentioned TAT defined by the Bank.
- 15.6.9 L3 support shall be responsible for Patching of the proposed EFRM solution with the latest available patches.
- 15.6.10 All other activities as would be required by the SI to manage and maintain the solutions.
- 15.6.11 Perform Version Migration - The services specified herein are not exhaustive and only indicative.
- 15.6.12 Perform version migration as per the version release plan of OEM and agreed by the Bank.
- 15.6.13 Version upgrades and migrations should also include porting of existing customizations.
- 15.6.14 L3 will be responsible for Lodging any unresolved issues with the OEM and providing the solution within the defined time frame.
- 15.6.15 Onsite L3 resource will be responsible for supervising: the DC-DR sync, regular maintenance of application Logs and also Continuous monitoring of solution.
- 15.6.16 Onsite L3 resource should supervise: the archiving process of data on HDD/ Peripherals, integrity checks and retrieval.
- 15.6.17 Onsite L3 resource will be responsible for supervising: data backups, integrity of the backup. The bank will provide the required backup solution and tapes to facilitate this process.

16 Contract Period

The contractual period will be implementation phase + 5 years. Any delay happened during the implementation stage will not affect the said contract period of Implementation phase+ 5 years. The contract will be deemed completed only when all the contracted services by the Service Provider are provided and accepted by the Bank as per the requirements of the contract executed between the Bank and the Service Provider. At the end of contract period as per agreement, Bank at its sole discretion and requirement may choose to extend the contract period for another 2 years on a mutually agreed terms & conditions, including pricing. If the Bank does not terminate the contract at the end of 5 years, then the contract shall stand extended for two years from the date of expiry of the contract subject to mutually agreed terms & conditions, including pricing. Prices payable to the successful bidder as stated in the Contract shall be firm and not subject to any changes at any circumstances. Bank can terminate the contract by giving 90 days' notice in writing.

17 Sub-Contracting

As per scope of the RFP, subcontracting is prohibited. However, if the Bidder subsequently wishes to sub-contract the scope of work, it will have to obtain specific written permission from the Bank before contracting any work to subcontractors. Bank at its own discretion may permit or deny the same.

In case subcontracting is permitted by the Bank, the successful bidder will be responsible for all the services provided to the Bank regardless of which entity is conducting the operations. The contracting vendor is also responsible for ensuring that the sub-contractor comply with all security requirements of the contract and the Bank can obtain independent audit report for the same. In such a case, the Bidder shall provide subcontracting details to the Bank and if required, Bank may evaluate the same.

18 Governing language

The contract and all correspondence/ communications and other documents pertaining to the Contract, shall be written in English

19 Insurance

The Service Provider must be required to take adequate insurance cover against all kinds of risks including fidelity clause for the loss arising from acts of omission/ commission/ dishonesty of its employees and / or agents and would be required to keep the insurance policy alive at all times during the currency of the agreement. Bidder should have cyber insurance policy to cover first party and third-party liability coverage to organisation when cyber risk materializes and / or cyber security controls at organization fails. The coverage's established by the cyber insurance shall cover property, theft and network level security. Copies of such insurance must be shared with Bank with evidence of sufficiency of coverage.

20 Jurisdiction and Applicable Law

The Contract shall be interpreted in accordance with the laws of India. Any dispute arising out of this contract will be under the jurisdiction of Courts of Law in Lucknow. Compliance with labor and tax laws, etc. will be the sole responsibility of the supplier/ Service Provider at their cost.

21 Liquidated Damages (LD)

The Bank will consider the inability of the successful bidder to deliver the manpower and other deliverables as per scope of this RFP and proposed Agreement within the specified time limit, as a breach of Contract and would entail the payment of penalty on the part of the successful bidder. The penalty and liquidated damages represent an estimate of the loss or damage that the Bank may have suffered due to delay in performance of the obligations (relating to delivery, implementation and Training etc.) by the successful bidder.

If Successful bidders fail to deliver any or all of the Service(s) / Systems or perform the Services within the time period(s) specified in the RFP/Contract / Agreement, bank shall, without prejudice to its other rights and remedies under and in accordance with the RFP/Contract / Agreement, levy Liquidated Damages (LD) from payments, which are due to the Successful bidder.

For calculation of LD:

LD for delay in the Service(s) rendered for each week of delay beyond the scheduled date or part thereof will be a sum equivalent to 0.1 % of total cost of the project or TCO per week. In case of undue delay beyond a period of 15 days after attaining the maximum penalty of 10% of total project cost or TCO during implementation, Bank may consider termination of the contract or purchase order.

- The contract price for calculation of LD is TCO.
- The overall LD during implementation will be to a maximum of 10% of the total cost of the project excluding ATS
- The Bank reserves its right to recover these amounts by any mode such as adjusting from any payments to be made by the Bank to the Bidder under this contract.
- Part of week will be treated as a week for this purpose.
- However, the Bank may, at its discretion, waive the liquidated damages in case the delay cannot be attributed to the Bidder.
- Bank will deduct the amount of liquidated damages from the payment due of the same project from the Successful bidder. Bank may also withhold the amount to be recovered from the payment due from other projects held by the same bidder.
- Any such recovery or liquidated damages shall not in any way relieve the Successful bidder from any of its obligations to complete the works / service(s) or from any other obligations and liabilities under the Contract/Agreement/ Purchase Order.
- Both the above penalty as well as liquidated damages are independent of each other and are applicable separately and concurrently in addition to the termination of the contract if found desirable by the Bank.

22 Bank's right to accept or reject any bid or all bids

The Bank reserves the right to accept or reject any bid / all bids or annul the bidding process at any time prior to awarding the contract, without thereby incurring any liability to the affected Bidder or Bidders.

Bank reserves the right to modify the terms and conditions of this RFP duly informing the same before due date of submission of bids & publishing the same on Bank Website and GeM portal.

23 Performance Security

Within 30 days of issue of Purchase Order, the successful bidder shall furnish to the Bank the Performance Security equivalent to 5% of the contract value in the form of a Bank Guarantee from a scheduled commercial Bank located in India, valid for 74 Months with further 12 months claim period, in the format enclosed ([Annexure-IV](#)). Relaxation if any, extended by GOI/ competent authorities for furnishing PBG shall be passed on to eligible bidders. In case the contract is being extended beyond 72 months with successful bidder then Successful bidder has to submit PBG on pro rata basis.

The performance security submitted by the successful bidder shall be invoked by the Bank as compensation for any loss resulting from the bidder's failure in completing their obligations or any other claim under the Contract after cure period of 90 days.

The performance security will be discharged by the Bank and returned to the successful bidder not later than thirty (30) days following the date of completion of the successful performance obligations under the Contract.

Failure of the successful bidder to comply with the requirement of signing of contract and providing performance security shall constitute sufficient grounds for annulment of the award and forfeiture of the bid security, in which event the Bank may call for new bids.

24 Limitation of Liability

Successful bidders' aggregate liability under the contract shall be at actual and limited to a maximum of the contract value. For the purpose for the section, contract value at any given point of time, means the aggregate value of the purchase orders placed by bank on the vendor that gave rise to claim, under this tender.

This limit shall not apply to third party claims for

- Bodily injury (including death) and damage to real property and tangible property caused by vendor' or its employee/ agents.
- If a third party asserts a claim against bank that a successful bidder's solution/ product acquired under the agreement infringes an IPR, the successful bidder has to make good the loss to bank.
- If a third party asserts a claim against bank that a successful bidder's solution/ product acquired under the agreement infringes a copy right, vendor should defend the bank against that claim and pay amounts finally awarded by a court against bank or included in a settlement approved by vendor.

25 Indemnity Clause

If at the time of the supplying the goods or services or installing the platform/ software in terms of the present contract/ order or subsequently by the bidder, it appears at any point of time that an infringement has occurred of any right claimed by any third party in India or abroad, then in respect of all costs, charges, expenses, losses and other damages which the Bank may suffer on account of such claim, the supplier shall indemnify the Bank and keep it indemnified on that behalf.

Apart from the above, the Supplier shall indemnify and keep indemnified the Bank against any third-party claims, intellectual property rights violations, and any losses, damages, or liabilities arising out of breach of contractual obligations by the Supplier.

26 Disclaimer

The Bank and/or its officers, employees disown all liabilities or claims arising out of any loss or damage, whether foreseeable or not, suffered by any person acting on or refraining from acting because of any information including statements, information, forecasts, estimates or projections contained in this document or conduct ancillary to it whether or not the loss or damage arises in connection with any omission, negligence, default, lack of care or misrepresentation on the part of Bank and/or any of its officers, employees.

This RFP is not an agreement by the Authority to the prospective Bidders or any other person. The Bank shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by a Bidder in preparation or submission of the Bid, regardless of the conduct or outcome of the Bidding Process.

The information contained in this RFP document, or any information provided subsequently to Bidder(s) whether verbally or in documentary form by or on behalf of the Bank, is provided to the Bidder(s) on the terms and conditions set out in this RFP document and all other terms and conditions subject to which such information is provided.

This RFP is neither an agreement nor an offer and is only an invitation by Bank to the interested parties for submission of bids. The purpose of this RFP is to provide the Bidder(s) with information to assist in the formulation of their proposals. This RFP does not claim to contain all the information each bidder may require. Each Bidder should conduct its own investigations and analysis and should check the accuracy, reliability and completeness of the information in this RFP and where necessary,

obtain independent advice. Bank makes no representation or warranty and shall incur no liability under any law, statute, rules or regulations as to the accuracy, reliability or completeness of this RFP.

27 Patent Rights

The Supplier shall indemnify the Bank against all third-party claims of infringement of patent, trademark or industrial design rights arising from use of the Goods or software or hardware or any part thereof. In the event of any claim asserted by the third party of infringement of copyright, patent, trademark or industrial design rights arising from the use of the Goods or any part thereof, the bidder shall act expeditiously to extinguish such claims. If the bidder fails to comply and Bank is required to pay compensation to a third party resulting from such infringement, the bidder shall be responsible for the compensation including all expenses, court costs and lawyer fees. Bank will give notice to the bidder of such claims, if it is made, without delay by e-mail/registered post.

28 IT Act 2000

The equipment's / application to be quoted as per this tender should comply with the requirements under Information Technology (IT) Act 2000 and subsequent amendments and related Government/Reserve Bank India guidelines issued from time to time.

29 Intellectual Property Rights (IPR)

All application and software must be properly licensed during the period of the contract. Bank may demand evidence of the same. While the successful bidder/ OEM shall retain the intellectual property rights for the application software, it is required that successful bidder shall grant user-based/transaction-based/account-based subscription License for the term to the bank for the bank's exclusive use without limitation on the use of those licenses to any number of source channels.

The successful bidder shall place the source code of customizations done for the bank in Banks environment (and the procedures necessary to build the source code into executable form) for the application software, and the source code of the application software in escrow with a reputable agency (a bank or established software escrow firm in India) acceptable to the Bank during the contract period.

Notwithstanding the disclosure of any confidential information by the disclosing party to the receiving party, the disclosing party shall retain title and all intellectual property and proprietary rights in the confidential information. No License under any trademark, patent or copyright or application for same which are or thereafter may be obtained by such party is either granted or implied by the conveying of confidential information.

Bidder warrants that the inputs provided and/or deliverables supplied by them does not and shall not infringe upon any third-party intellectual property rights, including copyrights, patents and other intellectual property rights of any nature whatsoever.

In the event that the Deliverables become the subject of claim of violation or infringement of a third party's intellectual property rights, bidder shall at its choice and expense: [a] procure for the project the right to continue to use such deliverables; [b] replace or modify such deliverables to make them non-infringing, provided that the same function is performed by the replacement or modified deliverables as the infringing deliverables; However, Bank shall not bear any kind of expense, charge,

fees or any kind of costs in this regard. Notwithstanding the remedies contained herein, the bidder shall be responsible for payment of agree in case service levels are not met because of inability of the bank to use the proposed product.

The indemnification obligation stated in this clause apply only in the event that the indemnified party provides the indemnifying party prompt written notice of such claims, grants the indemnifying party sole authority to defend, manage, negotiate or settle such claims and makes available all reasonable assistance in defending the claims at the expenses of the indemnifying party. Notwithstanding the foregoing, neither party is authorized to agree to any settlement or compromise or the like which would require that the indemnified party make any payment or bear any other substantive obligation without the prior written consent of the indemnified party. The indemnification obligation stated in this clause reflects the entire liability of the parties for the matters addressed thereby.

The bidder acknowledges that business logics, workflows, delegation and decision-making processes of Bank are of business sensitive nature and shall not be disclosed/referred to other clients, agents or distributors.

30 Acceptance of Purchase Order

Acceptance of purchase order should be submitted within 15 days of issuance of purchase order along-with authorization letter by the successful bidder to the Bank. If for any reason successful bidder backs out after issuance of purchase order or the purchase order issued to the successful bidder does not get executed in part / full, Bank shall invoke performance bank guarantee and blacklist the bidder for a period of one year with reporting to appropriate authorities.

31 Signing of Contract Form, NDA, SLA and Submission of Proof of Source Code Audit

Within thirty (30) days from the date of Purchase Order, the successful bidder shall sign the contract form ([Annexure-III](#)), Non-Disclosure Agreement ([Annexure-VI](#)) and Service Level Agreement and return it to the Bank. Pre-Contract Integrity Pact ([Annexure-V](#)) executed between the Bank and successful bidder(s) is deemed to be a part of the contract.

Successful bidder has to submit the proof of source code audit ([Annexure-IX](#)) within 30 days from the date of purchase order that the code developed is free from any known vulnerabilities and standard coding practice including proper version control is followed during development of the code. Background check conducted, KYC details for the resources provided for the project to be submitted to the Bank (to be included only when human resources from the vendor/ successful bidder are to be provided to the Bank).

32 Settlement of Disputes

If any dispute or difference of any kind whatsoever shall arise between the Bank and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.

If the parties fail to resolve their disputes or difference by such mutual consultation within a period of 30 days, then either the Bank or the supplier may give notice to the other party of its intention to commence arbitration, as hereinafter provided, as to the matter in dispute, and no arbitration in respect of this matter may be commenced unless such notice is given.

Any dispute or difference in respect of which a notice of intention to commence arbitration has been given in accordance with this clause shall be finally settled by arbitration. Arbitration may be

commenced prior to or after delivery of the goods under the contract. Arbitration proceedings shall be conducted in accordance with the following rules of procedure.

The dispute resolution mechanism to be applied shall be as follows:

In case of dispute or difference arising between the Purchaser and a Supplier relating to any matter arising out of or connected with the agreement, such dispute or difference shall be settled in accordance with the Arbitration and Conciliation Act, 1996. The arbitral tribunal shall consist of 3 arbitrators one each to be appointed by the Purchaser and the Supplier; the third Arbitrator shall be chosen by the two Arbitrators so appointed by the Parties and shall act as Presiding Arbitrator. In case of failure of the two arbitrators appointed by the parties to reach upon a consensus within a period of 30 days from the appointment of the presiding Arbitrator, the Presiding Arbitrator shall be appointed by the Uttar Pradesh Gramin Banks, India which shall be final and binding on the parties.

If one of the parties fails to appoint its arbitrator within 30 days after receipt of the notice of the appointment of its Arbitrator by the other party, then the Uttar Pradesh Gramin Banks shall appoint the Arbitrator. A certified copy of the order of the Uttar Pradesh Gramin Banks making such an appointment shall be furnished to each of the parties.

Arbitration proceedings shall be held at Lucknow, India, and the language of the arbitration proceedings and that of all documents and communications between the parties shall be English. The decision of the majority of arbitrators shall be final and binding upon both parties. The cost and expenses of Arbitration proceedings will be paid as determined by the Arbitral Tribunal. However, the expenses incurred by each party in connection with the preparation, presentation etc. of its proceedings as also the fees and expenses paid to the arbitrator appointed by such party or on its behalf shall be borne by each party itself.

Where the value of the contract is Rs. 10 million and below, the disputes or differences arising shall be referred to the Sole Arbitrator. The Sole Arbitrator shall be appointed by agreement between the parties; failing such agreement, by the appointing authority namely the Uttar Pradesh Gramin Banks'.

Notwithstanding any reference to arbitration herein,

- I. the parties shall continue to perform their respective obligation under the contract unless they otherwise agree; and
- II. the Bank shall pay the supplier any monies due to the supplier.
- III. Submitting to arbitration may be considered as an additional remedy and it does not preclude Parties to seek redressal/ other legal recourse.
- IV. Coverage of Successful Bidder under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 (this clause will be relevant only when the successful bidder is required to provide human resources to the Bank under the contract)
- V. The Successful bidder has to submit necessary details of all the outsourced employees for any type of services engaged either through contractors or directly whenever required by the Bank. If engaged through contractors, list of all the contractors engaged for any/all services and whether the said contractors are covered independently under the EPF & MP Act 1952 is to be submitted on the Bank's request. The agreement of contracts with the contractors, the PF code number of the contractors, if covered, the attendance of the contract employees, the remitted PF challan with the Electronic Challan cum Return (ECR) should be submitted on the Bank's request.

33 Coverage of Successful Bidder under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952

The Successful bidder must submit necessary details of all the outsourced employees for any type of services engaged either through contractors or directly whenever required by the Bank. If engaged through contractors, list of all the contractors engaged for any/all services and whether the said contractors are covered independently under the EPF & MP Act 1952 is to be submitted on the Bank's request. The agreement of contracts with the contractors, the PF code number of the contractors, if covered, the attendance of the contract employees, the remitted PF challan with the Electronic Challan cum Return (ECR) should be submitted on the Bank's request.

34 Exit Requirements

In the event, the Agreement between the Bank and the Successful bidder comes to an end on account of termination or by the expiry of the term / renewed term or otherwise, the Supplier shall render all reasonable assistance and help to the Bank and to any new vendor engaged by the Bank, for the smooth switch over and continuity of the Services.

35 Termination for Convenience

The Bank, by 90 days' written notice sent to the Successful bidder, may terminate the Contract, in whole or in part, at any time for its convenience. The notice of termination shall specify that termination is for the bank's convenience, the extent to which the performance of the Successful bidder under the Contract is terminated, and the date upon which such termination becomes effective.

36 Termination for Default

The Bank, without prejudice to any other remedy for breach of contract, by 90 days' written notice of default sent to the Supplier, may terminate this Contract in whole or in part:

- if the successful bidder fails to deliver any or all the Goods and Services within the period(s) specified in the Contract, or within any extension thereof granted by the Purchaser.
- if the successful bidder fails to perform any other obligation(s) under the Contract.
- If the successful bidder, in the judgement of the Purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the Contract.
- In case of successful Bidders revoking or cancelling their Bid or varying any of the terms in regard thereof without the consent of the Bank in writing.

'For the purpose of this clause:

- **"Corrupt practice"** means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution; and
- **"Fraudulent practice"** means a misrepresentation of facts to influence a procurement process or the execution of a contract to the detriment of the Bank and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Bank of the benefits of free and open competition.

In the event the Bank terminates the Contract in whole or in part, the Bank may procure the Goods or Services similar to those undelivered, upon such terms and in such manner as it deems appropriate, and the Supplier shall be liable to the Bank for any excess costs paid/ to be paid by the Bank for such similar Goods or Services. However, the Supplier shall continue performance of the Contract to the extent not terminated.

37 Force Majeure

The Successful Bidder shall not be liable for forfeiture of its Performance Security, imposition of liquidated damages, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.

For the purposes of this clause, 'Force Majeure' means any event beyond the reasonable control of the Successful Bidder and not involving its fault or negligence and which was not reasonably foreseeable. Such events may include, but are not limited to, acts of Government or regulatory authorities, war, revolution, fire, flood, epidemic, quarantine restrictions, freight embargoes, or natural calamities. Delay or failure by subcontractors or suppliers of the Successful Bidder shall not constitute a Force Majeure event.

If a Force Majeure situation arises, the Successful Bidder shall promptly notify the Bank in writing of such condition and the cause thereof, but in any case not later than ten (10) days from the commencement of such event. The Successful Bidder shall provide reasonable evidence of the occurrence and impact of the Force Majeure event. Unless otherwise directed by the Bank in writing, the Successful Bidder shall continue to perform its obligations under the Contract as far as reasonably practicable and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

If the impossibility of performance continues for a period exceeding six (6) months, either party may terminate the Contract wholly or partially by giving thirty (30) days' prior written notice to the other party. Upon such termination, neither party shall have any further liability except for payment for goods or services already delivered and accepted, or for reasonable transition/handover obligations to an incoming vendor or service provider.

38 Confidentiality

The supplier will be exposed to internal business information of the Bank, affiliates, and / or business partners by virtue of the contracted activities. The Bidder / their employees shall treat all data & information collected from the Bank during the project in strict confidence. The Bank is expected to do the same in respect of Bidder provided data / information. After termination of the contract also the successful bidder / supplier shall not divulge any data/ information collected from the Bank during the project.

The supplier will have to enter into a Non-Disclosure agreement ([Annexure-VI](#)) with the Bank to safeguard the confidentiality of the Bank's business information, legacy applications and data.

The successful bidder and its employees either during the term or after the expiration of the contract shall not disclose any proprietary or confidential information relating to the project, the services, the contract, or the business or operations without the prior written consent of the Bank.

The successful Bidder and its employees shall not publish or disclose in any manner, without the Bank's prior written consent, the details of any security safeguards designed, developed, or implemented by the successful Bidder under this contract or existing at any Bank location. The successful Bidder shall develop procedures and implementation plans to ensure that IT resources leaving the control of the assigned user (such as being reassigned, removed for repair, replaced, or upgraded) are cleared of all Bank data and sensitive application software. The successful Bidder shall also ensure that all permitted subcontractors who are involved in providing such security safeguards or part of it shall not publish or disclose in any manner, without the Bank's prior written consent, the details of any security safeguards designed, developed, or implemented by the

successful Bidder under this contract or existing at any Bank location.

39 Negligence

If the successful bidder neglects to execute the work with due diligence or expedition or refuses or neglects to comply with any reasonable order given in writing by the Bank in connection with the work or contravenes the provisions of other Terms, in such eventuality, the Bank may after giving notice in writing to the successful bidder calling upon him to make good the failure, neglect or contravention complained of, within such times as may be deemed reasonable and in default of the said notice, the Bank shall have the right to cancel the Contract holding the successful bidder liable for the damages that the Bank may sustain in this behalf. Thereafter, the Bank may make good the failure at the risk and cost of the successful bidder.

40 Amalgamation

If the Bank undergoes a merger, amalgamation, take-over, consolidation, reconstruction, change of ownership etc., this RFP shall be considered to be assigned to the new entity and such an act shall not affect the obligations of the successful bidder under this RFP. In such case, decision of the new entity will be binding on the successful bidder.

41 Inspections and Tests

The Purchaser or its representative(s), RBI or any of the Statutory bodies, shall have the right to visit and /or inspect any of the Bidder's premises to ensure that software / code provided to the Bank is secured or goods confirm to requisite specifications. The Purchaser shall notify the Supplier in writing, in a timely manner, of the identity of any representatives retained for these purposes.

Any charges payable to the Purchaser's representative designated for inspection shall be borne by the Purchaser.

Should any inspected or tested Goods/software fail to conform to the Specifications, the Purchaser may reject the Goods/software, and the Supplier shall make alterations necessary to meet specification requirements at no additional cost to the Purchaser.

The Purchaser's right to inspect, test and, where necessary, reject the Goods or software after the delivery shall in no way be limited or waived by reason of the goods/software having previously been inspected, tested and passed by the Purchaser.

The supplier shall provide unrestricted access to its premises and records being maintained with regard to the job being performed as per its contract with the Bank, to the authorized personnel of the Bank/ its auditors (internal and external)/ any statutory/ regulatory authority/ authorized personnel from RBI to carry out any kind of process of audit including that of its operations and records related to services provided to the Bank, in the presence of representatives of the supplier, at any point of time giving advance notice. RBI or persons authorized by it shall access the records of Bank and the supplier related to this agreement and cause inspection.

42 Use of Contract Documents and Information

The successful bidder shall not, without the Purchaser's prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample or information furnished by or on behalf of the Purchaser in connection therewith, to any person other than a person employed/authorized by the successful bidder in the performance of the Contract. Disclosure to any

such employed/authorized person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.

The successful bidder shall not, without the Purchaser's prior written consent, make use of any document or information pertaining to this contract except for purposes of performing the Contract.

43 Pre-Contract Integrity Pact

Bidders shall submit Pre-Contract Integrity Pact (IP) along with the technical bid as per [Annexure-V](#) of the RFP. Pre-Contract Integrity Pact is an agreement between the prospective bidders and the Bank committing the persons/officials of both the parties not to exercise any corrupt influence on any aspect of the contract. Any violation of the terms of Pre-Contract Integrity Pact would entail disqualification of the bidders and exclusion from future business dealings.

The Pre-Contract Integrity Pact begins when both parties have legally signed it. Pre-Contract Integrity Pact with the successful bidder(s) will be valid till 12 months after the last payment made under the contract. Pre-Contract Integrity Pact with the unsuccessful bidders will be valid till 6 months after the contract is awarded to the successful bidder.

Adoption of Pre-Contract Integrity Pact

The Pact essentially envisages an agreement between the prospective bidders and the Bank, committing the persons /officials of both sides, not to resort to any corrupt practices in any aspect/ stage of the contract.

Only those bidders, who commit themselves to the above pact with the Bank, shall be considered eligible for participate in the Bid. The Bidders shall submit signed Pre-Contract integrity pact as per the [Annexure-V](#). Those Bids which are not containing the above are liable for rejection.

Foreign Bidders to disclose the name and address of agents and representatives in India and Indian Bidders to disclose their foreign principles or associates.

Bidders to disclose the payments to be made by them to agents/brokers or any other intermediary. Bidders to disclose any transgressions with any other company that may impinge on the anti-corruption principle.

Pre-Contract Integrity Pact in respect this contract would be operative from the stage of invitation of the Bids till the final completion of the contract. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings.

The Pre-Contract Integrity Pact Agreement submitted by the bidder during the Bid submission will automatically form the part of the Contract Agreement till the conclusion of the contract i.e. the final payment or the duration of the Warranty /Guarantee/AMC if contracted whichever is later.

Integrity Pact, in respect of a particular contract would be operative from the stage of invitation of bids till the final completion of the contract. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings.

Pre-Contract Integrity Pact shall be signed by the person who is authorized to sign the Bid.

The Name and Contact details of the Independent External Monitor (IEM) nominated by the Bank are as under:

Shri Bishwamitra Pandey
Flat No. 1104, Tower No. KNG-001
JP Greens Wish Town Klassic Sector-134
Email Id- vishwamitram1@gmail.com

Any Change in law / policy / circular relating to Pre-Contract Integrity Pact which vitiate the agreement shall accordingly be applicable with immediate effect on written intimation from the Bank.

Any violation of Pre-Contract Integrity Pact would entail disqualification of the bidders and exclusion from future business dealings, as per the existing provisions of GFR, 2017, Prevention of Corruption Act (PC Act), 1988 or other Financial Rules as may be applicable to the Bank.

44 Delivery Schedule

Refer Cutover and Transition Section in the RFP

45 Working Days

The working days will be 365/366 x 24 x 7 days

46 Implementation of Services

The successful bidder shall provide all the services specified hereunder having Technical and Functional specifications in accordance with the highest standards of professional competence and integrity. If the Bank finds that any of the staff of the successful bidder assigned to work at the Bank's site is not responsive, then the successful bidder will be notified accordingly and the successful bidder shall be under obligation to resolve the issue expeditiously to the satisfaction of the Bank.

47 Termination for Insolvency

If the successful bidder becomes bankrupt or insolvent, has a receiving order issued against it, compounds with its creditors, or, if the successful bidder is a corporation, a resolution is passed or order is made for its winding up (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), a receiver is appointed over in part of its undertaking or assets, or if the successful bidder takes or suffers any other analogous action in consequence of a debt; then the Bank may at any time terminate the contract by giving a notice to the successful bidder.

If the contract is terminated by the Bank in terms of this clause, termination will be without compensation to the successful bidder provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the Bank.

In case the termination occurs before implementation of the project/ delivery of goods/services in full, in terms of this clause, the Bank is entitled to make its claim to the extent of the amount already

paid by the Bank to the successful bidder.

48 Taxes and Duties

The successful bidder shall be liable to pay all taxes that shall be levied against it, in accordance with the laws applicable from time to time in India.

49 Compliance with Policy

The successful bidder shall have to comply without any extra cost to bank with Uttar Pradesh Gramin Bank's policies like IT policy, Information Security policy, Cyber Security Policy, Digital Personal Data Protection Policy etc. in key concern areas relevant to the RFP, details of which shall be shared with the successful bidder.

50 Compliance with Statutory and Regulatory Provisions

The successful bidder shall comply without any extra cost to bank with all statutory and Regulatory provisions while executing the contract awarded by Bank.

51 Other Terms and Conditions

The relationship between the Bank and Successful Bidder/s is on principal-to-principal basis. Nothing contained herein shall be deemed to create any association, partnership, joint venture or relationship or principal and agent or master and servant or employer and employee between the Bank and Successful Bidder/s hereto or any affiliates or subsidiaries thereof or to provide any party with the right, power or authority, whether express or implied to create any such duty or obligation on behalf of the other party.

Successful bidder/Service Provider shall be the principal employer of the employees, agents, contractors, subcontractors etc., engaged by the successful bidder/Service Provider and shall be vicariously liable for all the acts, deeds, matters or things, of such persons whether the same is within the scope of power or outside the scope of power, vested under the contract. No right of any employment in the Bank shall accrue or arise, by virtue of engagement of employees, agents, contractors, subcontractors etc., by the successful bidder/Service Provider, for any assignment under the contract. All remuneration, claims, wages dues etc., of such employees, agents, contractors, subcontractors etc., of the successful bidder/Service Provider shall be paid by the successful bidder/Service Provider alone and the Bank shall not have any direct or indirect liability or obligation, to pay any charges, claims or wages of any of the successful bidder's/Service Provider's employees, agents, contractors, subcontractors etc. The Successful Bidder/Service Provider shall agree to hold the Bank, its successors, assigns and administrators fully indemnified, and harmless against loss or liability, claims, actions or proceedings, if any, whatsoever nature that may arise or caused to the Bank through the action of Successful Bidder/Service Provider's employees, agents, contractors, subcontractors etc.

52 General Terms and Conditions

52.1 Rejection of Bids

The Bank reserves the right to reject the Bid if,

- I. Bidder does not meet any of the pre-bid eligibility criteria mentioned above including non- payment of the bid cost.
- II. The bid is incomplete as per the RFP requirements.

- III. Any condition stated by the bidder is not acceptable to the Bank.
- IV. If the RFP and any of the terms and conditions stipulated in the document are not accepted by the authorized representatives of the bidder.
- V. Required information not submitted as per the format given.
- VI. Any information submitted by the bidder is found to be untrue/fake/false.
- VII. The bidder does not provide, within the time specified by the bank, the supplemental information / clarification sought by the bank for evaluation of bid.
- VIII. The Bank shall be under no obligation to accept any offer received in response to this RFP and shall be entitled to reject any or all offers without assigning any reason whatsoever. The Bank may abort entire process at any stage without thereby incurring any liability to the affected Bidder(s) or any obligation to inform the affected Bidder(s) of the grounds for Bank's action.
- IX. In order to promote consistency among the Proposals and to minimize potential misunderstandings regarding how Proposals will be interpreted by the Bank, the format in which Bidders will specify the fundamental aspects of their Proposals has been broadly outlined in this RFP.
- X. Any clarifications to the RFP should be sought by email as per the dates mentioned in "Schedule [A] Important Dates". Bank will hold a pre-bid meeting, to answer all the questions / queries received by email which would also be uploaded on bank's website and GeM portal.
- XI. Proposals received by the Bank after the specified time and date shall not be eligible for consideration and shall be summarily rejected.
- XII. In case of any change in timeline, the same shall be updated on the Bank's website and shall be applicable uniformly to all bidders.

52.2 Representation and Warranties

The Bidder represents and warrants as of the date hereof, which representations and warranties shall survive the term and termination hereof, the following:

That the representations made by the Bidder in its Bid are and shall continue to remain true and fulfil all the requirements as are necessary for executing the duties, obligations and responsibilities as laid down in the RFP and unless the Bank specifies to the contrary, the Bidder shall be bound by all the terms of the RFP.

That all the representations and warranties as have been made by the Bidder with respect to its Bid and Contract, are true and correct, and shall continue to remain true and correct through the term of this Contract.

That the execution of the Services herein is and shall be in accordance and in compliance with all applicable laws.

That there are –

- 52.2.1 no legal proceedings pending or threatened against Bidder or any sub Bidder/third party or its team which adversely affect/may affect performance under this Contract; and
- 52.2.2 no inquiries or investigations have been threatened, commenced or pending against Bidder or any sub-Bidder / third part or its team members by any statutory or regulatory or investigative agencies.
- 52.2.3 That the Bidder is validly constituted and has the corporate power to execute, deliver and perform the terms and provisions of this Contract and has taken all necessary corporate action to authorize the execution, delivery and performance by it of the Contract.
- 52.2.4 That all conditions precedent under the Contract has been complied by the bidder.
- 52.2.5 That neither the execution and delivery by the Bidder of the Contract nor the Bidder's compliance with or performance of the terms and provisions of the Contract:

- Will contravene, any provision of any applicable law or any order, writ, injunction or decree of any court or government authority binding on the Bidder,
- Will conflict or be inconsistent with or result in any breach of any or the terms, covenants, conditions or provisions of, or constitute a default under any agreement, contract or instrument to which the Bidder is a Party or by which it or any of its property or assets is bound or to which it may be subject, or
- Will violate any provision of the Memorandum or Articles of Association of the Bidder.

52.2.6 That the Bidder certifies that all registrations, recordings, filings and notarizations of the bid documents/ agreements/ contract and all payments of any tax or duty, including without limitation stamp duty, registration charges or similar amounts which are required to be effected or made by the Bidder which is necessary to ensure the legality, validity, enforceability or admissibility in evidence of the Contract have been/ shall be made.

That the Bidder confirms that there has not and shall not occur any execution, amendment or modification of any agreement/contract without the prior written consent of the Bank, which may directly or indirectly have a bearing on the Contract or the project.

52.2.7 That the Bidder owns or has good, legal or beneficial title, or other interest in the property, assets and revenues of the Bidder on which it grants or purports to grant or create any interest pursuant to the Contract, in each case free and clear of any encumbrance and further confirms that such interests created or expressed to be created are valid and enforceable.

52.2.8 That the Bidder owns, has license to use or otherwise has the right to use, free of any pending or threatened liens or other security or other interests all Intellectual Property Rights, which are required or desirable for the project and the Bidder does not, in carrying on its business and operations, infringe any Intellectual Property Rights of any person. None of the Intellectual Property or Intellectual Property Rights owned or enjoyed by the Bidder or which the Bidder is licensed to use, which are material in the context of the Bidder's business and operations are being infringed nor, so far as the Bidder is aware, is there any infringement or threatened infringement of those Intellectual Property or Intellectual Property Rights licensed or provided to the Bidder by any person. All Intellectual Property Rights (owned by the Bidder or which the Bidder is licensed to use) are valid and subsisting. All actions (including registration, payment of all registration and renewal fees) required by the bidder to maintain the same in full force and effect have been taken thereon and shall keep the Bank indemnified in relation thereto.

52.2.9 Any intellectual property arising during the course of the execution under the contract related to tools/ systems/ product/ process, developed with the consultation of the bidder will be intellectual property of the Bank.

52.3 Relationship of Parties

52.3.1 Nothing in the Contract shall constitute any fiduciary relationship between the Bank and Bidder/Bidder's Team or any relationship of employer — employee, principal and agent, or partnership, between Uttar Pradesh Gramin Bank and Bidder and /or its employees.

52.3.2 No Party has any authority to bind the other Party in any manner whatsoever, except as agreed under the terms of the Contract.

52.3.3 Uttar Pradesh Gramin Bank has no obligation to the successful Bidder, except as agreed under the terms of the Contract.

- All employees/personnel/ representatives/agents etc., engaged by the Successful Bidder for performing its obligations under the Contract/RFP shall be in sole employment of the Successful Bidder and the Successful Bidder shall be solely responsible for their salaries, wages, statutory payments etc. Under no circumstances, shall Uttar Pradesh Gramin Bank be liable for any payment or claim or compensation (including but not limited to any compensation on account of any injury / death / termination) of any nature to the employees / personnel / representatives / agent etc. of the Successful Bidder.

52.3.4 Supplier/Vendor has to take an undertaking from their employees connected with the contract/RFP/solution to maintain the confidentiality of the Bank's information/documents etc. Bank may seek details / confirmation on background verification of Vendor's employees worked/working on Bank's project as may have been undertaken / executed by the Vendor, Vendor should be agreeable for any such undertaking/verification.

52.3.5 The Successful Bidder shall disclose to Uttar Pradesh Gramin Bank in writing, all actual and potential conflicts of interest that exist, arise or may arise (either for the Successful Bidder or its team/agents/representatives/personnel etc.) in the course of performing the Services as soon as practical after it becomes aware of that conflict.

52.3.6 The Successful Bidder shall not make or permit to be made a public announcement or media release about any aspect of the Bid/ Contract unless Uttar Pradesh Gramin Bank first gives the Successful Bidder its prior written consent.

52.4 No Right to Set Off

In case the Successful Bidder has any other business relationship with the Bank, no right of set-off, counter-claim and cross-claim and or otherwise will be available under the agreement to the said Bidder for any payments receivable under and in accordance with that business.

52.5 Publicity

Any publicity by the Bidder in which the name of the Bank is to be used should be done only with the explicit written permission of the Bank.

52.6 Conflict of Interest

The Bidder shall disclose to the Bank in writing, all actual and potential conflicts of interest that exist, arise or may arise (either for the Bidder or the Bidder's team) in the course of performing the services / appointment as soon as practical after it becomes aware of that conflict.

52.7 Solicitation of Employees

The selected Bidder, during the term of the contract shall not without the express written consent of the Bank, directly or indirectly:

- a. recruit, hire, appoint or engage or attempt to recruit, hire, appoint or engage or discuss employment with or otherwise utilize the services of any person who has been an employee

or associate or engaged in any capacity, by the Bank in rendering services in relation to the contract; or

- b. induce any person who shall have been an employee or associate of the Bank at any time to terminate his/ her relationship with the Bank.

52.8 Notices and Other Communication

If a notice has to be sent to either of the parties following the signing of the contract, it has to be in writing and shall be sent personally or by certified or registered post with acknowledgement due or overnight courier or email duly transmitted, addressed to the other party at the addresses, email given in the contract.

Notices shall be deemed given upon receipt, except that notices sent by registered post in a correctly addressed envelope shall be deemed to be delivered within 5 working days (excluding Sundays and public holidays) after the date of mailing dispatch and in case the communication is made by email, on business date immediately after the date of successful email. (that is, the sender has a hard copy of the page evidencing that the email sent to correct email address).

Any Party may change the address, email address and fax number to which notices are to be sent to it, by providing written notice to the other Party in one of the manners provided in this section.

52.9 Substitution of Team Members

The BID should also contain resource planning proposed to be deployed for the project which includes inter-alia, the number of personnel, skill profile of each personnel, duration of employment etc.

During the assignment, the substitution of key staff identified for the assignment shall not be allowed unless such substitution becomes unavoidable to overcome the undue delay or that such changes are critical to meet the obligation. In such circumstances, the Bidder can do so only with the concurrence of the Bank by providing alternate staff of same level of qualifications and expertise. If the Bank is not satisfied with the substitution, the Bank reserves the right to terminate the contract and recover whatever payments has been made by the Bank to the Bidder during the course of this assignment besides claiming an amount, equal to 10% of the contract value as liquidated damages. The Bank reserves the right to insist the Bidder to replace any team member with another (with the qualifications and expertise as required by the Bank) during the course of assignment. The Bidder will have to undertake that no such substitution would delay the project timelines.

52.10 Severability

If any provision herein becomes invalid, illegal or unenforceable under any law, the validity, legality and enforceability of the remaining provisions and this RFP shall not be affected or impaired.

SECTION – IV

1. Instructions to Bidders

SUBMISSION OF BIDS THROUGH GeM PORTAL

The Bid documents, to be uploaded as part of online bid submission, are as follows:

- a. Eligibility Criteria, along with all supporting documents required.
- b. All Annexures as per this tender on Bidder's letter head with authorizing person's signature and Bidder seal on all pages.
- c. All supporting documents and product literature in support of Technical/ Functional specifications.
- d. Relevant brochures.
- e. Compliance to Technical/ Functional Specifications as per Technical Bid.
- f. Any other information sought by the Bank with relevant to this tender.

(*Please refer checklist under [Annexure-X](#) of this tender for more details)

Bidder should upload all the copies of relevant documents without fail in support of their bid and as per the instructions given in tender documents. If the files to be uploaded are in PDF format, ensure to upload it in "Searchable" PDF Format. After filling data in predefined forms bidders need to click on final submission link to submit their encrypted bid.

Please take care to scan documents so that total size of documents to be uploaded remains minimum. Unless specified in this RFP, **every document submitted online to the Bank shall be in PDF Format. The Scanned Documents shall be OCR enabled for facilitating "search" on the scanned document.** Utmost care may be taken to name the files/documents to be uploaded on e-tendering portal.

2. Bid Related Information

Bidders must ensure that all documents uploaded on e-tendering portal as files or zipped folders, contain valid files and are not corrupt or damaged due to any processing at bidder PC system like zipping etc. It shall be the responsibility of bidder themselves for proper extractability of uploaded zipped files.

Any error/virus creeping into files/folder from client end PC system cannot be monitored by e-tender software/server and will be bidder's responsibility only.

3. Offline Submissions

In addition to uploading the documents in our e-Tendering portal, Bidders should also submit the following in a sealed envelope, super scribing with the tender Reference number, last date and time of bid submission, Name of the Bidder, etc.

- a) DD towards Cost of bid document
- b) Bid Security (EMD) in the form of Account Payee Demand Draft/Fund Transfer/Fixed Deposit Receipt (Uttar Pradesh Gramin Bank in favour of "Uttar Pradesh Gramin Bank" payable at Lucknow.
- c) Pre-Contract Integrity Pact.

Note: Companies registered as Micro/Small Units under MSE/NSIC (National Small Industries Corporation Ltd.) should submit documentary proof for claiming exemption from Cost of Bid document.

The bidder is requested to submit the original documents (as mentioned under point no. 9 of Schedule [A]) in a Sealed Envelope on or before 08/05/2026 03:00 PM at the address mentioned under point no. 4 of Schedule [A] (Important Dates and Information on RFP Submission) of schedule of this tender. The envelope shall be super scribed as **"Request for Proposal for Supply and Installation of EFRMS."** and the words **'DO NOT OPEN BEFORE (08/05/2026 03:30 PM).'**

4. Other Instructions

For further instructions like system requirements and manuals, the bidder should visit GeM portal or banks Website.

The following 'Three Key Instructions' for bidders must be assiduously adhered to

1. Register your organization on the GeM portal well in advance before tender submission deadline on the portal.
2. Get your organization's concerned executives trained on GeM portal well in advance before tender submission deadline on the portal.
3. Submit your bids well in advance of tender submission deadline on the GeM portal (Bank will not be responsible any problem arising out of internet connectivity issues).

Note: While the first two instructions mentioned above are especially relevant to first-time users of the GeM portal, the third instruction is relevant at all times.

ANNEXURE-V - Pre-Contract Integrity Pact

(To be submitted on Non - Judicial Stamp Paper)

PRE-CONTRACT INTEGRITY PACT

Between

Uttar Pradesh Gramin Bank hereinafter referred to

as "The Bank" and

.....hereinafter referred to as "The Bidder/Contractor"

Preamble

The Bank intends to award, under laid down organizational procedures, contract/s for **Supply, Installation, Implementation, Management and Maintenance of Enterprise Fraud Risk Management (FRM) Solution**. The Bank values full compliance with all relevant laws of the land, rules, regulations, economic use of resources and of fairness / transparency in its relations with its Bidder(s) and / or Contractor(s).

In order to achieve these goals, the Bank will appoint an Independent External Monitor/s (IEM), who will monitor the tender process and the execution of the contract for compliance with the principles mentioned above.

Section 1 – Commitments of the Bank

The Bank commits itself to take all measures necessary to prevent corruption and to observe the following principles:

No employee of the Bank, personally or through family members, will in connection with the tender for, or the execution of a contract, demand, take a promise for or accept, for self or third person, any material or immaterial benefit which the person is not legally entitled to.

The Bank will, during the tender process treat all Bidder(s) with equity and reason. The Bank will in particular, before and during the tender process, provide to all Bidder(s) the same information and will not provide to any Bidder(s) confidential/additional information through which the Bidder(s) could obtain an advantage in relation to the tender process or the contract execution.

The Bank will exclude from the process all known prejudiced persons.

If the Bank obtains information on the conduct of any of its employees which is a criminal offence under the IPC/PC Act, or if there be a substantive suspicion in this regard, the Bank will inform the Chief Vigilance Officer (CVO) and in addition can initiate disciplinary actions.

Section 2 – Commitment of the Bidder(s)/ Contractor(s)

1. The Bidder(s) / Contractor(s) commit themselves to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the tender process and during the contract execution.

The Bidder(s) / Contractor(s) will not, directly or through any other person or firm, offer, promise or give to any of the Bank's employees involved in the tender process or the execution of the contract or to any third person any material or other benefit which he/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the tender process or during the execution of the contract.

The Bidder(s) / Contractor(s) will not enter with other Bidders into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to introduce cartelization in the bidding process.

The Bidder(s) / Contractor(s) will not commit any offence under the relevant IPC/PC Act: further,

the Bidder (s) / Contractor (s) will not use improperly, for purpose of competition or personal gain, or pass on to others, any information or documents provided by the Bank as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.

The Bidder (s) / Contractor (s) of foreign origin shall disclose the name and address of the Agents/Representatives in India, if any. Similarly, the Bidder(s)/Contractor (s) of Indian Nationality shall furnish the name and address of the foreign principals, if any. Further, as mentioned in the "Guidelines on Indian Agents of Foreign Suppliers" shall be disclosed by the Bidder (s) / Contractor (s). Further as mentioned in the Guidelines, all the payments made to the Indian Agent/Representative have to be in Indian Rupees only. Copy of the "Guidelines on Indian Agents of Foreign Suppliers" is placed at Annexure.

The Bidder (s) / Contractor (s) will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the contract.

2. The Bidder (s) / Contractor (s) will not instigate third persons to commit offences outlined above or be an accessory to such offences.

Section 3– Disqualification from tender process and exclusion from future contracts

If the Bidder(s) / Contractor(s), before award or during execution has committed a transgression through a violation of Section 2, above or any other form such as to put his reliability or creditability in question, the Bank is entitled to disqualify the Bidder(s) / Contractor(s) from the tender process.

Section 4 – Compensation for Damages

If the Bank has disqualified the Bidder(s) from the tender process prior to the award according to Section 3, the Bank is entitled to demand and recover the damages equivalent to Bid Security and this bid security will be forfeited.

If the Bank has terminated the contract according to Section 3, or if the Bank is entitled to terminate the contract according to Section 3, the Bank shall be entitled to demand and recover from the Contractor the liquidated damages equivalent to the amount of the contract value.

Section 5 – Previous Transgression

The Bidders declares that no previous transgressions occurred in the last three years with any other Company in any country conforming to the anti-corruption approach or with any other Public Sector Enterprises in India that could justify his exclusion from the tender process.

The Bidder agrees that if he makes incorrect statement on this subject, bidder is liable to be disqualified from the tender process or the contract, if already awarded, is liable to be terminated for such reason. The imposition and duration of the execution of the bidder will be determined by the bidder based on the severity of transgression.

The Bidder/Contractor acknowledges and undertakes to respect and uphold the Bank absolute right to resort to and impose such exclusion.

Apart from the above, the Bank may take action for banning of business dealings/holiday listing of the Bidder/ Contractor as deemed fit by the Bank.

If the Bidder/Contractor can prove that he has resorted/recouped the damage caused by him and has implemented a suitable corruption prevention system, the Bank may, at its own discretion, as per laid down organizational procedures, revoke the exclusion prematurely.

Section 6 – Equal treatment of all Bidders/ Contractors/ Sub-Contractors

The Bidder(s)/Contractor(s) undertake(s) to demand from all sub-contractors a commitment in conformity with this Pre-Contract Integrity Pact, and to submit it to the Bank before contract signing.

The Bidder(s)/Contractor(s) shall be responsible for any violation(s) of the principles laid down in this agreement/Pact by any of its Sub-contractors/Sub-vendors.

The Bank will enter into agreement with identical conditions as this one with all Bidders/Contractors. The Bank will disqualify from the tender process all bidders who do not sign this Pact or violate its provisions.

Section 7 – Criminal charges against violating Bidder(s) /Contractor(s) /Sub contractor(s)

If the Bank obtains knowledge of conduct of a Bidder, Contractor or Sub-contractor or of an employee or a representative or an associate of a Bidder, Contractor or Subcontractor which constitutes corruption, or of the Bank has substantive suspicion in this regard, the Bank will inform the same to the Chief Vigilance Officer.

Section 8 – Independent External Monitor / Monitors

The Bank appoints competent and credible Independent External Monitor for this Pact. The task of the Monitor is to review independently and objectively, whether and to what extent the parties comply with the obligations under this agreement.

The Monitor is not subject to instructions by the representatives of the parties and performs his functions neutrally and independently. It will be obligatory for him to treat the information and documents of the Bidders/Contractors as confidential. He reports to the Authority designated by the Bank.

The Bidder(s)/Contractor(s) accept that the Monitor has the right to access without restriction to all Project documentations of the Bank including that provided by the Contractor. The Contractor will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor is under contractual obligation to treat the information and documents of the Bidders)/Contractors(s)/Subcontractors(s) with confidentiality.

The Bank will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the Bank and the Contractor. The parties offer to the Monitor the option to participate in such meetings.

As soon as the Monitor notices, or believes to notice, a violation of this agreement, he will so inform the Management of the Bank and request the Management to discontinue or take corrective action, or to take other relevant action. The Monitor can in this regard submit non-binding recommendations. Beyond this, the Monitor has no right to demand from the parties that they act in a specific manner, refrain from action or tolerate action.

The Monitor will submit a written report to the Authority designated by the Bank, within 8 to 10 weeks from the date of reference or intimation to him by the Bank and, should the occasion arise submit proposals for correcting problematic situations.

If the Monitor has reported to Authority designated by the Bank, a substantiated suspicion of an offence under relevant IPC/PC Act, and the Authority designated by the Bank has not, within the reasonable time taken visible action to proceed against such offence or reported it to the Chief Vigilance Officer, the Monitor may also transmit this information directly to the Central Vigilance Commissioner.

The word 'Monitor' would include both singular and plural.

Section 9 – Pact Duration

This pact begins when both parties have legally signed it. It expires for the Contractor 12 months after the last payment under the contract, and for all other Bidders 6 months after the contract has been awarded on whomsoever it may be.

If any claim is made/lodged during this time, the same shall be binding and continue to be valid

despite the lapse of this pact as specified above, unless it is discharged/determined by the Bank.

Section 10 – Examination of Books of Accounts

In case of any allegation of, violation of any provisions of this Pre-Contract Integrity Pact or payment of commission, the Bank or its agencies shall be entitled to examine the Books of Accounts of the Bidder and the Bidder shall provide necessary information of the relevant financial documents in English and shall extend all possible help for the purpose of such examination.

Section 11 – Other provisions

This agreement is subject to Indian Law, Place of performance and jurisdiction is the Corporate Office of the Bank, i.e. Lucknow.

Changes and supplements as well as termination notices need to be made in writing. Side agreements have not been made.

If the Contractor is a partnership or a Consortium, this agreement must be signed by all partners or Consortium members. In case of a Company, the Pact must be signed by a representative duly authorized by Board resolution.

Should one or several provisions of this agreement turn out to be invalid, the reminder of this agreement remains valid. In this case, the parties will strive to come to an agreement to their original intentions.

In the event of any contradiction between the Pre-Contract Integrity Pact and its Annexure, the Clause in the Pre-Contract Integrity Pact will prevail.

Parties signing this Pact shall not approach the courts while representing the matters to Independent External Monitors and he/she will await their decision in the matter.

Any dispute or difference arising between the parties with regard to the terms of this Agreement/Pact, any action taken by the Bank in accordance with this Agreement/Pact or interpretation thereof shall not be subject to arbitration.

The parties hereby sign this Pre-Contract Integrity Pact aton

ANNEXURE-VI Non-Disclosure Agreement

THIS AGREEMENT made and entered into aton this theday of.....202... between Uttar Pradesh Gramin Bank, a body corporate constituted under the Banking Companies (Acquisition & Transfer of Undertakings) Act 1970, having its Corporate Office, 2nd and 3rd Floor, NBCC Building, Vardan Khand, Gomti Nagar Ext Extension, Lucknow-226010, hereinafter called the "BANK" which term shall wherever the context so require includes its successors and assigns

AND

M/s..... Limited a company registered under the Companies Act having its registered office at..... hereinafter called the "Supplier" which term shall wherever the context so require includes its successors and assigns, WITNESSETH:

WHEREAS

The Bank is inter-alia engaged in the business of banking and intends to procure **Supply, Installation, Implementation, Management and Maintenance of Enterprise Fraud Risk Management (FRM) Solution**. M/s..... Limited has been engaged in the business of providing **Enterprise Fraud Risk Management solution**.

The parties have entered into agreement dated _____ for **Supply, Installation, Implementation, Management and Maintenance of Enterprise Fraud Risk Management (FRM) Solution** (herein after referred to as "purpose") and have established business relationship between themselves. In course of the said purpose, it is anticipated that each party may disclose or deliver to the other certain or some of its trade secrets or confidential or proprietary information. The parties have agreed that disclosure and use of such confidential information shall be made and on the terms and conditions of this agreement.

NOW THEREFORE THIS AGREEMENT WITNESSETH and it is hereby agreed by and between the parties hereto as follows:

1. Confidential information

Confidential Information means all information disclosed/ furnished by either party to another party in connection with the Purpose. Confidential Information shall include customer data, any copy, abstract, extract, sample, note or module thereof and all electronic material or records, tenders and other written, printed or tangible thereof and include all information or material that has or could have commercial value or other utility in the business in which disclosing party is engaged.

Receiving party may use the information solely for and in connection with the Purpose.

2. Use of Confidential Information

Each party agrees not to use the other's confidential information for any purpose other than for the specific purpose. Any other use of such confidential information by any party shall be made only upon the prior written consent from the authorized representative of the other party or pursuant to subsequent agreement between the Parties hereto.

The receiving party shall not commercially use or disclose for commercial purpose any confidential information or any materials derived there from, to any other person or entity other than persons in the direct employment of the Receiving Party who have a need to access to and knowledge of the confidential information solely for the purpose authorized above. Whenever, it is expedient under the contract, the Receiving Party may disclose confidential information to consultants/third party only if the consultant/ third party has executed non-disclosure agreement with the Receiving Party that contains terms and conditions that are no less restrictive than these and such consultant should also be liable to the original disclosing party for any unauthorized use or disclosure. The Receiving party shall take appropriate measures by instruction and written agreement prior to disclosure to such employees to assure against unauthorized use or disclosure. The Receiving Party agrees to

notify the Disclosing Party immediately if it learns of any use or disclosure of the Disclosing party's confidential information in violation of the terms of this Agreement.

Neither party shall make news release, public announcements, give interviews, issue or publish advertisements or Agreement, the contents/provisions thereof, other information relating to this

agreement, the purpose, the Confidential information or other matter of this agreement, without the prior written approval of the other party.

Upon written request by the Bank, the Supplier shall:

- I. cease using the Confidential information,
- II. return the Confidential Information and all copies, notes or extracts thereof to the Bank within seven (7) business days of receipt of request and
- III. confirm in writing that the Receiving Party has complied with the obligations set forth in this paragraph."

3. Exemptions

The obligations imposed upon either party herein shall not apply to information, technical data or know how whether or not designated as confidential, that:

- Is already known to the Receiving party at the time of the disclosure without an obligation of confidentiality
- Is or becomes publicly known through no unauthorized act of the Receiving party
- Is rightfully received from a third party without restriction and without breach of this agreement
- Is independently developed by the Receiving party without use of the other party's confidential information and is so documented.
- Is disclosed without similar restrictions to a third party by the Party owning the confidential information
- Is approved for release by written authorization of the disclosing party; or
- Is required to be disclosed pursuant to any applicable laws or regulations or any order of a court or a governmental body; provided, however that the Receiving party shall first have given notice to the Disclosing Party and made a reasonable effort to obtain a protective order requiring that the confidential information and / or documents so disclosed used only for the purposes for which the order was issued.

4. Term

This agreement shall be effective from the date of the execution of this agreement and shall continue till expiration or termination of this agreement due to cessation of the business relationship between the parties. Upon expiration or termination as contemplated herein the Receiving party shall immediately cease any or all disclosures or uses of confidential information and at the request of the disclosing party, the receiving party shall promptly return or destroy all written, graphic or other tangible forms of the confidential information and all copies, abstracts, extracts, samples, note or modules thereof.

Notwithstanding the above, the obligations of the receiving party in respect of disclosure and confidentiality shall continue to be binding and applicable without limit until such information enters the public domain.

5. Title and Proprietary rights

Notwithstanding the disclosure of any confidential information by the disclosing party to the receiving party, the disclosing party shall retain title and all intellectual property and proprietary rights in the confidential information. No License under any trademark, patent or copyright or application for same which are or thereafter may be obtained by such party is either granted or

implied by the conveying of confidential information.

6. Return of confidential information

Upon written demand of the disclosing party, the receiving party shall (i) cease using the confidential information (ii) return the confidential information and all copies, abstracts, extracts, samples, note or modules thereof to the disclosing party within seven (7) days after receipt of notice and (iii) upon request of the disclosing party, certify in writing that the receiving party has complied with the obligations set forth in this paragraph.

7. Remedies

The receiving party acknowledges that if the receiving party fails to comply with any of its obligations hereunder, the disclosing party may suffer immediate, irreparable harm for which monetary damages may not be adequate. The receiving party agrees that, in addition to all other remedies provided at law or in equity, the disclosing party shall be entitled to injunctive relief hereunder.

8. Entire agreement

This agreement constitutes the entire agreement between the parties relating to the matter discussed herein and supersedes any and all prior oral discussion and/or written correspondence or agreements between the parties. This agreement may be amended or modified only with the mutual written consent of the parties. Neither this agreement nor any rights, benefits and obligations granted hereunder shall be assignable or otherwise transferable.

9. Severability

If any provision herein becomes invalid, illegal or unenforceable under any law, the validity, legality and enforceability of the remaining provisions and this agreement shall not be affected or impaired.

10. Dispute resolution mechanism

In the event of any controversy or dispute regarding the interpretation of any part of this agreement or any matter connected with, arising out of, or incidental to the arrangement incorporated in this agreement, the matter shall be referred to arbitration and the award passed in such arbitration shall be binding on the parties. The arbitral proceeding shall be governed by the provisions of Arbitration and Reconciliation Act 1996 and the place of arbitration shall be Lucknow.

Submitting to arbitration may be considered as an additional remedy and it does not preclude the parties to seek redressal/ other legal recourse.

11. Jurisdiction

Any dispute arising out of this order will be under the jurisdiction of Courts of Law in Lucknow.

12. Indemnity clause

"The receiving party should indemnify and keep indemnified, saved, defended, harmless against any loss, damage, costs etc. incurred and / or suffered by the disclosing party arising out of breach of confidentiality obligations under this agreement by the receiving party etc., officers, employees, agents or consultants."

13. Governing laws

The provisions of this agreement shall be governed by the laws of India.

In witness whereof, the parties hereto have set their hands through their authorised signatories
